The night letter here shown is self-explanatory. It was sent to our Mr. A G. Rhodes by the Buck's people to show that the long and bitter struggle between Buck's and organized labor had been brought to a close amicably to all parties. The whitewinged Dove of Peace now hovers over both erstwhile warring camps, all animosities have been banished, and everybody is satisfied and happy. We are glad to make this announcement and invite all organized labor to share our jubilation.

## THE RECOLLECTIONS OF

## ALEXANDER H. STEPHENS

The August issue of Uncle Remus's Home Magazine contains the first installment of "The Recollections of Alex. H. Stephens." In the chapters of this unsurpassed contribution to history and humanity, a great heart and noble soul are laid bare. These "Recollections" should be read by every earnest man, aspiring youth and devoted woman in America.

The South, above all other sections, should welcome this splendid series. Never before has been printed so complete, so disingenuous and so sound an array of wise and patriotic utterances. With the publication of these "Recollections" the final stamp of genuine greatness is placed on the life and personality of the wonderful little man whose influence leavened and uplifted the statesmanship of his times. And they will arouse anew a sentiment of inspired loyalty to right and justice as well as prove a stimulus to all sincere men and women to wage a harder, more effectual, fight in the struggle to better all mankind.

An intensely interesting feature of the "Recollections" is the opening installment in the August issue, giving an admirably written sketch of Mr. Stephens by that brillant author and compiler, Mrs. Myrta Lockett Avary, who has edited the "Recollections" for Uncle Remus's Home Magazine.

In addition to Mr. Stephens' own story there will be scores of illustrations - many of them rare, many of them never before published. Another feature of the August issue is the magnificent cover design, which is from a rare old photograph of Mr. Stephens.

Among the other features that are sure to please and entertain you are the following

## This car will add new lustre to an honorable name

THE most valuable asset the Cadillac Company possesses is its good name-a good name which is no merely the result of popular caprice, but has been been The Cadylac is as vou know, mpaue in the kod of thus that are said, and thought, and felt about it by thousands of people.

Ths good name, and the extraordnary good will which it has engendered everywhere, we interpiet as an obligation to buld a car so fine as to remove itself automatically from the likelihood of competition

For 1911, therefore, our first thought-our one and onls thought, in fact-has been to satisfv that nidespread and implact confidence wheh always expects the exceptonal from the Cadillac.

We beheve we are justified in saying that in this larger, more powerful, more luxurnous car, the Cadillae organzation has surpassed itself

In spite of ten vears of deroted adherence to the manufacturing primetple that any one of ten thousand Cadullas should be interchangeable in its parts with any nther Cadilar of the same type, we were not ready so short a time as twelie months ago to buld a car as worthy and as wonderful as this.

Manufarturing plants, like men, must fit themseh es to do truly great things. Even with a sistem of standardization which bas no equal in the world and which ens final elome lately perfect alignment of parts and the a tion of friction, the value of 1911
was not possible in 1910 .
You are recerving now, we rerimost advanced ype of exact and scientific motor car manufacture which the industry has produced.
Please co-operate with your Cadillac repre. sentative by the arliest possible inspection.

## IT IS REALIY ABSURD

The Georgia state legislature, now in session, hasby a vote of 68 against to 87 in favor - refused to enact a compulsory school attendance law. The bill was lost be cause it lacked six wotes for a constitutional majority And, at that, there were forty mambers skuking out o
the way or wantonly neglecting their duty by absentee ism.

The word 'compulsion,'" climaxed Baker of Lump kin, '"the word 'compulsion' has been a stench in the nos trils of civilization since the days of the Revolution.

What revolution? The only revolution which eomes quickly to mind is that of tea-party fame when taxation Legislator Baker is a fair sample, Lumpkin county is due to rebel on the same basis.

It would be proper to suggest here that the forty ab sent members ought to render an explanation to the counies they represent; in the meantime, a compulsory attend ance bill directed at our legislators would be useful.
Surely, when the people of this state see that forty of their enlightened PAID representatives refused to remain and cast a vote on one of the most important bills put before the house, they must realize that ignorant parents, who are NOT PAID to send their children to school will do so only under compulsion.-Extract from editorial in August
issue of Uncle Remus's Home Magazine.
The foregoing is a mild extract from an editorial on the compul-
 if you are against the bill, or merely luke luaran, yon ought to read it. The August issule of Uncle Remuss is on all nems stands.

In this same issue is the firstinstallment of "The Recollections of Alex. W. Stephens," the South's great commoner, whose statesmanship was on a plane that has never been surpassed, and whose wise and patriotic utterances will live to point the way forever where justice, decency and honest progress are found in company

For short stories there are some splendidly illustrated offerings: "The Doctor's Wife," "The White Chamber," "The Interrupted Honeymoon," and "The Wot's Air Ship.

Other features are Frank L. Stanton's page, "An Uncle Remus Letter," Dr. Goss' "Little Essays," Mrs. Bryan's "Open House," the page of Patterns, the page of Music, and others.

A rhythmic contribution you'll enjoy is the "Lay of the Press Agent" by Arthur Bennett. It's full of human interest and circus air

# IS YOUR CITY GROWING AS FAST AS YOU THINK IT SHOULD? 

Do you want additional enterprises located in your city or community? Do you wish your town and vicinity to join the great industrial development that is rapidly coming to every part of the South?

If you do, don't.sit by and wait for the manufacturer to find you out or the farmer to ask for your lands. Seek the manufacturer, find the farmer wanting lands. Tell them what you want and what you will do for them. If you should get even one good factory, or one first-class farmer, in your town or community, it would start the ball rolling and more would follow.

The growth of a town or city is just like the growth of a business. If there is a live, progressive man, with new ideas behind it, even a small business grows and eventually becomes a great enterprise. Just so with a town or city; if its people are up-to-date, enterprising and look carefully after the interest of the town, however small it may be, it will soon grow into a place of importance, and command respect and make for itself a place on the map of your State. Don't sleep yourself, and don't let your town sleep.

We believe $\mathrm{a}^{\text {a }}$ change is coming about and it is coming in a hurry. New ideas; new life and enterprise and energy is taking hold and the growth of the towns and cities and farm lands in the next five years will in many instances double in population and in valuès.

The tide of opportunity is NOW. It does not come every day. Will you ride out with it, or will you lie supinely on the "beach" and dream and dream-and do nothing but dream?

Let us know and we will help you in the struggle.
We ask you again, "Is your town or city growing as fast as you think it should ?"
If not, we can give you particulars that will interest you, and help that insures succéss. Fill out coupon in right-hand corner of this ad, and mail, at once, to us.
