NUMEROUS WITNESSES CALLED IN FRANK CASE

List Indicates That Prisoner Is Prepared to Put Character in Evidence.

Numbers of witnesses were coned to court by both sides hen the names were called so il could be sworn it developed sides when the names were called so when the names were called so all could be sworn it developed that scores of Leo Frank's friends had been called upon. From the fact that there is not a possibility of one in this number knowing anything of the crime, the converse that the defense has made to put Frank's moned ber knowing anything of the crime, it appears that the defense has made preparation, at least, to put Frank's character in ovidence and has secured these of his friends to testify for him. Of the number of Frank's close friends and brothers in his fraternal order it is expected that several will be used to support the claim which it is expected will be made that a card party was going on at his house on the night of April 26. By this means an alibi for a number of hours might be proved.
