Attorneys Agree That Decision of High Court Means That Case Against Becker Will Be Dismissed.

JUSTICE GOFF SCORED FOR CONDUCT OF TRIAL

Decision Alleges That Goff Was Unfair in His Treatment of Becker—Whitman Willing to Free Becker.

HOW BECKER AND THE GUNMEN HEARD NEWS IN DEATH HOUSE

Ossining, N. Y., February 24.—"It's a long lane that has no turning," Charles Becker said today in the "death house" of Sing Sing prison, when he received news of the court's decision.

GOVERNOR REGRETS HOWELL'S DECISION TO ELIMINATE SELF

Tenders Appointment, But Mr. Howell Declines, Believing the Appointment Should Go to South Georgia.

ALL CANDIDATES BUSY; SITUATION UNCHANGED

Still Considerable Doubt as to Who Will Succeed A. O. Bacon in the United States Senate.

Four Gunmen to Die

Appeals taken by the four gunmen, "Whitey" Lewis, "Lefty Louie," "Gyp the Blood," and "Dago Frank," convicted as actual murderers of Rosenthal and whom Becker was accused of having instigated to commit the crime, were not sustained and they will have to die in the electric chair, probably in March, except in the event of executive clemency.

Testimony Not Credible

As Mr. Whitman was said to have interpreted the opinion, the testimony of the three chief witnesses against Becker—John Rose, Bridget Webber and Harry Vallon, self-confessed accomplices—has not been held by the court to be credible. Although it is known that the district attorney has new evidence he could bring forth, the testimony of these three—the gamblers who said they hired the gunmen to kill Rosenthal at Becker's behest—was the foundation of the case.

To Release Becker

It was the consensus of opinion among those in the district attorney's office that if action is taken by Becker's counsel toward obtaining a dismissal of the case, District Attorney Whitman would not oppose it.

Governor Has Busy Day

Tuesday was very strenuous day for the governor. All day long he has been beset with letters and telegrams.

EYES OF SLAIN GIRL ARE PHOTOGRAPHED TO FIND MURDERER

Aurora, Ill., February 24.—Yielding to persons who have faith in ages-old superstition, the authorities here have photographed the eyes of Theresa Hollander, State's Attorney Tyler admitted this today, saying that it was the belief of many that the retina of a murdered person retains the image of the murderer.

Rebel Leader Won't Deliver Corpse of British Subject, But He Will Allow It to Be Examined.

BENTON IS DENOUNCED AS THIEF AND MURDERER

Villa Says Benton Should Have Been Killed Long Ago—Great Britain Is Resolved on Thorough Probe.

Washing. February 24.—Just what General Villa purposes to do about the request of the United States government that he deliver the body of William S. Benton, the British subject executed by Villa at Juarez, apparently was an open question late tonight.

Declines to Deliver Body.

Just before midnight state department officials made public this announcement: "American consul at Chihuahua reports that Villa declines to deliver Benton's body, but will permit widow or relatives to visit place with American representatives; that for their benefit he will order exhumation of body, which then will be reinterred in grave from which it is removed."

General Villa Is at Chihuahua and It is supposed Consul Letcher has been in personal communication with him, rise consul will be asked for further details of the reply tomorrow.

Ten Americans With Villa.

Consul Letcher also reported that General Villa says he knew nothing whatever of persons reported to have accompanied Benton to Juarez, or of those said to have gone in search of the Englishman when he did not return.

Of the ten Americans said to have accompanied Villa to Chihuahua, the consul quoted the constitutionalist chief as declaring that he refused to enroll them as his army and offered them a special train to return to the United States; that they left and he had no list of their names.

The department gave out a dispatch from the consul at Nogales reporting that he had been informed by the consular agent at Cananea that the woman's union was conducting manifestations against all foreigners and particularly against Chinese, demanding their expulsion.

The consul said the police guard at Cananea could not cope with the situation and that the constitutionalist governor at Hermosillo had been asked to send troops.

Character of the Wounds.

From the character of the wounds discovered on Benton's body, physicians will be able to say whether Benton was killed by a pistol shot, as his friends claim, or by a firing squad, as Villa asserts. It is generally admitted in official circles that an examination will be of great value in either affirming or disproving an important part in Villa's general explanation of the affair.

Developments today were many in the situation that has arisen out of the killing of Benton. Secretary Bryan asked American consular representatives at Nogales to confer with General Carranza about the affair. The secretary talked with Acting Chairman Shively of the senate foreign relations committee, and then at length with President Wilson. The incident was fully discussed at a cabinet meeting. Sir Cecil Spring-Rice, British ambassador, later called on Secretary Bryan and arranged for the visit of British Consul Percival to El Paso to complement the American inquiry, though American troops were with it. The secretary then conferred again tonight with the president.

The Hanging of Vergara.

News of the hanging of Clemente Vergara, an American citizen, by Mexican officials, near Nuevo Laredo, Mexico, directed attention to the Hueston cabinet argument on the subject of protection for foreigners. Representations in behalf of Vergara had been made by the state department some time ago, but no information about his whereabouts or the reported execution had been received here tonight.

Cabinet officers indicated clearly that official judgment of the Benton incident would not be hasty and that the American government was occupied chiefly just now in gathering the facts.

Details of the character of the American investigation were not officially known here until the publication of dispatches from London today giving the text of Secretary Bryan's message to the British ambassador. The fact that the United States had instructed its consuls to have the body exhumed and examined, and to employ legal assistance and examine witnesses indicated the far-reaching nature of the inquiry.

Communication Sent Carranza.

In addition to this, Secretary Bryan announced that a communication had been telegraphed for presentation to General Carranza by an American consul, asking the constitutionalist commander to refer information about the Benton incident. The secretary denied this took the form of any general representations, saying it was confined to the Benton incident. In some quarters the sending of a communication to Carranza about Villa's act was regarded as a day.

Shorter Hours for Women.

Washington, February 24.—President Wilson today signed a bill limiting the hours of labor of women in the District of Columbia to eight a day.

BISHOP CLELAND K. NELSON CELEBRATES TWENTY-SECOND ANNIVERSARY AS BISHOP

BISHOP CLELAND KINLOCH NELSON. With the staff given him on the twentieth anniversary of his consecration as bishop. The photograph was taken two years ago.

Impressive services were held at 10 o'clock yesterday morning at St. Philip's Cathedral in commemoration of the twenty-second anniversary of the consecration of Bishop Cleland Kinloch Nelson, of the Episcopal diocese of Georgia. Following the services Bishop and Mrs. Nelson were forced to hold a reception in the church to greet their friends and members of the church.

NEGRO IS RIDDLED AND BODY BURNED

Mississippi Mob Tried to Burn Victim Alive, But Failed and Shot Him. Body Then Cremated.

Leland, Miss., February 24.—Sam Petty, negro, accused of having killed Charles W. Kirkland, a deputy sheriff, here late today, was shot to death by a mob tonight and his body burned. An effort to burn the negro alive failed when the flames burned the ropes with which he had been bound. He was riddled with bullets when he attempted to escape.

Petty, wanted on a trivial charge, opened fire on Kirkland with a shotgun when the officer entered a cabin on the outskirts of Leland, in which the negro had taken refuge. Kirkland was instantly killed.

Tonight Petty was captured by a posse of citizens and before officers could secure possession of him a mob had formed and determined on the torch as a means of execution. With little ceremony the negro was bound and placed in an oil-soaked dry goods box and the match applied. A moment later the man, his clothing aflame, broke from his fastenings and started to run, but before he could gain headway was riddled with bullets.

The body was then replaced in the box, fresh inflammables were piled about it and within half an hour burned to ashes.

The mob then dispersed, and no further disorder is anticipated. Up to a late hour tonight no arrests had been made.

Several weeks ago a policeman was shot to death here by a negro and when news of the killing of Kirkland was circulated the mob was quick in gathering tonight. It is estimated that more than 300 men took a part in the lynching.

SERIOUS DISEASE GIVEN 50 CHILDREN BY INOCULATION

Albany, N. Y., February 24.—An investigation is being made in the cases of fifty children in the Bronx, New York city, who entered various hospitals apparently suffering only from mild ailments and came out inoculated with a serious disease, according to Bernard S. Deutsch, secretary of the Bronx house.

This statement was made before a senate committee today in a hearing on bills proposing a commission to investigate the practice of vivisection and proposing that all animal experimentation be done under the supervision of inspectors appointed by the state board of regents.

It was the first suggestion that has been made before a legislative committee of the possible existence of experimentation on human beings. Deutsch complained that all efforts to get an explanation from the hospital authorities had failed and said the infected children were allowed to associate without restraint with their fellows in tenements and at schools.

The senator's remarks came in debate on the annual postoffice appropriation bill. Senator Sheppard had made a point of order against a pending amendment to prohibit the postmaster general from changing the existing weight limit, rates of postage or zones for the parcel post service. There was a general discussion of the point which was undecided when the senate adjourned for the day.

HAY AND POTATOES FEARED FOR MAILS UNDER BURLERSON

Washington, February 24.—Warning that unless the postmaster general was checked "bales of hay and bushels of potatoes" soon would be going through the mails was given the senate today by Senator Bailehead, chairman of the postoffice committee, who declared the postoffice department was running riot in the matter of parcel post business, and that the government was operating the new service at a loss.

WILSON BARRED BY DOORKEEPER TILL HE GAVE NAME

Washington, February 24.—President Wilson took a long, brisk walk through the snow-covered streets of the capital today. Few recognized him as he swung along through the crowds, on the principal business thoroughfares.

On his route back to the white house the president determined to take a short cut through the long corridor of the interior department.

At the entrance he was confronted with a sign, "No visitors admitted after 2 p. m." When the president opened the door an aged doorkeeper started forward and, carefully eyeing the intruder, finally asked: "Well, what do you want?"

"I'm Mr. Woodrow Wilson," answered the president with a smile. "Well, well," said the doorkeeper, nervously. "I thought your face looked familiar."

ARNOLD PLEADS GUILTY TO WRONGING A GIRL

High Official of L. & N. Road Fined \$750—Other Prominent Men Involved.

Cincinnati, February 24.—Colonel Brent Arnold, general freight agent and superintendent of terminals of the Louisville and Nashville railroad, prominent clubman and social leader of this city, was arrested here yesterday charged with contributing to the delinquency of a 16-year-old girl, Mildred Crane. He pleaded guilty and was fined \$750 in the municipal court. In passing sentence on Colonel Arnold the court said that it would not impose a jail sentence owing to the advanced age of the defendant. Colonel Arnold is 68 years old.

Besides Colonel Arnold, warrants were issued for Hugo Goldsmith, a manufacturer; Isaac Newton Fox, a jeweler, and C. B. House, representative of a New York firm with headquarters in Louisville.

The girl for the last two weeks has been in charge of juvenile court officers.

JUST 7,465 BANKS IN RESERVE SYSTEM

Only 28 National Banks Have Declined to Enter. Capital of Banks Applying Totals \$1,054,533,554.

Washington, February 24.—Official count by treasury officials today showed 7,465 national banks have applied for membership in the federal reserve system, that eighteen banks have notified the organization committee that they will not apply, and ten have not been heard from.

The capital of the banks applying amounts to \$1,054,533,554, which is 99.75 per cent of the capital of all national banks in the country. The capital of banks not accepting is placed at \$1,990,000, and that of the ten not heard from at \$670,000.

In an official announcement giving these figures, the reserve bank organization committee tonight said that although explanations had not been sent with the notifications of non-acceptance by the eighteen, in several instances the records showed that the banks had arranged some time ago to go into liquidation, and one bank had been absorbed by another. Of the ten not heard from, two had filed papers asking permission to liquidate, and three had been too recently organized to pass the necessary resolutions of acceptance, so only five are really considered as being in the class of those yet to be heard from.

State Banks and Trust Companies. The figures for the state banks and trust companies have not been tabulated, but sixty such institutions have asked for approval of their applications and it was estimated tonight that their capitalization will be sufficient to put the total of all banks applying to date beyond the \$1,100,000,000 mark.

It is known that Secretaries McAdoo and Houston and Comptroller of the Currency J. S. Williams, who make up the organization committee, are pleased with the manner in which the banks have responded. Figures for the surplus funds of banks which are coming into the system were not completed tonight, but it is certain that the new system will be launched with authorized capital of at least \$10,000,000.

The organization committee is working away now on the definition of the limits of the reserve districts and the location of the reserve cities, and its conclusions are expected in a few days. When their report is ready, the banks will be required to subscribe 5 per cent of their capital stocks and surplus plus to the stock of the reserve bank in their districts, one-half to be taken within ten months. The other will be subject to the call of the federal reserve board.

Regulations for State Banks. The organization committee tonight issued regulations for the guidance of the state banks which wish to apply for membership in the system. Such institutions may now apply as state banks, or may become national banks, or they may apply as state institutions under certain conditions. The principal conditions are that applicant banks must certify their assets and liabilities and that none are carried at an excessive value; that they shall file copies of their charters with a digest of powers granted. The organization committee may require an examination of an applicant bank by a national bank examiner to confirm statements made in the application or may accept a certificate from a state examiner, and only banks which have unimpaired capital sufficient to entitle admission to the national banking system shall be considered eligible. State institutions applying shall be given "a reasonable time" in which to adjust loans and investments so as to conform to the laws of the United States.

LATHAM LEAVES TO SEEK UNCLE OF MARY PHAGAN

It Is Said That the Defense Hopes to Prove Discrepancy in the Time Element Theory of State.

NINA FORMBY IS NOW IN NEW YORK CITY

She Has Secured Services of Judge R. R. Jackson and Will Meet Him in Chattanooga to Confer About the Case.

That a new and startling phase of the puzzling time element in the Mary Phagan mystery—one contradictory to the state's theory—will be injected into the effort to gain Frank a new trial, was made evident last night when it became known that Harry Latham, an ex-court attache, was on a hurried trip to New Orleans to confer with a reputed relative of the murdered girl.

A close friend of Latham, also an ex-court employee, stated late last night that Latham, while on a recent visit to New Orleans, during which he was acquitted of white-slavery charges, had become acquainted with the man with whom he goes to confer, and that the acquaintance professed to be an uncle of the slain child.

He is said to have told of a heretofore unknown fact in the time element, which is said to refute the theory and evidence of the prosecution. Its exact nature was not known by Latham's companion. The time element of Frank's trial was, perhaps, the most important in the chain of evidence submitted by both the state and defense.

Will Ask Man to Return.

Latham, it was stated, goes to obtain an affidavit from this man and to prevail upon him to return to Atlanta. In event his testimony is needed, this new figure, unknown to anyone except Latham, would be a valuable asset. It is reported to have been in Atlanta on the day of the Phagan tragedy, and to have either seen the victim or to have been with her on her journey to the pencil plant.

Formby Woman Gets Attorney.

It also became known last night that Mrs. Nina Formby, dependent of the sensational affidavit said to accuse the police and detectives of having coerced her into a "frame-up" against Frank when she swore to a scandalous story on the convicted man, has retained an attorney to represent her in the matter.

Judge R. R. Jackson, a former justice of the peace and well-known Atlanta-at-law, stated that the woman is now in New York City, at 211 West 191st street, and that she will come to Chattanooga shortly to consult him regarding the new role she is to play in the famous Frank case. Whether or not she has been in Atlanta recently, however, is not stated.

He declared he was not aware of the exact contents of her latest affidavit, and that the first he knew of her connection with the new Frank evidence was when she wrote him from New York, retaining his services as legal adviser. He said that she dared not return to Georgia under present circumstances until she conferred with her attorney.

Secured City for Her.

Detectives scoured the city Tuesday in search of Mrs. Formby, seeking an explanation of her reported "frame-up" charges. They were unable to find her. Former associates declared she had not been seen in considerable circles in her familiar haunts, and that they were unaware of her whereabouts.

During a conference Tuesday, Chief Lanford intimated strongly that he had ordered his men to seek explanations of the woman's testimony collected by the Frank defense, including the Formby document and the Albert McKnight repudiation. Also, the rumored refutations of their testimony said to have been made by character witnesses were put on the stand by the prosecution.

Although the search for him prevailed through Tuesday and Tuesday night, McKnight could not be located. He is said, however, to still be in the city. Thomas Gossard, an ex-court attache, stated last night that he had seen the negro Tuesday afternoon, but would not tell where.

Efforts made late last night and until early this morning failed to locate Mrs. Formby in New York. It was the opinion of her attorney that she had left that city en route to Chattanooga, Tenn., in which city she has formerly resided. It is said that she has been away from Atlanta for a number of months. She was not here during the trial, it was stated. Shortly previous to that time she was represented by Judge Jackson in a civil suit, which she won.

Search for McKnight.

Much interest centered Tuesday morning on the aspect thrown upon the Conley trial when a vigorous ef-

fort was made to apprehend the missing McKnight negro in order to put him on the witness stand. It was stated in court records that if Conley went upon the stand, and, as in his latest affidavit, denied the story to which he testified at the Frank trial, he would have been prosecuted for perjury.

His testimony had been produced Tuesday, it was said by legal authorities, would have entitled Solicitor Dorsey to push perjury charges at once. The solicitor, although not committing himself, intimated corroboration of this, and also that he would have taken up prosecution for perjury.

**Plea for Rehearing.**  
New developments in the noted case were the filing Tuesday morning of a plea for rehearing by the defense. The supreme court is expected to hand down its decision next Saturday. The verdict of guilty rendered by the jury in the Conley trial required only twelve minutes. An interesting phase to the negro sweepers' trial arose when Solicitor Dorsey strove to show to the court that the hair found upon the lathe was that of Mary Phagan.

In speaking of Dr. Harris' statement that he was unable to decide positively one way or the other in regard to the hair strands, the solicitor said: "It would be just as effective to try to take two specimens of hair, as was done by Dr. Harris, as it would be to compare a dead tree of the forest with one upright and alive."

**Explicits Difference in Hair.**  
The solicitor further showed that the strands discovered on the lathe, having come from a live scalp, contained oil, life and no tar, while the strands clipped from the girl's body were dead, contained no oil and tar from the soap with which it had been washed by the undertakers. Also, that it had been buried beneath the earth, denied the air and sunlight bestowed upon the strands found in the pencil plant.

It is a scientific impossibility to distinguish the two, Solicitor Dorsey concluded. The motion for a rehearing before the supreme court contains twenty-one grounds. All pertain to the court overruling the verdict of both the oral and written argument submitted at the time of the original hearing. Because the present term of the October session of the supreme court ends next Saturday, it is expected the verdict will be set down by then.

In case it is not reached by that time, it is speculated that the decision will not be handed down until the March term. In that event, the result of the verdict of affirmation rendered last Tuesday will be held until the latest verdict is reached. Out of the twenty-one grounds upon which the defense asks for a rehearing, only four, it is pointed out, were touched upon by the supreme court, and these four, it is contended, were not given the full consideration desired by the defense. Following are the grounds upon which a rehearing is asked.

**Judge Egan's Charge.**  
"Ground 1—Because the court erred in failing to charge the jury that a witness knowingly and willfully swore falsely in a material matter, his testimony shall be rejected, entirely, unless it be corroborated by facts and circumstances of the case or other credible evidence." "The court ought to have given this charge, although no written request was formally made therefor, for the reason that the witness, Jim Griffin, who testified, as to aiding Frank in the disposal of the body, was attacked by the defendant as utterly unworthy of belief, and he admitted upon the stand that he knew the witness in the affidavits made by him with reference to the crime and before the trial.

Especially ought this charge to have been given, because the court, in his charge to the jury left the question of the admissibility of the testimony of the jury without any rule of law to govern them in determining their credibility.

**Miss Cato's Testimony.**  
"Ground 5—Because the court permitted the witness, Miss Cato, over the objection of the defendant, to testify that the same was incompetent, illegal and immaterial, to testify, substantially as follows: 'I know Miss Rebecca Carson. I have seen her go twice into the private ladies dressing room with Leo M. Frank.'

"Ground 2—Because the court permitted the witness, Harry Scott, to testify over the objection of the defendant, made when the testimony was offered, that the same was irrelevant, immaterial and not binding upon the defendant, to testify, substantially as follows: 'The clock at the pencil factory was not correct at that time. I am not sure of the time, but I believe it was about 12 o'clock when I saw the witness, Miss Cato, go into the ladies dressing room with Leo M. Frank.'

**CONLEY CONVICTED; GETS YEAR ON GANG**  
**Found Guilty as Accessory After Fact in Mary Phagan Murder at the National Pencil Factory.**

Jim Conley today begins the serving of a year's sentence on the chain-gang following the verdict of a jury on Tuesday, charged with being accessory after the fact in the murder of Mary Phagan.

Conley took his sentence stoically. He smiled when he was told by his attorney that he "had got off light."

The second day's developments in the sordid trial proceedings in which Conley was principal were not in the least sensationalism brought out Monday.

Solicitor General Dorsev made a point in his summing up before the jury, ridiculing the recent affidavits of the Frank defense who claim that the hair found on the pencil factory lathe and that taken from the head of Mary Phagan were not the same.

"That is ridiculous," said Dorsev. "Witnesses have sworn that the hair was the same. Dr. Harris would not say the hairs he examined were not the same. He only said it was his opinion that they were not from the same head. The witness who testified yesterday, Harry Scott, said that when she was laid in the grave was clean. This hair found on the lathe was dirty. The two pieces would not be judged accurately if such is the case."

Judge Ben Hill, in charging the jury, asked the body to disregard the indictment holding Conley as an accessory after the fact in the murder in a felonious sense. The negro was found guilty of the same offense treated as a misdemeanor.

"Pape's Diapiesin" Makes Upset Stomachs Feel Fine in Five Minutes.

SAM ASHER RETURNS FROM NEW YORK TRIP

Wonder what upset your stomach— which portion of the diet is the cause? Well, don't bother. If your stomach is in a revolt; if sour, gassy and upset, and what you just ate has fermented into stubborn lumps, head dizzy and aches; belch gases and acids and eructate undigested food; break fast, tongue coated—just take a little Pape's Diapiesin and in five minutes you wonder what became of the indigestion and distress.

Men and Religion Bulletin No. 103

Without Excuse

"Thou art inexcusable, O Man."  
--Romans 2:1.

His eyes are dull; his face hopeless. A cancer is eating away his breast. His back is a mass of bruised and broken flesh. Photographs show this. The Grand Jury has the pictures.

Disease hampered the man. He could not keep up with his fellow convicts. Men beat him to make him hurry in his work. Our lash cut and tore his skin, because he fell behind.

"Sunday school methods" might have prevented this disgrace to our State. THE GRAND JURY HAS MADE ITS CONTINUANCE IMPOSSIBLE.

But wondering men are asking: "Does the religion which made Oliver Cromwell, Coligny, Robert E. Lee and Stonewall Jackson the greatest of leaders and the most successful disciplinarians of rugged and untrained men known to the world—does this, the following of Christ, unfit a man for handling convicts?"

Absurd to mention Robert E. Lee and these in the same breath with convict guards!

Why—Jesus died between two thieves. One of these was first of all to go with Him from the cross into the house of our Father. Was it ridiculous that He, God's son, should come to seek and save the lost, the publican, the thief and harlot?

When you see your striped convict gang and recall their beaten backs, remember Him saying, "I was in prison—you did it unto Me."

The world needs no counterfeit Sunday school teachers, men who week days deny by their lives and lips the truths which they speak on Sunday, men who "TALK FOR THE LORD AND VOTE FOR THE BREWER"—but the world needs—the world by the sorrow and suffering of those in its prisons, their families, and the great crowds of the poor—the world by these cries and calls for men unafraid and willing to follow the path of truth blazed by the cross of Christ.

And everywhere are to be seen signs of the coming hosts of God answering this, His call. Yea, these are times of testing. And men are ringing true.

Yet consider this—Judge Nash Broyles says: "Just after prohibition came to Atlanta the river of crime completely dried up. For three days after the barrooms were closed there was not a case in Atlanta's Police Court.

"And for two weeks after the saloons closed there were only a trivial number of arrests, where formerly there had been fifty to two hundred cases every day.

"BUT AFTER THE TIGERS AND CLUBS GOT ORGANIZED AND BEGAN TO SUPPLY LIQUOR THE WAVE OF CRIME CAME UP. I HAVE SEEN IN THAT OLD STATION HOUSE THERE HUNDREDS OF MEN MORE LIKE RAVING BEASTS THAN HUMANS IN THE IMAGE OF THEIR GOD."

"Tigers and clubs got organized." "The wave of crime." "Men more like beasts than humans."

Yonder convict-beater can pretend to have obeyed the law. (Thank God the Grand Jury has unmasked this hypocrisy).

But these makers of beasts, the sellers of liquor, who pack our station house with wrecked and ruined lives—these are without the shadow of a pretense of an excuse. They defy both law and decency. And in so doing they not only bring men to the point where their backs are marked and scarred by the lash of our whipping boss—they also by their lawless trade break the hearts of mothers and wives and cause children to be brought into the world marked with that which is infinitely worse than the furrow cut by the lash across the convict's back, the mark of the degenerate.

Georgia has decreed that this shall stop. There are those who had hoped, and who still hope, that the clubs which are organized only for social pleasure and Atlanta's good, will obey the law before its strong arm is applied. BUT THOSE WITH THAT HOPE ARE JUST AS STRONG IN THE WISH THAT NO EXCEPTION BE MADE. If those, who, because of position, should set an example by obedience to law, persist in breaking the law, the officers of the law should make them an example first of all.

In England when a law is made, from King to street boy, it is obeyed. The result—in London last year with its teeming millions, only twenty murders occurred; in Atlanta with her two hundred thousand inhabitants, sixty-seven persons were murdered.

This should cease. The day has come in Georgia for obedience, not to the whims of fanatics, not to the wishes of politicians, but to the will of our State, the law enacted by our Legislature.

The judge of our Superior Court, the duly constituted authority, has directed the attention of the Grand Jury of Fulton County to the locker clubs. Men wait—men believe—

As that body, the Grand Jury, has fearlessly told the truth concerning our convict camps and thus made inevitable the ending of that sore disgrace, so will that body reveal the truth as to this other shame, the disregard for law by those who are neither convicts nor convict guards.

The way of the truth is clear. The possession of a United States internal revenue receipt authorizing the sale of liquor is prima facie evidence of guilt according to the law of Georgia.

Those clubs, those saloons which possess such a receipt or which have applied for such a receipt, have violated the law.

The Grand Jury is one of those checks which our fathers in their wisdom placed to guard our form of government against anarchy. The present Grand Jury has demonstrated—the check will work.

Men believe—it will continue to work. The blind tiger, whether high or low, will go.

## BOYS' HIGH LOSES IT'S FIRST GAME

### Marist College Wins 20 to 17—Score Tied and Additional Time Was Necessary to Decide Result.

Playing superior ball throughout the entire game, Marist college defeated the heretofore undefeated Boys' high team by the score of 20 to 17. The game, which was played at the Atlanta Athletic club's court, was one of the hardest fought and best played battles that two opponents have ever waged.

At the start, Boys' high took the lead and held it throughout the first half, although they were outplayed in many places. Marist, however, then scored two field goals and one foul, making the score at the end of the first half stand E. H. S. 3, Marist college 5.

Score Tied by Marist.

It was in the second quarter that Marist came into the game and proceeded to play some of the best basketball that they have ever played. The team work in this half was better and their goal shooting was far more accurate than it was in the first. At the half, the score stood E. H. S. 17, Marist 17.

## A Cracker a Day for Fans

17. AL NIXON.

**EDITOR'S NOTE**—This is the seventh of a series of daily articles that will be carried in this column, introducing to Atlanta fans the men who will try for positions on the 1914 Cracker team. Complete resumes, history and photo of each of the thirty candidates will be printed in this series.

Albert R. Nixon, the speedy little outside who played last season with the Crackers in right field, will be on hand for another trial in the works during the coming campaign.

Nixon will have considerable opposition from the Thre I league, and Kircher, the leading base stealer of the Virginia league last season.

Nixon is 21 years of age, is 5 feet 8 inches tall, weighs 160 pounds, and bats and throws right handed. And the way that boy can throw is a treat. He has as good an arm as any outfielder that ever played baseball in this league.

Nixon came to Atlanta last spring for a try-out and was shipped to Macon, in the Sally league, for a little more seasoning. After several phenomastic seasons in the Sally league, he was given a crack at the berth and made good from the jump.

During the season, Nixon was hit at a 231 clip and only made one error, and this was an excusable one, the result of a bad throw by the pitcher. Nixon, the ball getting the best of him in the fight.

One of the most genial and, without a doubt, the hardest worker on the squad, Nixon is one of the most popular players in the Atlanta Athletic club uniform. He always does his best and the fans like that kind of a player.

AL NIXON.

The little speed merchant, who will try for the right field position on the 1914 Crackers again this season.

**WAYCROSS ROAD RACE**

## Staten to Stage Three Ten Rounders on Tuesday

Henry Staten, the veteran boxing promoter, has arranged for a three ten rounder on Tuesday night at the Columbia theater. The bouts are arranged for and the third will probably be closed today. All three of the bouts are going to be ten-round affairs.

For the main bout he will send Young Jackson, of Indianapolis, against Gus Johnson, of Detroit, and for the second, light-heavyweights, weighing 170 pounds apiece.

These boys have worked their way down into this section of the country and are taking on this bout while waiting for other bouts that are pending. Little is known of either of the men, except that they are willing husky boys, who have been in the game only a couple of years, but who are rapidly climbing to the top.

For the opener, Dixie Kid will meet either Billy Hooper or Arthur Worthy. These dingies are sure to furnish a great battle.

## PURE O PILOT

### ATLANTIC AIRSHIP

#### Believed Lieut. John Towers, U. S. N., Will Act as Assistant—Porte Is Enthusiastic Over Prospect.

New York, February 24.—Lieutenant John C. Porte, of the Royal Naval Air Service, and Great Britain's first pilot of the proposed trans-Atlantic airship to be financed by Rodman Wanamaker. N., will act as assistant pilot has not been determined.

Lieutenant Porte, it was announced, will go with clean in Canada tomorrow to Hammondsport, N. Y., where the "Wanamaker Zier" is to be constructed. The project is to be constructed by the Aero Club of America, a confident statement tonight, are confident the plan as worked out thus far, will be completed by the end of the month. The airship will be about 50 per cent complete, while the motor is about finished. Six engines will be used, four for main drive and the one giving the best results will be used.

Lieutenant Porte, the Aero club's statement reads, "is particularly enthusiastic over the prospect and will be in the flight can be made as planned."

While it is generally believed in aeronautic circles, that Lieutenant Porte is the only man in the world who is a pilot, Towers himself is non-committal on the subject.

"I have been sent here to investigate the proposed plan," said Towers, "and I cannot give even a personal opinion until I have seen the plans. Until the proposition has been laid before me and explained. That the government will subsidize the project and pilots is by no means certain, and no steps of any kind will be taken until the government has agreed to the project."

Up to the present time most of the work has been done by the Aero club and drawings of the machine. Every detail has been the subject of much study and consideration. It is believed that the plans for the plane itself are 50 per cent completed. When we have secured the motor to play with, the right will be met for the actual construction of the machine.

The motor is practically finished. Six engines of this type have been built and we shall start testing them within a few days.

## FELDER WOULD ENJOIN THE DUCKTOWN PLANT

### Attorney General Seeks Permanent Injunction to Prevent Injury by Fumes.

Washington, February 24.—(Special.) Attorney General T. F. Palmer filed in the supreme court today a motion to enter a permanent injunction against the Ducktown Sulphur, Copper and Iron company, and compel it to abate the nuisance caused by the sulphurous fumes from its plants.

This action has followed years of negotiations between the state of Georgia and the offending Ducktown plant. Today's motion was made pursuant to instructions from the general assembly.

The legislature directed the governor to enter into a contract with the Ducktown Copper company, one of the defendants, whereby the company would deposit a certain amount annually to meet the damage caused by its plants. The state agreed to make no further move against this company for three years, allowing this time for the company to devise a plan for converting the copper fumes. The Ducktown company refused to enter into such an agreement, hence the motion was made today to enjoin it.

## Robbed in a Sleeper.

Newroads, La., February 24.—Dr. A. P. Dr. Fillastre was taken to his home here from New Orleans, and said he believed the thief got his valuables at New Orleans, where the train stopped for several minutes.

No examination was made of the safe tonight. Sheriff McKenzie, with deputies from Shreveport, is searching for a clue to the robbers, if such there were, but the affair tonight is a seemingly impenetrable mystery.

SOUTH SIDE STIRRED OVER FINANCE SHEET

Attitude of Finance Committee Is Denounced by Members of Second Ward Improvement Club.

At a heated meeting last night of the Second Ward Improvement club at the Pryor street schoolhouse, the club denounced the attitude of the city finance committee toward Pryor street improvements, and also what they termed the petty contentions holding between members of the aldermanic board and finance committee.

In reply to this, Alderman Charles Kelley, of the finance committee, said: "If the aldermen would not act so negatively what they want we ask them, and stop beating about the bush, we could know how to act."

Resolved, That it is the sense of this meeting that the aldermen who oppose the finance sheet be requested to file in writing their demand and the finance committee be asked to act upon their demands and we are advised of the result, that the chairman of this meeting be requested to call a meeting for such action as may then appear necessary.
