

VOTERS OF FULTON TO DECIDE NUMBER OF COUNTY BOARD

Two Forms of Government, One Calling for 3 Commissioners and One for 15, To Be Submitted.

DEMOCRATIC COMMITTEE TO TAKE ACTION TODAY

"The Powers of This Board Should Be Centralized in 3 Men," Declares Chairman Tull C. Waters.

Voters of Fulton county will have an opportunity at the forthcoming county elections to choose between two forms of government in county affairs. One will be a proposition whereby the county will be cut into fifteen districts, each district to be represented on a reorganized board of county commissioners. The other proposition contains a plan whereby the county can be run by three commissioners, each under a yearly salary, each to serve at the will of the people, subject to a simple recall, and each to serve four years.

The two propositions advocated by various members of the county democratic executive committee will be fully discussed at the gathering of the committee at the city hall today, at which time the members will set the date for the county elections. It is hinted that the date of the elections will fall some time between May 1 and 10.

Fifteen Members Proposed. Two members of the county executive committee some time ago put forward the proposition to redivide the county into fifteen sections. The redividing was for the purpose of providing fifteen members on the board of county commissioners, instead of five as the board is now constituted.

Shortly after the proposition reached the public, Tull C. Waters, chairman of the county commission board, put forward a commission form of government plan for the county which embraced the "three-man board" plan.

Tull C. Waters on Friday declared that he was unqualifiedly for a commission form of government for the county. "In fact," said Mr. Allen, "I would vote for a proposition to run the county on a 'one-man plan,' the same as Dayton, Ohio, is now run."

Mr. Allen on Friday declared that he was unqualifiedly for a commission form of government for the county. "In fact," said Mr. Allen, "I would vote for a proposition to run the county on a 'one-man plan,' the same as Dayton, Ohio, is now run."

Should Centralize Power. "The powers of this board should be centralized in one of three men. These men could be held responsible for everything that occurs in the county. It is a plan that I hope to get before the legislature if the voters of the county are given a chance to show their preference at the coming elections."

Eugene D. Thomas, chairman of the Fulton county democratic executive committee, declared on Friday that the voters would be given a chance to vote on the "three-man plan" or the "fifteen-man plan" of county government, as the county executive committee would more than likely put the two propositions before the people at the same time.

FATAL SHOOTING ENDS MIDNIGHT JOY RIDE

Three Men and Three Women Arrested at Rome—Haire Thought to Be Dying.

Rome, Ga., March 6.—(Special.)—A midnight automobile ride, terminating at a house of ill-repute east of town, a pistol shot that caused probably fatal wounds to Donald Haire, a well-known young man about town; the arrest of three women and three men; the refusal of all to talk; together with a mysterious case that is puzzling the police of Rome.

The affair took place before day-break this morning, and Haire, though shot through the abdomen, is still alive, though physicians say he has scarcely a chance to recover.

When informed that he would probably not live, he made a statement, in which he said that he had been accidentally shot by Lulu Ballard, one of the women under arrest, but exonerated her from blame, declaring that the shooting was entirely accidental. Officers are not inclined to believe this story, but think that Haire is endeavoring to protect the woman, and believe that he received his wounds in a general row.

The Ballard woman, a companion, Otis May, and A. R. Wood are under arrest charged with the shooting. A third woman, Rosa Martin, together with Fred Bogus, Porter Phillips and John Burgess, the chauffeur who drove Haire to the house, are also under arrest, suspected of complicity.

Mother Searches Many Hours To Recover Pretty Baby Girl As Husband Turns Kidnaper

MRS. JESSE C. PRUITT, JR., AND HER BABY.

Because he kidnaped his blue-eyed, baby girl, Jesse C. Pruitt, Jr., who separated from his wife three weeks ago, was thrown behind the bars of the Fulton Tower last night, after a search of four hours for him by his wife and her friends and the city detectives.

Both father and mother are determined to keep the child, and both state that they will enter suit for divorce, in the course of the next few days.

Pruitt, who is about 32 years of age, went to the home of his wife's mother, Mrs. M. E. Smith, No. 85 Central avenue, Friday afternoon about 4 o'clock, under pretense of paying a "social visit" to his wife, and in order to be allowed to "play a little" with his baby girl.

Neither Mrs. Smith nor his wife offered any objection, and bused themselves about their work. Seizing an opportune time when he was not being watched, he rushed out of the front door with the girl, who is 16 months old, in his arms, and jumping into a hack standing outside in readiness, he drove off.

Mother Begins Search. Then began a wild search on the part of the wife. She says she had good reason to believe that her husband would take the baby away from Atlanta. The police were appealed to, but the call was of a nature beyond their jurisdiction. The frantic mother would not be satisfied with this refusal, and with several relatives, she visited police headquarters to ask the help of Chief James L. Easters, who instructed her to swear out a warrant in the municipal court.

Then, with guards watching the Terminal station and the station depot, Judge E. D. Thomas, of the municipal court, was sought. "I believe that more senators would vote for my amendment than will support a flat repeal measure," said Senator Chilton tonight. "Though the amendment would accomplish repeal of toll exemption indirectly, it would not repudiate the democratic exemption plank indorsing toll exemption, and senators who flatterly refuse to go back on that plank could vote for it."

In the house there was quick response to the president's address, the committee voting 18 to 3 to favorably report the Sims repeal bill. Absent members who were recorded made the vote 17 to 4.

Charles W. Adamson had already a draft of the report when the committee met. It based approval of the Sims bill on the same two broad grounds set forth in the president's message, general international comity, and the immediate foreign situation confronting the country.

Representative Knowland, of California, who led the opposition in the committee, was given three days to file a minority report, and Chairman Adamson was authorized to urge the rules committee to report a special rule to hasten the bill through the house. The matter will be pressed at once, and it is expected a rule will be brought into the house, probably by Thursday of next week.

Adamson to Take Charge. Representative Adamson will take charge of the situation in the house, as Majority Leader Underwood, for the first time during the administration, finds himself on the anti-administration side of the question. Representative Underwood has announced his intention of not only voting against the bill, but also of introducing a resolution.

Garbed in a business suit of dark brown tweeds, Senator West approached the vice president's desk at 2:35 o'clock after his credentials had been read from the desk, and took the oath of office as unconcernedly as though he were engaged in an everyday routine matter in a Georgia legislature. He was accompanied by Senator Hoke Smith.

After he had subscribed to the oath and affixed his signature thereto, he was shown a seat on the democratic side of the chamber. Immediately he was congratulated by members of the Georgia delegation in the house, who were present for the brief ceremony. The first to shake his hand was Senator Baughman, of Wisconsin; Thomas, of Colorado; and Representatives Hughes, Howard and Walker, of Georgia, and John T. Boileau and Josiah Carter.

Boileau! Again Boileau! Until he reached Washington this morning Senator West was hopeful of inducing John T. Boileau to serve as his private secretary, but the latter, while expressing his deep appreciation of the compliment, declined. Senator West named Earl Williams, of Carrollton, who was formerly a member of Senator Bacon's clerical force, as his stenographer.

HOUSE COMMITTEE QUICKLY SUPPORTS APPEAL OF WILSON

Bill to Strike Out Toll Exemption Clause of Panama Canal Act Is Favorably Reported.

TWO COURSES OF ACTION CONSIDERED BY SENATE

Either Flat Repeal Bill or the Chilton Compromise Measure May Be Recommended to Upper House.

MAJORITY IN BOTH HOUSES READY FOR FLAT REPEAL. Washington, March 6.—Members of the house and senate who will aid in the repeal of the Panama canal act as requested by President Wilson were taken in congress today when the house committee on interstate commerce reported favorably a bill to strike out the provision. In the senate the committee on inter-oceanic canals decided to meet next week to consider the appeal of the president for a reversal of policy in the controversy which involves the Hay-Pauncefote treaty, and, in the opinion of the president, the general foreign relations policy of the administration.

While the house is debating the issue next week, the senate committee will consider what course to pursue; whether to recommend a flat repeal bill or to urge the compromise bill offered by Senator Chilton, of West Virginia, a member of the committee, which would authorize the president to regulate tolls and assess charges at his discretion, wherever exemption is provided in the canal act.

Under Compromise Bill. "I believe that more senators would vote for my amendment than will support a flat repeal measure," said Senator Chilton tonight. "Though the amendment would accomplish repeal of toll exemption indirectly, it would not repudiate the democratic exemption plank indorsing toll exemption, and senators who flatterly refuse to go back on that plank could vote for it."

IN RACE WITH DEATH, GEORGIA SHERIFF LOSES

Albert Davis Dies in New Orleans Hospital After Confessing Murder.

New Orleans, March 6.—Death cheated Sheriff Berry, Glynn county, Georgia, of a prisoner here today when Albert Davis died in a hospital just as the sheriff was going to the institution to take charge of him.

It is reported that he was in the last stages of tuberculosis, Davis, according to the police, cleared a murder mystery Tuesday by confessing he killed his sister-in-law last November near Berkeley, Ga. His brother was held in connection with the crime.

Davis, the police say, never admitted why he killed the woman. Husband's Oath Complicated. Eunswick, Ga., March 6.—(Special.) The death in New Orleans today of A. R. Davis, the self-confessed murderer of Mrs. Mary Davis, has somewhat complicated the case against V. H. Davis, brother of the dead man and husband of the murdered woman.

It was stated this afternoon that attorneys representing Davis would file a motion for bail, but such a move will be strenuously opposed by state's attorney. It is more than probable that the husband will have to face trial again in June.

Many contend that the confession of the brother was made only in an effort to clear the husband and they still entertain the belief that they were both implicated in the murder.

This Pretty Stenographer Wouldn't Have a Poodle; Alligators Are Her Pets

MISS HARBISON AND "UNCLE DUDLEY."

"Uncle Dudley," whose ancestors waddled about in the muddiness of the Nile and yapped a welcome chorus as Cleopatra's barge glided beneath the gleam of an Egyptian moon, has been transplanted into the more modern and more sanitary atmosphere of a city stenographer.

And his toilet no more is made in the mud of river banks, and the slime that adorned the hide of his antecedents has been replaced by pink ribbon and talcum powder. And instead of Egyptian maidens, his caresses come from the dainty hands of a pretty stenographer, who beribboned and talcums and bathes him every morning and keeps him in her desk.

A Regular Gator. "Uncle Dudley" is an alligator—a baby one, and his youth accounts for the lack of abhorrence he manifests at talcum and ribbons and caresses and regular baths. Maybe, when he grows older, family instinct might assert itself. That, however, is speculation.

By that time, anyhow, he'll be entirely too big for a stenographer's desk and plumb beyond the careening stage. He came from Florida, somewhere, and was presented to Miss Martha Harbison, the blonde stenographer with offices in the Healy building. At first,

the pretty tylist christened him Clarence with an ornament of talcum and rose-water. Later, however, the name of "Uncle Dudley" replaced the feminine "Clarence."

Three nights Uncle Dudley sloshes about in three inches of distilled water in a coffee can, and during the day he crawls around the desk of his mistress. He is a source of delight to visitors and the office force.

Respects "His Miasma." Towards all others he shows antagonism and two rows of sharp teeth that are sufficient warning. Pink ribbons, talcum powder, daily baths and the first application of rose water, however, have taught him to respect the pretty girl to whom he was presented.

Natural scientists are unable to tell Uncle Dudley's age. Only by his size they are able to tell that he is in his infancy, which is likely to be 25 or 30 years, according to the standard of age in the alligator tribe. Fifty years is a pretty ripe age for ribbons and talcum and feminine caresses, but, according to the same alligator standards, Uncle Dudley has fifty or more years of the same toilet.

That is, if he remains in a stenographer's desk. Which he doesn't seem to mind.

First Baptist Church Plans to Bar All Who Are Members Of Clubs Violating the Law

On next Sunday morning at the First Baptist church Dr. C. W. Daniel, pastor of the church, will read to the congregation a series of resolutions which have been adopted by that church and have been up to be submitted to the congregation, designed ultimately, if adopted, to place the members of the church squarely on record against such clubs with locker features as are violating the prohibition law.

While there has been much argument about it in the last six months, the First Baptist church, in taking this action, is the first church to get down to brass tacks on the question of locker clubs violating the liquor laws of the state.

It is known that other churches of the city will stand with Dr. Daniel and his church on this question, and it has been intimated that some other churches may make a similar move.

COMMITTEE PICKS ATLANTA AS A SITE FOR RESERVE BANK, TEN OTHERS NAMED

Gate City Is Chosen by the Federal Reserve Board According to Authoritative Information Given to The Constitution.

RICHMOND IS NAMED, AND ALSO DALLAS, TEX.; NEW ORLEANS LOSES

New York, Boston, Philadelphia, Richmond, Atlanta, Dallas, Chicago, St. Louis, Cincinnati, Minneapolis and San Francisco to Get Banks.

By John Corrigan, Jr. Washington, March 6.—(Special.)—The fight for a regional reserve bank for Atlanta has been won. From authoritative sources The Constitution is informed that eleven cities have been agreed upon by the federal reserve organization committee, composed of Secretary McAdoo, Secretary Houston and Comptroller of the Currency Williams. The cities which will enjoy the vast commercial prestige of being centers of the new financial and currency system of the United States are New York, Boston, Philadelphia, Richmond, Atlanta, Dallas, Chicago, St. Louis, Cincinnati, Minneapolis and San Francisco.

The one surprising feature of this authentic list is the inclusion of Richmond along with Atlanta, and of Dallas, Texas, in place of New Orleans. Included in the Atlanta reserve bank territory will be the states of Georgia, Florida, Alabama, Mississippi, Tennessee and possibly South Carolina.

The contribution by 10 per cent of the banking capital and surplus of member banks in this territory will give the Atlanta bank a capital of \$5,000,000, or 60 per cent more than minimum capital required.

FATHER ABANDONS SEARCH FOR GIRL LOST IN SAVANNAH. Savannah, Ga., March 6.—(Special.)—Search for Miss Maud Pritchard, of Northchapel, S. C., who mysteriously disappeared Wednesday afternoon while on the way to take the ferry with her father to return home, has been practically abandoned.

The police have no plausible theory. Every clue and suggestion has been followed in vain. The girl's father, A. M. Pritchard, broke down completely today, declaring he had lost hope of ever finding her. He returned to his home in South Carolina.

T. B. FELDER REOPENS POST WHEELER CASE. Washington, March 6.—(Special.)—Thomas B. He will attempt to show that Mr. Wheeler was improperly accused.

as the best that human ingenuity had evolved. Trading in futures, they said, was the backbone of the system.

President Canby argued that, since the grain crop was harvested in ninety days, some method of carrying the crop until it was called for by consumers had to be provided.

It is my experience in thirty-two years of wheat trading, he said, that this speculative dealing does not influence the price of grain.

Mr. Canby compared conditions in the grain industry of the United States with those in Argentina, where, he said, a few large interests dominated the market.

Speaking of the Chicago board of trade, he said that the board is involved in a monopoly which arbitrarily fixes the price of wheat on the farm.

SEN. WORKS ACCUSES WILSON OF COERCION

Expresses Disapproval of Administration in What He Calls Friendly Review.

Washington March 6.—Emphatic disapproval of the administration, the legislation which it has passed and of what he called the "coercion used by President Wilson to compel action by congress," was voiced in the senate today by Senator Works, of California.

The senator reviewed the tariff bill and charged that but for the "coercion used by the president upon congress, it never would have passed."

Executive pressure had created in the senate an apathy that impaired that body's usefulness. The income tax law and the currency bill were also mentioned in this connection.

Referring to the Panama tolls question, Senator Works said that people who believe in the right of free tolls for American coastwise ships, will want some good reason for this change of front on the part of the democratic party.

He declared that it was evident to everybody that the administration is opposed to granting sufficient money for the "back licks the courage to come out openly and oppose it."

One of the worst features of the two important laws—the tariff, including the income tax, and the currency act—is their deliberate attempt to limit and eventually overtake the civil service laws, rules and regulations.

It is singular that this should have occurred under the administration of Woodrow Wilson, former vice president of the National Civil Service Reform league and now claiming to be the head and leader of the democratic party.

Mrs. Wylie's One-Act Play To Have Premiere Tonight

Members of Norman Hackett's stock company and stars of the Players' club will unite tonight in producing for the first time the new one-act play by Mrs. Lollie Belle Wylie, which was voted the prize-winner in the recent contest promoted by Mr. Hackett.

The title of the playlet is "The Golden Goose." It is a farce comedy, and those who have been fortunate enough to have read it, or have been present at any of the rehearsals, say that it is filled with clever lines, and is sure to be most thoroughly enjoyed.

FUTURE OF REBELS HANGS IN BALANCE

Continued From Page One. To recognize Carranza if he were elected president, officials also take it for granted that Great Britain might influence other European nations to withhold recognition until reparations are paid for injury done foreigners.

The expressed opinion of the political future of Carranza, Carranza's point of view, Carranza's attitude toward the British, Carranza's attitude toward the Mexican situation began today with a speech by Senator Works, republican, who is one of the government's Mexican policy.

Monday, Senator Fall, of New Mexico, republican, proposes to make public a mass of information regarding the Mexican situation, particularly the treatment of American citizens.

Secretary of State received a note from General Carranza, signed by Senor Fabola, acting secretary of foreign relations, assuring the American government that the disappearance of the Mexican revolutionaries would be promptly investigated.

Senator Shively, republican, of Missouri, proposes to open up the flood gates if there is to be a free-for-all discussion of the Mexican situation.

DISCOUNT FOR IMPORTS FROM AMERICAN SHIPS

Granted by General Appraisers in Opinion by Judge Waite.

New York, March 6.—A 5 per cent discount on all imports carried by ships of American registry, as provided in the new tariff law, was granted today by the board of United States general appraisers, in an opinion by Judge R. S. Waite.

The decision, if upheld by the higher courts, will affect four ships of the American line from Southampton to New York, two ships of the Red Star line and all coastwise vessels which by law are all of American registration.

The board further states that this is not a statute extending favor to any country, but an offer to importers of all nations to make use of the reduction allowed to American shipping.

The decision caused considerable commotion among New York importers.

MOTHER MAKES SEARCH FOR HER BABY GIRL

Continued From Page One. A mother's bug and kiss, while smothering the baby in her arms, and the baby's red head, and the mother's face, were the first things seen by the police.

The girl's name is Miss Nola Anderson, and the young widow's name is Mrs. Margaret Westbrook, who states that she is from Birmingham, Ala. Both girls are well dressed.

For the first few days in Atlanta the girl was registered as "Nola" at the Westbrook sisters' and had left there last night when Detective Aronowicz called her to the police station.

NO TRACKS ON SPRING.

Property owners interested in the widening and extension of Spring street have petitioned council for an ordinance that shall forever bar that street for car tracks. Their position is justified and sound. Spring is the one north and south boulevard free of tracks, and therefore peculiarly fitted for through north and south traffic. This advantage would be largely vitiated by the running of street cars on the street. It is fortunate that the question comes up at a time when no application for the use of the street for tracks is either pending or in contemplation. The city is, therefore, free to act without embarrassment or possible complications. If it were a matter of depriving Spring street of proper street car transportation facilities the issue would assume another complexion. But Spring street does not now and never will suffer from lack of trolley facilities. It is already flanked on each side by trolley lines amply sufficient to take care of the traffic for the present and the future. No valid reason can, therefore, be cited why this great north and south through air line should not be preserved forever to vehicular traffic, free of car track impediments. The whole city is interested in this matter, for the whole city will frequently use the thoroughfare for north and south traffic from Buckhead to Five Points. So keep the tracks off Spring! The property owners, the city and the county have the right to ask this.

THE COOK THAT LEAVES.

The judiciary committee of the Maryland legislature has been told that a woman of Baltimore developed nervous prostration because of the strain attendant upon putting up with forty new cooks in one year. Any Atlanta housewife will credit the story, and any observing Atlanta husband will concede its truth. The testimony was put forward with the idea of securing a bill requiring cooks to register and enter into enforceable contracts. Some such legislation ought to be available everywhere, especially with regard to the negro cooks of the southern states. They are notoriously contemptuous of contractual obligation, as are their husbands, and negro farm labor generally. The average cook scorns the formality of giving notice of leaving. She simply does not "show up" the next morning, and the housewife must take up the burden all unwarned and unprepared. In the business world the primary principle is honor in observing contracts. The most inconsequential clerk or wage-earner who "umps his job" is apt to black-list himself automatically. The negro needs to learn this principle. He needs to learn the essential co-operation that underlies our economic and our social fabric. His leaders can be of tremendous help in teaching him the lesson. And until he learns it he is going to be tremendously handicapped in the solution of the problem we all know to be of formidable dimensions under even the most favorable auspices.

THE YOUNGER HILL.

Louis W. Hill, son of J. J. Hill, the great western "empire builder," has been elected president of the Great Northern railway. He has had training under his father and the general belief is that for several years he has really borne the brunt of the ex-

ecutive work involved in operating that big system. He has been carefully trained. It is said he has gone through every phase of the system's management, from rodman up. He is conscientious, a plunger, enthusiastic, imaginative. He will need all these qualities and more if he measures up to the stature of the "old man." J. J. Hill was, and is, a tremendous figure. He dreamed dreams of an empire and he carved it out. He used obstacles as allies. He possessed a steady and an irresistible driving power. He always tried persuasion, first. When that failed, he resorted to dynamite. He believed in peace, but he never was an advocate of peace at any price, especially at the price of sacrificing your own plans. Civilization and conditions are more intense, more complicated than in the times of the old man. They need greater strength, more subtlety. Will the son develop these traits? It is natural that the northwest should watch him closely for the answer to the question, for upon the efficient operation of the Great Northern and its tributaries depends largely the welfare of the northwest and its supremacy in the battle to be opened by the Panama canal. At least no man can complain that Louis Hill lacks equipment. He has had the advantages of actual experience and of merciless hardship. The question is, has he been molded by them into the design of a fighting man and a building man? The next few months, with their undoubted crises, ought to tell the story.

ONWARD MARCH OF "REFORM."

Professional "reform" marches on. The latest craze, and it is typical, is reflected in a current magazine article which deplores frequent bathing and demands reform. We are dimly told that daily baths are dangerous to health, demoralizing to morals and inimical to nature. The "reformers" lose sleep trying to devise new and outlandish wrinkles. They do not respect the domain of religion, politics, society or the home. "All is fish that comes to their net." They forget that human nature in the rough, as testified recently by an eminent British scientist, has changed or improved very little since the days of Eden and the fig leaf. They forget that what progress we have made and are making is due to natural evolution, which cannot be accelerated or retarded by artificial means. Any effort to anticipate progress ends in confusion and expense to genuine "reform." Nothing truer ever has been said than that "the world was made when a man was born." Our reformer friends, with their library glasses and their lorgnettes, are in danger of forgetting this primitive principle. Happily for the serenity of us all, these fads go in waves. Shortly saunter returns, the pendulum swings back and the folk who are normal and judicious once more are content. In the meantime, if you are a genuine, rock-ribbed, up-to-date, everything-wrong-and-the-world-going-to-the-devil reformer, then the best thing for you to do is to stop bathing.

NEW BODIES FOR OLD.

In no respect are the marvels and the possibilities of modern surgery more startlingly indicated than in an operation recently performed by Dr. G. Frank Lydston, of Chicago. Last January, if you will pardon the frankness of the clinic, Dr. Lydston transplanted the generative gland of a youth newly dead to a living person. Apparently, the patient is thriving normally. And the doctor is authority for the statement that if such operations prove feasible we shall have new remedies for Bright's disease, arterio sclerosis and other degenerative maladies. The Constitution does not assume a sufficient knowledge of scientific surgery to say that cases of this nature may be made uniformly successful. We do know, from ordinary observation, that operations almost as bewildering as the Lydston one have eventuated brilliantly—restoring health, saving lives and bringing peace and ease and tranquility where heretofore had been pain, despair, dull distaste for continued existence. The operation of Lydston and the operations at Johns Hopkins, at Chicago and under the auspices of the Rockefeller Institute for Research, kindle new hope, suggest new and bewildering paths. It is not impossible that in due course we shall have new bodies for old, or at least new organs for old, and that means the same thing. Of course, not even the most imaginative and far-seeing scientist is willing even to intimate life everlasting on this earth, or a cure for all ills, or operations that will work miracles. But the truly conscientious and unspacious physician and surgeon is a man of faith and of hard, plodding work and of sturdy, unflinching intelligence. He is laboring in a wonderful cause.

THE MATTER OF THE PANAMA CANAL.

In the matter of the Panama canal tells the honor of the United States in trial before civilization. Last call for that income tax. So far the peach crop hasn't let out one bean. A good way to employ the army of the unemployed is to put its members on the job of making highways. The parents of the state of South Carolina must have been awful sinners to give birth to such a son as the present governor.

A Story of the Moment
By WALT MASON,
The Famous Prose Poet.

All Kinds of Grief.

"To like to show you the model of a cabinet for phonograph records that I am introducing," said the gentleman of ministerial appearance. "Of course there are many handsome cabinets on the market, but they are too expensive for the ordinary purse, and the one I am offering fills a long felt want." "There are no long felt wants or short felt wants or any other kind of felt wants that need filling on these premises," said Mrs. Curfew, with some warmth. "And if you want to sell one of your cabinets you'd better go and talk the arm off some woman who has a phonograph in the house, which I haven't got, thank you very much. I've known all kinds of trouble in my days, but I never knew what the real thing was until an agent persuaded me to buy a machine on the installment plan." "I'm perfectly happy over my bargain for Mr. Curfew was infatuated with the phonograph, and stayed at home, playing music, which I thought was better than going to the grocery store to play checkers, for a man that can't play checkers, I don't know how to play them, and I've known Mr. Curfew to spend ten cents in one evening while among his cronies at the store, and he knew at the time that I was straining every nerve to save up enough money to buy a new bow for the stovepipe, the old one being full of holes, and filling the kitchen with smoke and soot. I don't want a man to be stingy with his money, but the idea of spending that kind of money on these premises," said Mrs. Curfew, with some warmth. WILSON PRAISED FOR CANAL STAND

Highest Compliments Paid President by Press of England for His Attitude on Tolls Question.

London, March 6.—Laudatory comments on President Wilson's message to congress are published in most of the newspapers of this country today.

The government organ, The Westminster Gazette, pays the highest compliments to President Wilson for his attitude in regard to the question of Panama canal tolls.

It is not always convenient to hail a statesman of another country as a just judge when he advocates your case against a section of his own countrymen.

We cannot refrain, however, from expressing respectful admiration of the courage and manliness with which President Wilson handles the Panama tolls question.

Example of Straight Dealing.—The president of the United States sets an example of straight dealing which may be recommended to diplomats of the old world.

Other statesmen in other countries are capable of doing the thing he has done, but most of them would rather make diplomatic phrases than make-believe arguments to save the faces of their governments.

Referring to President Wilson's mention of "other matters of even greater delicacy," The Westminster Gazette says:

"We understand the allusion, and think it right to say at once that Mr. Wilson's handling of this question greatly facilitates quiet consideration of the other and more delicate questions here alluded to."

Regarding Benton Affair.—On the subject of William S. Benton the British ranchman killed at Juarez, the same newspaper writes:

"We greatly deplore all efforts in this country to force the United States into an adventurous policy out of keeping with President Wilson's ideas."

The Pall Mall Gazette says: "President Wilson's action sweetens the atmosphere of international relations between us and our kin on the other side of the Atlantic."

While acceptance of the invitation to participate in the Panama-Pacific exposition at San Francisco would be incomparable in magnitude with the high minded act of President Wilson.

The Evening Standard and the Liverpool Post likewise applaud President Wilson's message and urge the British government to reciprocate by accepting the invitation to take part officially in the San Francisco exposition.

EXPERTS SHOW ELKS NEW DANCES TONIGHT

Atlanta Lodge No. 78 B. P. O. E. will give a dance for its members and their ladies at the Elks Home on Ellis street tonight.

PUBLIC WORK PROGRAM TO BE DECIDED TODAY

County Commission Committee Will Hold a Meeting This Morning.

A meeting of the public works committee of the board of county commissioners will be held today, at which time the final touches will be put on the board's program for public improvements during 1914.

The program to be put through will not embrace, by a large sum, the amount of work scheduled during 1913. The reason for this year's decrease is the fact that during the coming year the payments are due on the contracts covering the new county courthouse, which will drain heavily upon the county's treasury.

The policy of retrenchment on account of the great expense of the courthouse will strike all departments during the coming year. In fact, it is stated that the county's outlay of money for 1914 for public work use will probably not total half of the 1913 appropriation.

The meeting of the public works committee today will be preliminary to a joint session of the committee with the street committee of city council to be held March 12, in the council chamber at city hall, at which time the city street committee will look over the county program and lay out the city work accordingly.

No inkling of the contents of the program has been let out nor has any one given a project been named as a finality in the matter of improvement during the coming year.

SECRETARY HARE HOLDS EXAMINATIONS MONDAY

Secretary Hare, of the civil service commission for the Fifth district, will hold two examinations Monday, but in neither case will the applicants be taken to the federal building for these examinations but will be rated upon the evidence adduced as to their general education and training and their practical experience and fitness for the work.

An annual salary of \$3,000 is offered for a pulp and paper engineer for assignment to the forest products laboratory, forest service, at Madison, Wis. The educational training must be sufficient for graduation in mechanical and chemical engineering from a college of recognized standing together with at least ten years' practical experience in the commercial manufacture of wood products and paper made therefrom.

An anesthetist is wanted for duty in the Freedman's hospital at Washington, the pay being \$1,200 a year with board. Applicants for examination must be graduates of a reputable medical college and must have served at least one year in a general hospital. Statements as to education, training and experience of applicants will be accepted subject to verification.

SAYS CANADA FAVORS RECIPROCITY PACT

Buffalo, N. Y., March 6.—The National Wholesale Lumber Dealers' association closed its annual convention here today, electing a Canadian, Gordon C. Edwards of Ottawa for president.

Rodolphe Lemieux, former postmaster general of Canada, who was the chief speaker at the closing session said: "If an appeal were made now to the Canadian people there would be an overwhelming majority in favor of the reciprocity pact. The vote cast in September 1911 was wrong. Last year 56 per cent of Canada's business was with the United States and 43 per cent of the United States trade of the United States was with Canada."

That is not based on sentiment it says, and it is our hope that it will go on increasing every year. Trade is the forerunner of peace and the vanguard of progress.

GEORGE W. VANDERBILT DIES AFTER OPERATION

Washington, March 6.—George W. Vanderbilt of New York died here today from the effects of an operation for appendicitis several days ago.

Mr. Vanderbilt's death today came unexpectedly. He was operated upon last Tuesday and reports since then declared his condition was improving. He was 67 years of age.

New York, March 6.—George W. Vanderbilt was a well known and probably the least known of the sons of the late William H. Vanderbilt. He never took an active part in business and finances where other members of the family gained wealth and distinction.

He was a traveler and his chief interest was his magnificent estate at Baltimore near Annapolis, where he spent the greater part of his time.

FORSAKES FOOTLIGHTS FOR LOVE IN COTTAGE

Forsaking the footlights for the ivy-cloaked cottage and true love Miss Ida Rosenberg of Brooklyn, N. Y., a pretty young actress, has done so.

She is married to a young man, Robert Paine, a clerk in the employ of Thomas Pitts the cigar store man.

The couple accompanied by Mrs. Eugene DeLoe appeared at the ordinary's office after offering and income tax search for one of the judges of the new tribunal.

Judge McClelland was finally located and united the couple in record time. The pretty bride declared that she "was through with stage work and was more than glad to drop the make-up box for the iron skillet."

GLUED TO SEAT BY TAR, SUES POWER COMPANY

J. Oscar Phillips filed suit in superior court on Friday for \$200 which he alleges is due him following a ride which he and his wife took to the same time since on a street car and during which he found that both he and his wife had become closely attached to the car seat, which was found to be smeared with liquid tar. To add insult to injury Phillips declares in his affidavit that the conductor of the car gave him the merry laugh when he asked for assistance.

The suit is directed against the Georgia Railway and Power company.

SNOW YESTERDAY, BUT FAIR TODAY, SAYS FORECASTER

When Saint Peter opens the gate some of these "fair and warmer" days to come and finds Local Weather Forecaster von Herrmann standing on the nearby steps, seeking admission, there's just one question he'll ask, and it is this:

"How about that fair weather you promised Atlanta during the 1914 spring? Remember, it snowed on March 6, when you said it would probably be fair."

And Von Herrmann will probably hang his head and say "All right, Peter, I'm guilty."

However, there will probably come a choir of Atlanta voices, which will sing, "Let him in. He was a good fellow, at that."

All of which goes on to assert that snow fell for about ten minutes in Atlanta on Friday. In spite of that, Von Herrmann declared on Friday evening that today would be fair and clear. "There will not be much of a change in the temperature, but all signs of rain have disappeared," he declared.

HELD UP IN FACTORY AND ROBBED OF \$10,000

Paymaster in St. Louis Is Victim of Two Automobile Bandits.

St. Louis, March 6.—The paymaster of the Brown Shoe company was robbed of \$10,000 at a factory of the company this afternoon, according to a report telephoned to police headquarters. The robbery was committed by two men who jumped from an automobile, ran into the factory and held up the paymaster.

WARNED TO WITHHOLD SUFFRAGE AMENDMENT

Senator Ashurst Told by Mrs. Belmont Not to Push Measure.

Washington, March 6.—Mrs. O. H. P. Belmont served notice on Senator Ashurst today that the suffragists would declare war on him if he permitted the woman suffrage constitutional amendment to go to a vote in the senate at this time, when there is doubt that it might command the necessary two-thirds vote.

"If you allow the woman suffrage amendment to go to a vote now," Mrs. Belmont telegraphed, "I shall consider you false to our interests, and shall not hesitate to make the fact known in important places. Those who have asked you to push the amendment to a vote now are not genuinely interested in its immediate success. They are progressive, and are using your before of their advice. We expect you to represent us, not them."

"Mrs. Belmont is one of the leaders, if not the leader of the whole movement," volunteered Senator Olive James.

Men and Religion Bulletin No. 104. A PROOF

"Examine yourselves, whether you be in the faith; prove your own selves." ---2nd Cor. 13:5.

Some ardent prohibitionist— Or perhaps an anti-prohibitionist—

In either case, one of those strange men, fortunately in the minority, who believe the hold of alcohol upon County and State to be so great that men will invariably perjure themselves in preference to keeping an oath—

One of these may sneer: "What of the failure of the last Grand Jury to indict the violators of the liquor laws?"

Brothers, look! Revenge, punishment, prosecution, these are not the purpose of the Church of God in pointing to the breaking of that law in clubs and bars.

Many, who are trying to follow Christ, are glad that the clubs—the majority of whose members may be and doubtless are themselves trying to follow Christ in their way—many are glad that these were not indicted.

IT WOULD BE A LASTING DISGRACE, HAD THE GRAND JURY INDICTED ANY LOCKER CLUB, ITS STEWARD OR MEMBERS AND MADE AN EXCEPTION OF THESE BECAUSE OF THE POSITION AND POWER OF THEIR MEMBERS.

As it is, the clubs, regardless of name or position, may yet prove to the world that their purpose is to respect and uphold the law. The Grand Jury indicted none. But it signed the death warrant of the lawless locker clubs. It pointed out that some of them are deliberately violating the law.

In the case of Rothschild against the State, Judge Ben Hill, then a member of the Court of Appeals, wrote: "INTOXICATING LIQUOR CAN NOT BE SOLD IN THIS STATE BY AN INDIVIDUAL OR A CORPORATION AS A BEVERAGE, AND WHEN A STEWARD OF A SOCIAL CLUB SELLS TO MEMBERS OF THE CLUB INTOXICATING LIQUORS, HE IS GUILTY OF A VIOLATION OF THE LAW, ALTHOUGH IN MAKING THE SALE HE IS ACTING SOLELY FOR THE BENEFIT OF THE CLUB."

There is no room for a dispute. The law is plain. Members of each Grand Jury which convenes could themselves give evidence of the violation of the law. Detectives are not needed to supply the evidence in the case of many clubs.

Think of these things. Does the locker club hasten the coming of the Kingdom of God? Does the disregard for the sacredness of law by men in office, high in authority, and men, leaders in our city's life—

Does this advance the cause of Christ? You read a few days ago—"In Mitchell County, Georgia, an 18-year-old girl shot her father. The man was drunk. He was trying to choke the girl's mother to death."

In Berlin, where beer is king—in one year three thousand women were supported by the city; they were obliged to leave their husbands. "The vast majority of the latter were drunkards."

Baer says:—"54 per cent of German divorces are from drink."

"Eulenburg affirms that in 24 years, 1,152 school children in Berlin killed themselves, and he attributes this not to overstudy, but to home troubles—in most cases alcohol."

Do you wonder that Emperor William is an advocate of abstinence? You are right in saying—"Morality, sobriety and salvation can never be legislated into man."

ONLY CHRIST CAN SAVE. But do you help or hinder Him when you, a member of His church, supply a man with liquor—when you teach the servants in your club to disregard and break the law?

Sunday, will you not go to the Church of God and there in His house of prayer think of these things? By your own conscience you stand or fall. It is not fanaticism that asks—"Are you satisfied with your life?" God calls—"Examine yourselves—prove your own selves."

TAX ON INCOMES WILL FULFILL EXPECTATIONS

Such Is Indication Based on Returns Made Up to Monday.

Washington, March 6.—The income tax law bids fair to live up to the expectations of the administration by producing about \$50,000,000 annually in revenue paid by close to 425,000 individuals. Although many officials decided tonight not to make public for the present the reports of internal revenue collectors, it is estimated that it became known that more than 400,000 individuals had made returns in the cases of absence and sickness and they expect the final figures to show at least 25,000 more reporting than were given in the preliminary lists from collectors. If they are not mistaken in this view the actual results will be close to the estimates made at the time the legislation was before congress.

COTTON SAGGED LATE IN SESSION

Liquidation Was Main Factor in Weakness—March Closed Unchanged—Other Months Off.

New York, March 6.—After showing considerable steadiness during today's early trading, cotton turned easy late in the afternoon, under local liquidation, which was largely from 3000 street sources, and may have been inspired by weakness in the stock market. The close was easy at unchanged prices on March, but generally 5 to 10 points net lower.
