THE DEMAGOGUES AT BAY

The futile attempt to make the tax equalization act an issue in the pending state campaign is a refreshing exhibition of demagoguery at bay.

What the new law has accomplished and is accomplishing is now becoming of common knowledge throughout Georgia.

It took the demagogues a long time to find out that the people of Georgia possessed sufficient intelligence to rightly interpret the benefits of the law and to reject efforts to inflame them against it.

So they hammered the law right and left, hoping to discredit their opponents who had been courageous enough and sincere enough to come to the state's aid in the enactment of this law.

SUPT. BRITAIN'S RECORD

State School Superintendent M. L. Britain is a candidate to succeed himself. Opposition to him cannot be other than perfunctory since it is inconceivable that the people of Georgia would entertain seriously a proposal to displace the man who has shown such marked aptitude in the vital field of education.

record probably unique among statehouse officials. Superintendent Britain's equipment is not confined merely to the educational side.

There is no doubt that the voters generally of Georgia will follow the lead of Mr. Britain's colleagues.

ASSASSINATION'S UGLY WORK

Abhorrent as is assassination under any conditions, it is doubly sinister in the cases of Archduke Francis Ferdinand, heir to the Austria-Hungarian throne, and his wife.

In its personal aspects, the affair is sorrowful enough. Ferdinand seems to have been a rather forceful character, gallant and fearless of danger.

AN INDUSTRIAL DIRECTORY

At the instance of President C. J. Haden, the Georgia Chamber of Commerce is preparing to issue a directory of the producers and the manufacturers of the state.

Land Titles in Georgia; How Best to Simplify Them

Editor Constitution I notice the suggestion in Governor Slaton's message on the necessity of simplifying land titles in order that the owners of agricultural lands may be in position to obtain the benefit of the proposed rural credit proposition.

The Torrens land system, while it has advantages, would hardly suit the conditions in this state and would involve very considerable trouble, complicated proceedings and expense to anyone wishing to avail himself of the system should it be established.

Under our law of prescription, seven years' possession under a deed is prima facie a good title. The trouble is that this seven years' prescription does not protect the land owner from the title of minors or others under legal disability to sue for remainders and reversions, etc.

Why not adopt something like the Alabama law which has been in force in that state for perhaps seventy five years without apparently working any injustice to anyone.

Provide that no suit to recover land shall be brought where the defendant and those through whom he has acquired title have been in possession under recorded deeds for ten years.

Such a law could be made effective practically at once. It would only be necessary to provide a reasonable time not over eighteen months in which all parties at less than ten years' possession should come into operation.

After the expiration of this reasonable quarantine the title of every landowner who could show twenty years' possession under recorded deeds even though going back to make a record of title would automatically become absolutely perfect against all comers.

It would of course be necessary to provide that the title of the remainder men could assert their rights in the event of adversary possession and have them protected by proper decree without waiting for the termination of the intermediate estate.

In this day of rapid communication of intelligence there would not be one case in ten thousand in which an account of the original title being in minors any injustice would be done.

The Alabama plan on the above lines does not seem to have worked any injustice and it is believed that it would be for Georgia. Hardly a right could be imagined which would not be asserted in twenty years.

Very truly yours, JOHN M. SLATON

KNOCKS AND BOOSTS FROM THE STATE PRESS

DAILY GRIST from the STATE'S POLITICAL GRIND

GOV. SLATON BRANDS AS FALSH STORY THAT WEST THREATENED HIM. Governor John M. Slaton, in a letter written to the editor of The Brunswick News brands as absolutely false the statement emanating from Congressman Thomas W. Hardwick that W. S. West threatened to spend \$75,000 to defeat him if he did not appoint him to fill the unexpired term of the late A. O. Bacon.

Atlanta, Ga., June 27 1914. Editor Brunswick News Brunswick, Ga. Dear Sir:—In a recent issue of your paper I notice editorial comment as follows:

The above story is absolutely untrue. Mr. West sent me no such message but did substantiate the assertion that Colonel West conducted himself as a gentleman worthy of the position.

Furthermore permit me to say that Mr. West was appointed without restriction of any kind until 8 o'clock of the day previous to the one during which he announced he was not going to run.

Very truly yours, JOHN M. SLATON

ATLANTA IS SHORT 13 INCHES OF RAIN

So Far This Year City Has Been Deprived of 5,816,828,160 Gallons - Dryest Year on Record.

The weather! How hot is it? When is it going to rain? If there is anything of more absorbing interest just now it has fallen to develop in Atlanta.

Official Rainfall Figures. Rainfall in January, 1.55 inches, deficiency, 2.85; February, .84, deficiency, 1.31; March, 3.17, deficiency, 2.61; April, 2.16, deficiency, .47; May, .30, deficiency, 2.79; June, 2.90, deficiency, 1.79.

Now, as to the heat wave: Mr. von Herrmann says that the people should not feel discouraged, for, according to history and records, there should be pleasant temperature in July.

Out of 1,085 observations the maximum temperatures in July range from 65 to 100. The most frequent maximum temperature was 88, which was observed 11 times.

The oppressive temperature at night has ranged from 78 to 86 and such have been shown only once in ten years in thirty-five years, only once every two years.

And that is a mighty good showing for any city as a summer resort, stated Mr. von Herrmann. The temperature of about 70 is called the "line of comfort."

The shock was slight, but the sudden stoppage of the California caused some commotion. The captain and officers speedily restored confidence and, as a precautionary measure, the boats were swung out. They were not lowered, however.

Peerless Permanency. BOWLS and TANKS.

The Guarantee. The Peerless policy is to guarantee every piece of goods sent out—no "take-em-back-if-they-fail" guarantee—and have no other.

It is the old story of having sufficient capital and strength of policy to give the buyer "the most for the money." Peerless pays no profits to others for making parts—everything from start to finish is owned by Peerless men and done by Peerless workers under one plant roof.

WHIFFS

Jinx Puruses.

THE LOOKOUT jinx continues to pursue the Crackers to the end. What has been done to rout it is beyond us. Six runs lead in the first game of the double-header, then it is kicked away and thirteen hits for only two runs in the second game. Surely McCormick must have a jinx sign of some kind hung out over every member of the Cracker team.

Tough Luck.

MORLEY JENNINGS and Mack Eibel have been slain to their honor in hard luck ball players. Let either one of these sterling players make an error and it always comes into Jennings' hands. Jennings went nine games without a boot, and the first one he booted cost a run. Mack went the same number of games—same result. That's nothing in the world but a jinx. Someone please send us the answer. We give it up.

Haven't Quit.

DESPITE the double defeat, we haven't quit, and we're not going to quit until the final game of the season is played. We have believed since the start of the season that the Crackers would be the best team in the league, and we still believe it. With this belief we're going to stick loyally by them and keep pushing them forward in-and-out ball that they have been playing will shortly settle itself into a day-and-night consistent brand that wins pennants.

Playing Fine.

HARRY HOLLAND's work is daily featuring the play of the Crackers. And the way he is hammering the ball is making him one of the most feared hitters in the league. Six hits in eight innings yesterday puts him in second place in the list of Cracker batters, and puts him up among the select in the league's hitters.

A Suggestion.

BATTING Holland in third place in the batting order would prove more effective as a run-getting combination in our humble opinion if he continues to hit as he is now. Welchonec does not seem to be able to deliver in the pinches as of old, though we are hoping that he will resume where he left off last season. Evans is doing well. This would give the opposing twinner four small men in row to pitch to, McCormick, Kircher, Holland and Long—a very difficult quartet to face, and with Welchonec back in his natural stride the batting order will then be formidable right through Jennings. We have a hunch Bill will adopt a batting order similar to the above in today's game.

Rout Jinx.

A FAIR FAN writes us that the Crackers are going to break two jinxes this afternoon. Her letter appears elsewhere on this page. In the first place, Evans is going to hit in losing on Ladies' day is going to be smashed, and in the second place Chattanooga's jinx sign on us is going to be routed. We hope she's right, and somehow we believe she is.

His Tactics.

JACK JOHNSON is being roasted because of his tactics in his fight with Moran in Paris on Saturday. Moran was never conceded a chance from the start and he never had one. Some reports of the battle say that Johnson could have won Moran any time he got ready, but with the movies to be considered, he never "got ready." This may be true. But Johnson was never known as a boxer who could put away quickly. He has always been content to win on us as is going to be a better battle than the Moran setto.

Gunner Next.

IF JOHNSON beats Langford, Gunboat Smith will be his next logical opponent and there are many who believe that when the white hope gets his fight with Langford, he will get that there will be several holes punched in his side. But, giving the devil his due, Johnson is going to get a good fight. Johnson, with that wonderful strength in the arms and shoulders, has baffled better men and better hitters than Gunner Smith. We shall see what we shall see.

CRACKERS DROP DOUBLE-HEADER

Poor Pitching Loses First, Lack of Pinch the Second; Moose McCormick Beated

By W. G. Foster.

Chattanooga, Tenn., June 29.—(Special.)—Timely hitting behind Atlanta errors gave the Lookouts two hard-fought games over the Crackers today. The contests were poorly played and long drawn out. The Cracker errors were not many, but the home team always showed ability to jump into the breach after one was committed. In the first game, one cluster of five runs came after the third out and beat the home side with another of three runs after a similar display. In the second game, an error preceded the home side's lead. Manager McCormick was hit on the head by a pitched ball in the first inning of the second game and will be out of the line-up for several days. He is at a hospital tonight, but the extent of his injuries has not been determined. The prize joke of the day was pulled off by Smith on his rival leader when, in the eighth inning of the first game, he had Doscher pass Jacobson pursuing to get Paige at the plate but immediately popped out.

Six-Run Lead.

The Crackers opened up with a six-run lead in the first inning of the first game, consisting of singles by McCormick and Welchonec, a pass to Long, Eibel's error which scored two runs, and a double by Stanley to Dunn and Williams.

Will Outbid Them.

A WASHINGTON player is quoted as saying that no matter what offer the Federal league makes, Walter Griffith will go to them. This player states that the American league cannot afford to lose a player of the Johnson type and they are not going to. Guess he's about right at that.

OSCAR STANAGE, the great catcher of the Detroit Tigers, is given the credit for the making of Harry Coveleskie. Those who have seen Stanage play, state that Stanage keeps up such a running fire of conversation that Coveleskie is forced to use the use of the army polo field near the white house for that purpose.

Army-Navy Game FOR WASHINGTON

Washington, June 29.—Another step toward the making of a national football game to the capital was taken today when Senator Swanson introduced a resolution authorizing the use of the army polo field near the white house for that purpose.

One more trial of the Coveleskie type and the Tigers would give the Athletics an awful battle for that American league pennant. They may do it yet, as soon as Cobb gets back.

Spike Shannon Will UMPIRE FOR FEDS

The features of Monday's real estate activity were the taking of a \$15,000 permit for a new apartment house and \$10,000 residence sale on Juniper street which considering that realty agents usually make their large announcements on Sunday thereby leaving Monday rather dry in the way of news is not such a bad day's work.

M. L. McKinnon having been placed in charge of the sales department of that agency.
