

JUST BLACKMAIL, SAYS ROOSEVELT, OF COLOMBIA PACT

Back From Europe, the Colonel Uses "Big Stick" on the Proposal to Pay \$25,000,000 to Colombia.

HARD WHACK GIVEN WILSON AND BRYAN

Roosevelt Says They Have Made U. S. Figure of Fun in Foreign Affairs and Colombian Pact Caps Climax.

New York, June 24—Theodore Roosevelt, who returned to America on the Emperor trolley, issued a lengthy statement, declaring that the payment of \$25,000,000 to Colombia for having secured the right to build the Panama canal as provided for in the pending treaty merely would be the payment of belated blackmail.

What Roosevelt Says.

In his statement Colonel Roosevelt said in part: "The payment of \$25,000,000 to Colombia, together with the expression of what is in effect, an apology for our having secured the right to build the Panama canal merely is the belated payment of blackmail with an apology to the blackmailers. If this proposed treaty, submitted by President Wilson through Mr. Bryan, is right, then our presence on the isthmus is wrong. To settle the Panama matter should be restored to Colombia and we should stop work on the canal and abandon the place, bag and baggage. There should be no half-way measures. If we, as a nation, have been guilty of theft we should restore the stolen goods. If we have not been guilty of theft, we should not pay blackmail."

Raps Wilson and Bryan.

"The handling of our foreign affairs by President Wilson and Secretary Bryan has been such as to make the United States a figure of fun in the international world. This proposed Colombian treaty caps the climax and, if ratified, will rightly render us an object of contemptuous derision to every great nation."

"In view of its submission to the congress I wish to call attention to exactly what was done and my administration. Because of the action of the United States acquired what they could by no other means have acquired the right to build the Panama canal."

"In 1901 it was still doubtful whether we would adopt the Nicaragua or the Panama route. The government of Colombia was exceedingly anxious that we should arrange, and did arrange, a treaty with us to prevent our going to Nicaragua. Partly in consideration of this treaty we abandoned negotiations with Nicaragua."

Time Had Come to Act.

"We acted in good faith, and the course of action we thereby entered upon was conditioned upon their proposal, their promise it was our right, and also our duty to our own people and to the rest of the world to exact the performance of this promise."

"For 400 years there had been conversation about the new canal. The time for further consideration had passed, the time to translate words into deeds had come. If I had followed President Wilson's policy of waterfury wars it would have insured half a century of additional conversation and the canal still would be in the dim future. And it is only because the then administration acted precisely as it did act that we now have the Panama canal."

Colonel Roosevelt said that until the present treaty negotiations were entered into he did not believe it possible that an international obligation would thus betray the honor and interest of the American people by submitting to blackmail."

The colonel had made it plain, he said, that the Colombian government was in error that it indulged in such a supposition about my administration."

No Quarrel With Colombians.

Colonel Roosevelt says he has no quarrel with the people of Colombia, and does not question their fine private qualities. "But," the statement continued, "unfortunately in international affairs a nation must be judged by the government that speaks for it."

Colonel Roosevelt, mentioning the proposal of the Colombian government to confiscate the property of the French government in Panama, for which the United States had offered to pay \$40,000,000, said it simply was a scheme on the part of Colombia to "get \$40,000,000 from us."

"Incidentally," Roosevelt continued, "I would call the attention of President Wilson and Secretary Bryan to the fact that this \$40,000,000 represents the United States' share of the Colombia lost when the United States government of that day refused to submit to blackmail. They now only propose to pay \$25,000,000 blackmail."

"The had better make the job thorough while they are about it and give the whole \$40,000,000. Otherwise they will still leave an opening for action by some future administration of similar mushy amiability towards foreign powers that have sought to wrong us. There is no earthly reason why we should 'let thro' in the extra fifteen millions if we propose to pay the twenty-five. Colombia has exactly as much right to one sum as to the other."

Wilson and Mexico. "As president, I declined to allow Uncle Sam to be blackmailed. President Wilson's policy is to pay."

RAINE IS ARRESTED ON FEDERAL WARRANT

Memphis, Tenn., June 24—C. Hunter Raine, against whom indictments are pending in state courts charging that while president of the Mercantile bank of this city he misappropriated \$1,091,000, was arrested late today on a federal warrant alleging use of the mails to defraud. He waived examination and was released on \$10,000 bond to appear at the November term of the United States district court here.

The warrant, sworn to by Hubert Fisher, United States district attorney, is based on the circulation through the mails of a statement of the bank's condition which is alleged to have been fraudulent.

Raine appeared for trial last week on indictments returned by a county grand jury, but efforts to secure a jury proved futile and the case was continued until October.

He left tonight for New York.

Congregation Asks That City and State Join in Call to Bring Noted Preacher Back.

MESSAGE SENT PASTOR URGING HIM TO RETURN

"I Am Willing to Be Shown God's Will," He Cables Pulpit Committee of Baptist Tabernacle.

At an enthusiastic meeting Wednesday night, the congregation of the Baptist Tabernacle unanimously voted to call Dr. Len G. Broughton, the pastor and founder of the church, who is now pastor of Christ church, London.

At the same time, the congregation adopted resolutions asking that the city, state and, in fact, the nation, join in a call to bring Dr. Broughton back to this country, and back to his old congregation.

While the leaders in the movement would not express confidence that Dr. Broughton would accept, they were extremely hopeful for they had previously been assured that Dr. Broughton would seriously consider such a call.

The recommendation was made by the pulpit committee, of which Dr. W. T. Jones is chairman. The committee recommended to the congregation Wednesday night that the call be made. The motion, put by A. C. Boatman, who presided, was adopted with the wildest enthusiasm by the congregation, which almost filled the Tabernacle.

The following committee was appointed to extend the call: S. C. Callaway, chairman; M. A. Etheridge, Dr. T. L. Jones, W. Z. Smith and Clarence W. Hatcliff.

PURE BEER SOUGHT BY BILL IN HOUSE

Act Introduced Seeks to Take "Near" Out of Beer. Effort to Repeal Equalization Tax.

The second session of the lower house of the state legislature for 1913-14 was opened Wednesday morning with a flood of new bills.

Among the new bills were two to repeal the act passed at the last session providing for an equalization of taxation. One was introduced by Mr. Stovall and Mr. Meaders and the other by Mr. Adams, of Hall.

Another important bill was introduced by Messrs. Wimberly and Fowler. This bill is known as the pure beer bill and seeks to regulate the manufacture and sale of pure beer in the state and to amend the prohibition law regarding the sale of whiskey and other intoxicating drinks, except pure beer.

If the bill becomes a law, pure beer will be legally manufactured and sold in Georgia, and the "near" be taken out of beer in the state.

The bill simply means that the sale of beer is legalized and licensed instead of allowing the sale of the article called "near beer," which, it is claimed is just as intoxicating as the real and pure article.

A similar bill was introduced in the senate.

The bill by Messrs. Wimberly and Fowler states in the first section: "That after January 1, 1915, it shall be lawful for any person, firm or corporation to manufacture, sell or maintain for the sale a supply depot, warehouse, distributing offices or other place of business within the limits of the state any liquor commonly known as beer after obtaining a license from the ordinary of the county where such business is to be carried on."

All the money derived from the beer license is to be applied to the maintenance of the public schools.

Another bill which is likely to receive much attention was introduced by Mr. Smith, of Fulton, which seeks to levy a tax on all kinds of business carried on in railroad trains.

Among the resolutions introduced.

Zacatecas Falls Before Onslaught Of Villa's Forces

Important City of Central Mexico Taken by Assault From the Army of Dictator Huerta About 6 O'Clock Tuesday Evening.

VILLA RUSHED ATTACK, GIVING AND RECEIVING VERY HEAVY LOSSES

Rebel General Lacked Artillery Ammunition and Was Forced to Charge—Many Huerta Troops and Large Supplies of Guns and Ammunition Taken by Villa.

El Paso, Texas, June 24—Zacatecas, an important city of central Mexico, fell into the hands of the constitutionalists at sundown yesterday, according to announcement tonight by General Villa's officials here. Two of Villa's generals were wounded.

The constitutionalists were heavy losers according to an official dispatch. No mention is made of the federal killed, but it was said many prisoners were captured with much arms and ammunition.

It was believed Villa's lack of effective artillery ammunition had made it necessary to rush the federal positions with infantry, taking the city by a sudden attack which according to official reports, resulted in the capture of a large portion of the garrison and its munitions.

Up to a late hour only one official and no press message had arrived from the front.

The border city of Juarez immediately plunged itself into a celebration. The telegram describing the victory was received by Colonel Ornelas, the Juarez commander, and by Lazaro de la Garza, Villa's agent here. It was signed by General Orozco, federal commander at Torreon, and read:

"I have the honor to communicate to you that yesterday at 6 p. m. the important city of Zacatecas was captured by the forces of the division of the north. We took many prisoners and captured a large quantity of ammunition and arms. There were large losses on our side."

General Trinidad Rodriguez was seriously wounded and General Maclovia Herrera was slightly wounded.

It is reported in Juarez that Villa lost 2,500 killed and wounded in the assault on Zacatecas.

General Gonzalez arrived last night with 2,000 men from Monterrey. He was joined this morning by General Luis Caballero, governor of the state of Tamaulipas, and General Camacho, who is operating in the state of Coahuila. These generals with the Cabrera brigade, who are leaders in the state of Hidalgo, conferred today regarding the constitutionalists' Gonzalez's 2,000 troops it was announced will leave for the south tomorrow.

The brigade of General Carranza is also preparing to entrain for the south. General Carranza, it is expected, will leave in a day or two for Monterrey, for a long-promised visit.

Capture Is Confirmed. Washington, June 24—Reports of the capture of Zacatecas yesterday by General Villa's troops, after a bloody battle came to the state department late tonight in dispatches from Consuls Carothers and Edwards, quoting constitutionalist authorities at Juarez. Few details were given.

Extraordinary interest attached to the fighting at Zacatecas, for there have been strong intimations that on the outcome of the battle will depend the willingness of the constitutionalists to accept the American invitation to informally discuss plans at Niagara. General Villa is expected to continue his march southward, mashing his forces against Aguascalientes, where Huerta's broken ranks are preparing to fight for what may be their last stand between the constitutionalists and Mexico City.

HUERTA SYMPATHIZERS DRIVEN FROM MEXICO

Eagle Pass, Texas, June 24—C. M. Segun, constitutionalist financial agent at Piedras Negras, who recently was called to Saltillo by General Carranza, has been placed in jail there. He was learned in Piedras Negras tonight the charges which it was said were being investigated, were not made public. Several other Huerta sympathizers have been removed from office, and it was reported among constitutionalists there that there would be an entire change of civil officials.

Twenty-five Mexicans alleged to be Huerta sympathizers were deported from Piedras Negras today. They were brought to the international bridge and ordered to leave Mexico.

Although the war department will make public no reports from General Funston regarding sniping on the American forces, it is known there has been an investigation of continued reports to that effect. There have been many inferences that Huerta's forces were attempting to provoke a fight with the American troops and force intervention.

BASIS FOR PEACE BETWEEN MEXICO AND UNITED STATES

Conditions Embodied in Protocol Signed by A. B. C. Mediators and American and Huerta Delegates.

ISSUE UP TO AGENTS OF WARRING FACTIONS

All Issues Between Mexico and United States to Be Declared Adjusted When New Government Succeeds Huerta Regime.

Niagara Falls, Ontario, June 25—Terms for composing all international differences between the United States and Mexico have been concluded. The conditions under which diplomatic relations will be resumed were embodied in a protocol signed tonight by the ambassador from Brazil, the ministers of Chile and Argentina and the American and Huerta delegates.

The character of the settlement is not expected to arouse opposition from the constitutionalists who would participate in it, and to a large degree, it would mean the adjustment of all international disputes.

Selection of Huerta's Successor. When a new provisional government is established to succeed that headed by General Huerta, the result of mediation—recognized as a triumph for Pan-American diplomacy—will become effective.

Coincidentally with the action taken tonight it was announced that the actual selection of a provisional president, and the organization of the new government, will be left to an informal conference of representatives of the constitutionalists—Luis Cabrera, Rafael Zubaran and Jose Vasconcelos—and the Huerta delegates to the mediation conference.

Formal adjournment of mediation will be taken but there will be no sessions while representatives of the two Mexican factions endeavor to agree on the personnel of the new government, its powers and educational reforms and other internal problems.

Withdrawal From Vera Cruz. It was decided by the mediators and delegates to postpone consideration of the exact date when American forces shall be withdrawn from Vera Cruz. This will be the construction of the new provisional government in Mexico, will be protocolized after the conference of the constitutionalists and Huerta delegates adjourn.

While the informal conferences are in session Ambassador Da Gama of Brazil and possibly Minister Suarez, of Chile, will take a short vacation. Assurances that the constitutionalists would be represented at the informal conferences came direct to mediators today from Luis Cabrera, confidential representative of General Carranza in Washington.

Tonight's formal session of mediators and delegates prepared the way for the complete settlement of difficulties between the United States and Mexico growing out of the failure of a Huerta officer at Tampico to salute the Stars and Stripes.

What Protocol Provides.

The single outstanding issue in the protocol is that the international problem shall be declared adjusted on the establishment of a new provisional government. The protocol sets forth the conditions under which the United States, Brazil and Chile, the mediating countries, shall recognize the new provisional government and treat it as such.

### TELLS HOW THE TECH AIDS MANUFACTURERS

#### Bryan Blackburn Makes Address at Campaign Luncheon on Wednesday.

Some of the reasons why Atlanta and Georgia manufacturers are ready and willing to support the campaign for Greater Tech were explained yesterday at the luncheon meeting at the Piedmont hotel by Bryan Blackburn, an alumnus of Tech, and engineer for R. D. Cole manufacturing plant in Newnan.

Mr. Blackburn explained the advantage to manufacturers in and near Atlanta of a laboratory at Tech sufficiently large and well equipped that practical problems arising in the plants of these companies might be solved by the help of the laboratory "Just a few days ago," said Mr. Blackburn, "it was necessary for my company to send a number of steel columns which we had constructed to Chicago, the nearest laboratory where it could be done, to have them tested with the equipment and proposed laboratory to be built at Tech this might have been done right here at home.

"From time to time the necessity for it from this kind arises in our plant, and not only in our plant, but in the plants of the other manufacturers in the south. We have had several small tests made at the present laboratories at Tech, but on account of the limited equipment there they have been only the less important tests.

"It is needless to discuss the advantages to the manufacturers of the south of such a plant here. And there would be no lack of work to be done. Manufacturers realize that it would be to their advantage to have their products brought to the attention of Tech students.

"The research laboratory would foster and encourage experimental research work on the part of manufacturers who have not the facilities to do the work in their own plants, and who have neglected it. It would open a field of wonderful opportunity for southern manufacturers.

"The R. D. Cole company will make a generous donation of machinery for the equipment of the laboratory and power station, according to an announcement made by Mr. Blackburn yesterday.

"The record of the new subscriptions reported during this week of the campaign is fair to surmise, those reported at the end of any week of the campaign. The fund is steadily growing, and more workers are being added to the force daily.

Chief Beavers informed the Cartersville officer that he held two warrants on Colyar, one for a murder charge, which had been sworn out in Birmingham, Ala., January 2, 1913, and another for a charge of carrying a concealed weapon. Since that date Colyar had not been seen.

The Birmingham warrants charge Colyar with securing sums of money from the Atlanta hotels under false representations. Shippensburg, Pa.—"It was several years ago that I started taking Lydia E. Pinkham's Vegetable Compound. I then suffered terribly every month. My husband bought me a bottle of it and it helped me right away. Then after my second child was born I had a female trouble very badly and I used Lydia E. ## TUBERCULOSIS COMMON AMONG SCHOOL PUPILS

### Statement Made Before Medical Association—Examination of Students Urged.

Atlantic City, N. J., June 24.—Dr. Joseph Colt Bloodgood, of Baltimore, speaking before the section of surgery of the American Medical association in convention here today, declared the appalling mortality of cancer in children is due to ignorance and fear of operation.

"There are 20,000,000 school children in this country and 1,000,000 of them have tuberculosis," was the statement of Dr. Mary Latham, of Latham, N. C., in her plea for periodic examination of young students, delivered before the section of preventive medicine and public health.

"Every Child Affected." "Generally speaking, every child in the United States by the time it reaches maturity, is infected with tuberculosis. The true prevention of tuberculosis lies in finding out the danger in time to overcome it."

Dr. Axel Wesselin, of Chicago, before the section of surgery related some of the facts performed on animals in experimental surgery of the heart and lungs in research undertaken to test the value of the operation of resection in the vital organs of the human body—not only in the case of injuries, but in ailments of the heart and lungs that are hopeless with ordinary medical aid. Perhaps his most impressive announcement was that no injury of the vessel, no matter how violent, should be considered hopeless.

"Another declaration was that the removal of the entire heart sac causes practically no disturbance and new ones can be manufactured from tissues covering the incision."

### Infant Incubator a Failure.

The infant incubator has been more of a failure than a success, Dr. E. Chapin, of New York, reported in a paper read before the section of diseases of children. Out of 150 personal experiences with the incubator for infants he could not report one satisfactory result, death resulting in the great majority of instances. He urged that the house of delegates be asked to declare against its use.

Dr. M. Z. Havenant, of Madison, Wis., before the section of preventive medicine and public health, said the day had come when it was time to take the public health officers of every municipality from political control and see that a man was named for such position with a view to his fitness for the office.

He urged that all medical colleges institute special courses for the education of public health officers.

Dr. Harvey Cushing, a member of the committee on poverty, said the normal person never sank to the level of poverty. In the main, poverty was caused by sins unmentionable in a public gathering and the eradication of sin and vices would remove poverty.

Tuberculosis played its part, but feebly, and was one of the principal factors.

### Knife Killed to Save.

The specialists were surprised by figures presented by Professor Hermann Kuttner, of Berlin, Germany, one of the experts in this line of surgery of Europe, who said that 40 of 100 cases treated by surgery were cured. The diagnosis had been brain tumor had failed to save the life of the patient.

Dr. Harvey Cushing, a member of the committee on poverty, said the normal person never sank to the level of poverty. In the main, poverty was caused by sins unmentionable in a public gathering and the eradication of sin and vices would remove poverty.

## BATTLE OF BANNOCKBURN CELEBRATED BY SCOTS

### Judge Marcus Beck Tells of the Far-Reaching Effects of That Great Victory.

There was perhaps not an organization upon the western hemisphere—maybe not in the world—with the exception of the Atlanta Scottish association that remembered that yesterday marked the 600th anniversary of the Battle of Bannockburn, when Bruce wrote the Scottish declaration of independence in blood.

But the Atlanta Scottish association—composed entirely of Atlantans who are native Scots or descendants of such—Atlanta's most unique organization, held that unique celebration last night at the Burns cottage, which is the only replica of the cottage in which Robert Burns was born this side of the Atlantic ocean.

Judge Marcus B. Beck, of the supreme court of Georgia, was the principal speaker of the occasion. He gave a vivid narrative of the events and circumstances that led up to the Battle of Bannockburn and an illuminating interpretation of the far-reaching effects of that Scottish victory. He declared it the beginning of the independence of America, the beginning of the decisions of the supreme court of Georgia today are based upon principles of freedom for which that battle was fought.

A delightful program of Scottish songs was rendered by various members of the association and the old Scottish airs aroused many fond recollections in the minds of the Scotchmen, many of whom were intimately familiar with the very scenes mentioned in the songs.

On the program were many people of interest.

An interesting talk was made by Alexander C. Bruce, direct lineal descendant of the famous Robert Bruce. His name was on the program as a descendant of "Robert the Bruce," which has significance, the article "the" being used before the surname of a Scotchman to signify that he is the chief of his clan.

Miss Minnie McLean, who has been in America but seven weeks and several soles. Although her home is in Glasgow, but 30 miles from the original Burns cottage, she has seen only the Atlanta replica.

Arthur A. Craig, of Atlanta, who was born in Musselboro, Scotland, the home of Harry Lauder, with whom he was a schoolboy and playmate, sang several Scotch songs. Mr. and Mrs. Craig will sail from Scotland for a visit to Harry Lauder's home about the middle of next month.

Others on the program were Peter Grant, Miss Mary Taylor, Master Set Kirk Taylor, Miss Mollie Cumming, Mr. and Mrs. Alec Strachan, Dr. Alex. R. Smellie, who danced the highland fling; Harry Armstrong, Mrs. Arthur A. Craig, Miss Lucretia Abbott and James Litchell.

The funeral of Paul Cain, the other child who was in the fatal mishap, will be held this morning at 9 o'clock at the residence of his parents, Mr. and Mrs. William Cain, at 250 Hemphill avenue. Interment will be in Hollywood. He was 11 years old.

## Ninth Anniversary Of Old Women's Home Celebrated Friday

The ninth anniversary of the Home for Old Women will be elaborately celebrated next Friday at the home plant at 61 West End avenue, where the institution occupies a large and commodious building.

The entire day will be devoted to an "open house" program to which the public is heartily invited. Music will be furnished and refreshments served. The affair will be in charge of the officers, who are Mrs. S. J. Parfel, president; Mrs. F. M. Farley, vice president; Mrs. Edward P. Wood, corresponding secretary; Miss Arlan Lurtell, recording secretary, and Mrs. R. D. Haslett, treasurer.

The trustees will visit the home on a tour of inspection during the day. The house will be kept open from 5 o'clock in the morning until 7 o'clock at night.

## GIVE BIG "CLAM BAKE" AT BURNS CLUB TODAY

The first real "clam bake" in the history of Atlanta will be given this afternoon at the Burns club by the local organization of the International Stewards' association, beginning at 3 o'clock and lasting until sundown.

If you have never heard of a "clam bake," take a tip and go, catch a soldier's Home street car and get off at the end of the line.

Here is the way a "clam bake" is prepared: For several days a carload of granite rocks have been getting red-hot under a load of burning logs. Early this morning scores of workers dig a trench 3 feet deep and place on top of the rocks a layer of every dressed spring chicken, fish of every description, potatoes, ear corn in chucks, turkeys, and on top of that another layer of seaweed will be placed.

The hot rocks will bake these eatables for four or five hours during the morning, and then the big time comes. Music and dancing at the Burns club will be enjoyed throughout the afternoon.

The blaze was most spectacular and the peril of fighting it was increased by the inflammable nature of the stock in a hardware store, which included gunpowder, chemicals, paints and oils.

There is some suggestion that Roscoe L. Smith of Milledgeville and John R. L. Smith of Macon are the two latest names to be placed before the department by Senator West. No explanation is given by the attorney general for the long and vexatious delay over filling this desirable federal berth. Senator West has placed before the department the names of a half dozen of the leading lawyers of south Georgia, but none of them has been accepted.

## Kosciusko—"The Greatest of the Poles"

NEVER in the history of mankind has there lived a more ardent lover of Personal and National Liberty. He fought with intrepid valor under our own Washington for American Liberty. He devoted his life to regain the ancient freedom of his beloved Poland. Kosciusko hated any legislative attempt which invaded the Natural Rights of Man. If he were alive to-day, every son of Poland knows that he would revolt at any LAW which declared: "Thou shalt NOT eat this—thou shalt NOT drink that." Kosciusko knew that the light wines of his native land and the barley brews of Germany were good for mankind when used in moderation. He drank them himself to the end of his honored days, and who will DARE say that they in any way injured this mighty personality. For 57 years Anheuser-Busch have honestly brewed honest beers. Their great brand—BUDWEISER—is sold throughout the world and has helped the cause of true Temperance. Seven thousand, five hundred men are daily required to keep pace with the natural demand of Americans for BUDWEISER. Its sales exceed any other beer by millions of bottles.

GOOD NAME OF ATLANTA DEFENDED BY AD MEN

Delegates at Toronto Call Down Paper for Slurring the Prohibition Law.

By W. F. Parkhurst. Toronto Ont. June 24—(Special)—The Atlanta ad men defended the name of their city today by writing an article to The Toronto Evening Telegram calling upon that paper to retract an article published Tuesday stating that whisky could be bought openly on Atlanta streets from negroes. The article was signed by "The Atlanta delegation and the Evening Telegram published the same in full. The Atlanta ad men card was as follows:

In an apparent effort to be funny the reporter who wrote the article in The Telegram of June 23 entitled "What Chance Has a Dry Town of Getting the Ad Convention?" has slurred the good name of our city. Atlanta, Ga. which we resent and ask that you correct. The statement made in the article that it is possible in Atlanta for anyone to get whisky at any time by collecting the assistance of negroes is an absolute falsehood. It may be funny to write such things out you are slandering the name of a good city which has succeeded in proving a decided success and where conditions as regards finance living property and contentment are far better than in the days when Atlanta had the open bar.

The Facts in the Case. If your smart reporter had any knowledge of what is going on in the advertising convention he would not have written the closing statement in the article. There is little chance of Atlanta getting the convention. Either Chicago or San Francisco will be chosen and the chances are all in favor of the latter place. The facts in the case which he should have stated are that Atlanta is not now and never has been a candidate for the next convention. The advertising clubs we are asking for the 1915 convention and our recent success in handling 40,000 members of the Shrine during their convention without a kick was proof that our city is fully capable of handling 100,000 advertising men.

Referring to your reporter's remarks that conventions would not go to a dry town we will only cite you the fact that since prohibition went into force in Atlanta and the state of Georgia we have had over five times the number of conventions all greater in attendance and importance than the conventions which had the prohibition went into effect. Thinking people do not want conventions to drink whisky. The delegation is breaking up to night. Some are visiting Canadian points and others are returning home. 1915 Convention for Chicago. It was decided today to hold the next convention in Chicago in 1915. San Francisco and St. Louis were also candidates. The vice president Walter B. Cherry of Syracuse N. Y. secretary B. P. Wood of Indianapolis and treasurer T. W. Lequette of Des Moines Iowa. A new executive committee was chosen today as follows: W. JUDGE HARRIS SPEAKS TO VALDOSTA VOTERS

Valdosta, Ga. June 24—(Special)—Judge Nat Harris made a splendid impression and unquestionably strengthened himself with the people of this town in his speech at Valdosta this afternoon. He reached Valdosta from Nashville about 6 o'clock and spoke for only a few minutes before he was delivered from the bandstand in the courthouse park. In his opening Judge Harris referred graciously to Judge W. E. Thomas and his one time contemplated entering the race for governor. He paid a high tribute to his worth and popularity. Judge Harris touched upon his record as a confederate soldier referred to the fact that he had worked for the national interests of the state and the establishment of the technological school. He also discussed the work accomplished largely by himself in re-funding the bonds of the state as a member of the finance committee of the legislature in 1884. Judge Harris referred to the other candidates for governor and stated that he had devoted more attention to W. J. Harris than to any of the others. He expressed the highest regard for Dr. Hardman and for R. R. Randolph Anderson from the state of Alabama. He pointed out the fact that Georgia has had since the war the only two better words than candidates for governor. Many people met Judge Harris after his speech and pledged him their support.

OPPOSED TO SECOND SCHOOL FOR THE DEAF

Rome Ga. They stated that no other state has two schools for the deaf. The trustees of the Cave Spring institution however state that they would look with favor upon the substitution of a girls industrial school at Cave Spring thereby utilizing the valuable plant owned by the state. They point out that there is no such institution in northwest Georgia and believe that if such a school were established here it would have a pronounced effect from the start. Many people who have been clamoring for the removal of the school to the favor of the establishment of a branch school and state that they are willing to join in the movement for such a school in Floyd county and it is possible that a resolution to this effect may be introduced at the 1914 session of the legislature.

Demorest, Ga. June 24—(Special)—The formal opening of the North Georgia Epworth League conference occurred here last night. The people of Demorest have opened their hearts and homes to the young leaguers of the state as was shown by the royal reception tendered the delegates on their arrival yesterday. This welcome was expressed last night by Fred Tucker pastor of the Demorest Baptist church. This address was responded to by Jack Hayes, of Park Street League Atlanta. After the scripture lesson and prayer by Rev. W. M. Barrett, the president of the conference, a most wonderful address was delivered by Dr. DuBose of the First church of Atlanta on the "Attitude of the Church Toward Popular Amusements."

At the morning session conference was organized and registration of delegates took place after which was heard the report of the president Mr. Wilbur Colvin. This report showed a steady increase in strength and number of league chapters over the state. At 11 o'clock an address was delivered by Rev. W. M. Barrett on "The Value of Recreation in the Training of Boys." This was followed by an explanation by Dr. Parker of the object and work of the Knight of Exelsh.

WILSON WAS "CUSSSED" FOR A GOLFING STROKE

"Cusser," However Abjectly Apologized—Wilson Within Rules of the Game. Washington June 24—The story of how President Wilson going on a local green sent a ball whizzing near another golfer's head and how the other fellow roundly cussed the president of the United States and then in confusion and chagrin made profuse apologies and a second apology followed. Wilson and the other golfer exchanged letters one in abject apology and the other an acknowledgment coupled with a firm declaration from the president that he was within his rights under the rules of the game.

LESS DAY BEFORE
Less Favorable Crop Advances Caused the Advance in Prices—Spot Cotton Quiet.

New York, June 24.—The cotton market more than recovered yesterday's losses today and finished with the close steady 10 to 15 points net higher. Liverpool did not fully meet the local decline of yesterday, with private cables attributing the relatively weak showing to a heavy demand and continental buying. The local market opened steady at an advance of 2 to 3 points in sympathy and showed increasing strength, owing to the less favorable average of private crop advices and the fact that the demand became a little more general following the publication of the general weather reports showing high temperatures at many stations in the belt. Active months sold at 15 to 20 points net higher, but not without considerable realizing at that level in the late trading, which was also well supported by the demand. The market rather a sharp break in the stock market and vague rumors of financial troubles in commercial circles, which, however, were not supported by any direct connection with the cotton trade. Closing prices showed reactions of 10 to 15 points from both the eastern and western belts indicated that the crop was getting in more regular and that there were considerable areas in the Carolinas still suffering from the drought.

New Orleans Cotton.

New Orleans, June 24.—Talk of damage to cotton belts through hot weather and drought put the price of new crop contracts 1 1/2 to 2 1/2 points up today. The upward movement was not due to any news of the crop, but to the fact that the market was closed at a net gain for the day of 8 to 10 points. The market was chiefly from the eastern half of the belt and was generally fair and warm weather for the entire belt. Crop reports from the western belt were not so good as those from the eastern belt. It was generally considered that the outlook for the crop was not so good as it had been in the past. The market was quiet and steady, with a slight upward movement in the afternoon. The price of cotton was 13 1/2 to 14 1/2 for middling, 12 1/2 to 13 1/2 for good middling, 11 1/2 to 12 1/2 for low middling, and 10 1/2 to 11 1/2 for good low middling. Receipts, 893; stock, 92,702.

WEATHER FORECASTS

Reports About the Harvest and Weakness in Liverpool Were Factors in the Decline.

Chicago, June 24.—Wheat prices here today tumbled far below a level which even many of the buyers were willing to compete. Increasing certainty of an overwhelming crop in this country was the main reason. Closing prices were relatively steady at a range of 1/2 cent to 1/4 cent compared with last night's showing, but not off 1/2 to 1/4 cent, and the out-look was unchanged. The wheat harvest in the United States caused a severe break in prices in Liverpool here, but trading here began. The result was an abrupt setback for the Chicago market the instant that business opened. The upturn from the bottom, figures were largely due to a belief by some leaders that as the market prepared to decline today, already it had undergone a virtual straight-away drop of 10 cents a bushel, the harvest promotion had been discounted in full.

New York, June 24.—On a volume of business, much in excess of the average, the stock market resumed in a marked manner, the downward movement being largely a result of the decision rendered earlier in the week by the Supreme Court in the intermountain rate case. Other market leaders, including United States steel, declined under the weight of the selling pressure. The closing was at or around the lowest level of the day.
