THE JOY OF DANCING EXERCISE
Very few women or men seem to care to dance or get dancing exercise unless they are assured the freedom from aching feet that Allen's Foot-Powder affords.

From Girlhood
THE change may be critical and cause untold suffering in after-life. The modern young woman is often a "bundle of nerves" - "high strung" - fainting spells, emotional frequency, blues and dissatisfaction with life. Such girls should be helped over this distressing stage in life - by a woman's tonic and nervine - that has proven successful for over 40 years.

today that they would proceed with their work without regard to the course of Carranza. In coming in or remaining out of the conference, they have made no further overtures to him, and if he comes in it will be voluntary on his part.

Pressure Applied to Carranza.
In the quarters outside of the mediators, however, pressure is being applied to Carranza to bring him into the conference. Carranza has been brought into the United States that he should participate in order that the entire Mexican situation might be brought into any settlement secured.

United States Delegates Have Not Named.
Secretary Bryan said today, however, that there was no truth in published intimations that the United States might not appoint delegates to the conference. He will talk further with President Wilson before the matter is announced.

A notable official assemblage will meet the funeral ship Montana when it arrives at Brooklyn Monday with the dead sailors and marines from Vera Cruz. Besides the president and the secretary, the United States delegates will be designated to attend the conference under a resolution of the house, adopted today. A similar resolution probably will be introduced by the Senate.

During the day Secretary Bryan received a delegation of prominent men connected with the oil industry and near Tampico. They wanted written assurances from the federal and constitutionalist commands that their oil properties would be safeguarded. Mr. Bryan told them that both the federal and constitutionalist commands were ready to assist in the preservation of property.

Anxiety concerning the whereabouts of Vice and Deputy Consul John H. Silliman, of Salt Lake, who disappeared while on a mission to San Luis Potosi, was not allayed during the day. No reports having been received to the satisfaction of every one, the American Red Cross agent, and Consul Silliman's wife, at Vera Cruz, are among the refugees in Mexico City.

Rafael Zubaran, minister of interior in Carranza's cabinet, is expected to arrive in Mexico City today. He is expected to arrive in Mexico City today. He is expected to arrive in Mexico City today.

THE change may be critical and cause untold suffering in after-life. The modern young woman is often a "bundle of nerves" - "high strung" - fainting spells, emotional frequency, blues and dissatisfaction with life.

Major Holbrook Addresses the Colorado Miners--Tells Them That President Is Resolved to Have Peace.

Trinidad, Colo., May 6.—The program of disarming of contending factions in the southern Colorado strike zone was virtually announced today by Major W. A. Holbrook, in behalf of the United States troops in the district.

Major Holbrook to Strikers.
"When the United States speaks," said Major Holbrook to the strikers, "it is a matter of serious moment. The president of the United States must be obeyed. We have soldiers and officers here to see that his command is obeyed. We do not want to see you intend to shoot your men. Killing is a terrible thing, but if we must do it, then we will. We must have order. It is no question of persuasion, not in the direct service of the United States."

Wants the Buried Guns.
"And I want you men who have buried your rifles and guns in the hills upon our coming, to go and get them and bring them to us. I have the most friendly feeling for you men, but I insist kindly, now, that you give up your arms. I have ordered my officers and soldiers to abstain from the use of intoxicating liquor, and I have asked the mayor to see that all saloons in this district are closed so that you men may always keep cool and control yourselves and when you come to me to be in your right senses and not fired by intoxication."

The negro was chased by Mrs. Karst for one block when he outdistanced her. Mrs. Karst telephoned police headquarters for assistance in catching the negro, but by the time that Call Officers Evans and Palmer could arrive on the scene the negro was far away.

JACKSONVILLE WILL CLOSE THE RED LIGHT

Rev. Hugh Wallace Talks of the Plan to Abolish Segregated District.

Jacksonville, Fla., which is reputed to possess a tending to be ranked as the young Barony Coast of the South, is to inaugurate a reform movement similar to the road crusade promoted two years ago by James L. Beavers. Mayor Van C. Swearingen some time ago voluntarily announced that if the citizens of Jacksonville would properly care for the red light districts, he would voluntarily abolish the district. Swearingen will have the co-operation of the Men and Religious Forward Movement in his campaign against vice. Rev. Hugh S. Wallace, field secretary of the organization that has the work in charge, who visited Atlanta yesterday for a conference with leaders of the Men and Religious Forward Movement here has this to say about the Jacksonville movement. "The movement is without a parallel so far as I know in the history of this country. He threw down his challenge recently at a large and representative gathering of ministers and leading laymen and from time to time has not only repeated his challenge but strengthened it. Moreover, I think the mayor himself in many respects stands out peculiarly above his fellow mayors. He is a Christian man, a man with conviction, and a man who is not afraid to stand up squarely and persistently for what he believes. The organization of which I am secretary and which I am in charge of the work of preparing for the girls and women to come from these houses, the latter is composed of leaders in every evangelical denomination in the state of Florida. We are had enough heart and kindness about him to first ask that these unfortunate ones be cared for."

Boy! Page The Times Scribe; We Think He's Lost His Dog

Attendance Poor in Atlanta, reads a headline in The Chattanooga Times and the article that follows states that the attendance here has been poor, that the town is full of knockers, and everyone is disgruntled.

Let The Times' scribe look at the attendance in his own city before he starts hammering at Atlanta. But we guess it is just jealousy or spite on Bill Smith, as there is no love lost between The Times' scribe and the Atlanta manager.

Glance at these figures and then let's hear from you, Mr. Times' Scribe. Atlanta played four games in Chattanooga recently. The total attendance for the four days was 5,622 persons. At two of the games, the guaranteed visiting club (the Crackers) was not in the ball park.

One of these games was a Saturday game and right after the Kickouts had won two games and tied one with the Crackers, yet only 1,840 paid admissions were registered at the turn of the game.

RED BLOTCHES AND PIMPLES ON FACE. Looked Like Small Boils, Itching and Burning Intense. Could Not Sleep Boils Pained So. Cuticura Soap and Ointment Cured. 1215 D St., S. W., Washington, D. C.—"About three years ago I began to have boils on the back of my neck and body and then my face began to break out with large red blotches and pimples. You could not put a pin point anywhere on my face and arms that there was not a pimple. The pimples looked something like small boils. They feasted and came to a head. The itching and burning were so intense I scratched and made sores. I could not sleep the hair pained so. I tried different remedies but they did me no good. Finally my face was so bad I was ashamed to go out. I got so thin that my friends all called me 'Bones'. I suffered this way for a year. Finally my mother heard of Cuticura Soap and Ointment and at once got them. I used the Cuticura Ointment night and morning and I would wash with the Cuticura Soap twice a day. In two weeks they told me I was looking better. I was completely cured in four months." (Signed) Irwin Deltz June 16 '13.

UNIVERSITY CLUB TO ERECT NEW BUILDING

At Meeting of Members Last Night the Plan Was Favorably Acted On.

The University club, at its annual meeting last night, decided to have a new building, the detailed plans for which will be decided upon at an adjourned meeting of the club to be held June 11.

The purpose of last night's meeting was the report of committees and the nomination of officers for the ensuing year, but when the question of new quarters was brought up, it was decided to nominate no new officers until after the plans for a new home for the club are decided upon.

After the meeting last night Burton Smith, chairman of the executive committee, stated to a Constitution reporter that the club has before it several favorably considered propositions for a new home. Just what these propositions are Mr. Smith said he was not at liberty to disclose but that one of them contemplated the leasing and remodeling of a building which is already built and that another was for the construction of a new building to be occupied by the club. The sites of both these buildings, he said are within a radius of two blocks of the building occupied at present by the club.

The University club now occupies the old Abbott residence in the middle of the west side of the block of Peachtree street between Ellis and Cain streets, which is owned by Asa G. Chandler. Mr. Smith said that the club has the privilege of occupying that building for a considerable length of time, but in view of the fact that the club must seek new quarters, it is starting now.

The matter of new quarters and the nomination of new officers will be taken up again at the June meeting. Meantime the new building plans lie in the hands of a committee.

NEW TRIAL REFUSED TO LEO M. FRANK

Continued From Page One.

er or not their original testimony was correct, it has been shown that they are wholly untrue.

Calls Them Crooks.

"God alone knows the truth of these recanting witnesses. They say to have stories to fit any necessity. These confessed perjurors are responsible for the conviction of Leo M. Frank. If then, he was convicted on no evidence at all, why, you could search the chain-gangs prisons and penitentiaries over the nation and you wouldn't find a more choice set of crooks than those with whom my friend Dorsey convicted Frank.

I have never seen such depravity in mankind as has been depicted in these witness' affidavits. It has forced me to believe in utter depravity. If anything occurred outside of Russia like the conviction of Leo Frank, I have never heard of it."

Following his attack upon the various witnesses who have repudiated their testimony time and again Mr. Arnold dwelt upon the Ragsdale episode, saying that Ragsdale is a man who is a witness in this case. He told on the witness stand by Jim Conley.

There was where Dorsey had an excellent chance to indict witnesses," he spoke. Conley admitted on three distinct occasions that he had perjured himself. Dorsey had an excellent opportunity then and at other times to do a little indicting of men in his own case.

"We were justified in putting in Ragsdale's affidavit because he was a minister of good position connected with a respectable church and was backed by Rev. John E. White. If he told a lie it is only an addition to the thousands that have been told in the Frank case.

"There has been nothing unclear in our methods. We have sought nothing but the truth and our constant instructions have been to touch nothing but the truth. But bless you! when we get the truth in this detective racket it may be after Frank is hanged, but it will be revealed. That can be depended upon.

At this point of his address, Mr. Arnold took up what he designated as two outstanding weak points in the state's chain of evidence which, he declared had been highly instrumental in convicting Frank. They were the hair found upon the lathing machine, and the blood spots.

"First of all he said 'we'll exclude the hair, because of Harris. It has been shown he said that it was not Mary Phagan's hair. The blood spots were clipped up and examined by a

man who was the state's witness—Dr. Claude Smith. He found one blood corpuscle to the lot, and he stated that it could have been the blood of a rat or a mosquito which had sucked human flesh. Also, he stated that the blood could have been on the floor one or four years or more.

"All this practically eliminates the state's theory that Mary Phagan was murdered on the floor. And, certainly, it was absolutely necessary for the crime to have been committed there for Frank to have been guilty."

Conley Not a Pervert.

It was shortly following the Arnold made the startling declaration that Jim Conley was not a pervert and that he, Arnold, disagreed with Detective Burns in this respect.

"Burns is familiar with the verbiage of our negro and that is why he believes Conley to be a pervert. I understand he bases his opinion on the vile language used in Conley's letters. Conley isn't a pervert. There isn't any perversion in this case. Frank isn't—no one connected with it is. Mary Phagan was killed to slake the bestial lust of a depraved mind. This perversion business is rot.

"Annie Maud Carter is a dissolute, criminal creature, but she is telling the truth. The letters show for themselves I don't know how she got the detectives had been able to get hold of her, she would have joined in the popular pastime of recanting. Furthermore, Conley, in his own affidavit, denied writing Annie Maud Carter these letters.

"Your honor," Mr. Arnold said in conclusion "we have presented this case under extreme difficulties. Any fact we have shown has been subjected to the vilest and most meretricious attacks. And, therefore, those facts which did stand muster certainly are meritorious and deserving consideration. Your honor, Leo Frank deserves a new trial. It is justice that he be given one."

Mr. Rosser spoke, in part as follows: "Much of the testimony that has been presented by the state has been led in by your honor on the ground that it showed the manner of getting the testimony—attacks on the methods of the defense so to speak.

"Anybody who understands human nature in the least knows full well the power of the state and the power of the city—knows that this power is sufficient to cause a witness who has changed his testimony to change it back again.

"An individual hasn't the power or capacity of the state or city. I want to say that it isn't necessary for the solicitor or city officials to use their power wrongfully to exercise a tremendous influence over these witnesses. The solicitor's access to the grand jury is sufficient. Not a single man who testified falsely in the Frank case had an opportunity to recant his testimony if he wished to do so. The solicitor doesn't have to put it in the grand jury's hands to get a perjury. All he has to do is to sit still and his very power rests in the will of his office which is sufficiently potent.

Mr. Arnold went on to show that the case over had an opportunity to recant his testimony if he wished to do so. He said the solicitor doesn't have to put it in the grand jury's hands to get a perjury. All he has to do is to sit still and his very power rests in the will of his office which is sufficiently potent.

He dwelt at length on the state's theory that Mary Phagan was murdered on the second floor and took up each bit of evidence that appeared in the second floor theory, showing its lack of strength and logic in the face of evidence that was produced by the defense in rebuttal.

SIX THROWN FROM CAR WHEN IT TURNS TURTLE

Four Women, Narrowly Escape Death When Banker Sterne's Automobile Is Smashed.

Americus, Ga., May 6.—(Special)—An automobile party coming to Americus from Albany this afternoon had a serious accident at Wells' mill, ten miles below Americus, when the car, driven at high speed, was overturned while rounding a sharp curve.

Mr. and Mrs. Richardson of Greenville, S. C. Mr. and Mrs. Julian Clark and Mrs. Clark, their aged mother and Mrs. Edward Sterne, all of Albany were thrown from the car, which turned over twice before it was smashed against a tree. Mrs. Richardson sustained a broken arm during the other members of the party escaped with lesser though painful injuries.

The car a new six-cylinder model, owned by Banker Edward Sterne of Albany, was badly wrecked. Physicians from Americus went hurriedly to the scene and rendered assistance, the party returning later to Albany in the car of Banker A. D. Williams of former Climax fame, now a resident of Smithville.

Member of Lupo's Gang Dies at Federal Pen Of Heart Failure

After serving a little more than four years of a fourteen-year term Vincent Gigio, a member of the famous Lupo gang, died of heart failure at the federal prison from heart failure Tuesday evening. He was thirty-four years old. He was sent to the Atlanta prison from New York, his home state, but further than that little is known of him.

Gigio apparently in good health, sat down to the supper table Tuesday night and started a hearty meal, when without warning he slipped from his seat to the floor, and was dead when his companions reached him.

SICKLES TO BE BURIED IN ARLINGTON CEMETERY

New York, May 6.—The body of Major General Daniel E. Sickles will be buried in the National cemetery at Arlington Va. amid the graves of many of his old comrades of the Third Army corps. The family reached this decision upon the receipt of a telegram from Secretary of War Garrison saying that a plot had been selected and a military escort firing squad and chaplain assigned to meet the train bearing the General's body. Funeral services will be held Friday morning in St. Patrick's Cathedral here. It is probable the body will reach Arlington Saturday.

More Sanity Needed

"And the streets of the city shall be full of boys and girls playing in the streets thereof."
---Zech. 8:5

Every near beer saloon so-called in Atlanta is violating the law. Yet city officials under oath to support the law, the majority of them officers in the Church, members of Council, vote to license them.

And not content with putting this stigma upon Atlanta, the capital of Georgia, Monday, this ordinance was passed:

"Be it ordained by the Mayor and General Council, that the provisions of Section 1566 of the City Code of 1910 regulating the opening and closing hours of all billiard, pool rooms and near beer places in the City of Atlanta shall not apply from May 11th to May 15th, 1914, and that the opening and closing hours during said period shall be six o'clock A. M. and one o'clock A. M."

Those voting for this ordinance were ALDERMEN ARMISTEAD, MADDOX and NUTTING, and COUNCILMEN WARDLAW, ALVERSON, KNIGHT, ASHLEY, LEE, BOYNTON, WOOD, COLCORD, DALLAS, HUMPHREY, REYNOLDS, WHITE, MASON.

ALDERMAN THOMSON, in the chair, could not vote, though he was opposed to the ordinance.

Those who voted against it were ALDERMEN SEAWRIGHT, KELLEY, OWENS AND RAGSDALE, COUNCILMEN SHEPARD, HALL, SISSON, FARLINGER AND SMITH.

For this indefensible wrong to our city, the Shrine Convention is given as an excuse. This insult should not be offered to the guests of our city. Shriners, as a whole, would not knowingly permit violators of the law who fatten upon the sorrow and degradation of others to use the name of this great Order in a vain and futile attempt to prove to the world that Atlanta is a city without regard for the sacredness of law. The Churches protest.

CHRISTIANS WHO LOVE ATLANTA AND RESPECT THE GREAT BODY OF MASONRY UPON WHICH RESTS THE SHRINE APPEAL TO OUR MAYOR AND GENERAL COUNCIL AND TO THE POLICE AUTHORITIES OF ATLANTA TO UNDO THIS WRONG BEFORE IT IS TOO LATE.

We might be silent for the time were beer the harmless drink which some falsely claim it to be. But Go—Examine those countries where beer is king—

"Autopsies show that every sixteenth male in Munich dies of Munich Beer heart—

"Professor Dr. Kraepelin of the University of Munich says: 'That not only is alcohol the cause of nearly a third of all mental disturbances in Munich, but that in a whole series of other sickness—Paralysis, Epilepsy, Arterio-sclerosis,—it is the decisive factor and one of the most important causes of degeneracy—

"Of these alcohol sick of one half year, 55 had been previously punished by the courts, 22 one to ten times, 9 eleven to twenty times, 5 twenty-one to thirty times, and 1 each thirty-nine, forty-five, fifty-four and ninety-nine times. The whole group of alcoholics had served not less than 6,651 days in arrest, 31,956 in prison, 261 months in work houses, 20 years and 10 months in houses of correction. This represents the clinical experience of but six months' in the City of Munich, whose beer is known throughout the world. Remembering this will cause you to cease prating of beer as a temperance drink.

Collier's Weekly says of the crazy attempt upon the life of Mayor Mitchel of New York: "The would-be assassin, in telling of his actions on the day of the shooting, said, 'Then today I came down town about ten o'clock. I took a glass of whisky and then a glass of beer on Park Row.'"

One who knows from personal investigation says: "Recently at Eckeren, near Antwerp, a band of drunkards from a tavern, raided a workman's house, dragged his wife out of bed, and clubbed the husband to death.

"These brutes do not drink hard liquor but alcohol in the form of beer. This drink is the chief stimulus to crime in the country in Belgium, as distilled drinks are in the city. There has been in the country at large a considerable diminution in the consumption of distilled liquors, BUT THAT OF BEER CONSTANTLY INCREASES AND WITH IT CRIMINALITY RISES."

The Recorder's Court of the City of Atlanta contains records of men who have again and again been before him as Kraepelin describes that wearying Munich procession of beer-soaked victims.

Georgia has recognized the evil. To put an end to it she has passed laws forbidding the sale of whisky, wine or beer, intoxicating liquors regardless of their form.

We appeal to those in public office to enforce these laws, not to deprive any man of pleasure, but to put an effectual stop to this source of crime and disease, suffering and sorrow.

Atlanta stands for law, order and decency, upon which depend the happiness and safety of all.

Her people will not stand idly by and watch her good name sacrificed to the liquor trade.

EXECUTIVE COMMITTEE OF THE MEN AND RELIGION FORWARD MOVEMENT
N. B.—We deeply regret an unintentional wrong. The slip, showing the roll call upon the adoption of the ordinance referred to above, given us at the city clerk's office, showed Alderman Thompson favoring the ordinance. This was a mistake. Alderman Thomson was in the chair and did not vote. We gladly acknowledge and correct the error.

AT THE MERCY OF "SNIPERS."

Tuesday's bond election demonstrates that municipal improvements and progress in Georgia, under the present law, are at the mercy of a handful of "snipers," laggards and reactionaries, whose negative efforts can neutralize the overwhelmingly progressive sentiment of any community. It also indicates that unless the law regulating bond elections is changed, municipal credit in Georgia is placed practically in cold storage.

On Tuesday 7,809 citizens went to the polls and voted in favor of putting Atlanta upon a modern, up-to-date basis with reference to the extension of municipal hospital facilities.

Only 1,026 voted against the proposed bond issue, just about the percentage of sloths and reactionaries that, in every community, can be depended upon to shirk and let others do the work, or defeat the work of others by indolence and empty criticism.

Under an ancient Georgia law, no bond issue can be authorized save by a two-thirds affirmative vote of the registered voters of the community affected.

In the election of Tuesday, 10,667 votes, two-thirds of the registered voters, would have been required to authorize the bonds. It will be observed that two-thirds of the registered vote is more than the combined bond vote—for and against. The issue would have been defeated if not a man voting had balloted against it.

Under these conditions, Georgia is virtually helpless in the matter of the use of municipal credit for urgent improvements in municipal facilities and to meet the natural demands of growth.

Every municipality is at the mercy of a corporal's guard of "snipers," reactionaries and "tight wads" who are never heard from when the call is to efforts for progress, but who get everlastingly busy to block the wheels of progress—content to let others of a more public spirit bear their share of the community burden.

The travesty of this situation is illustrated in the recent election when approximately 8,000 voters, urged by every instinct of civic enterprise, above all, by the impulse to safeguard the public health, go to the polls and find themselves defeated—by a handful of "snipers," and because some voters are out of the city, because some happen to be sick, because some have died since registering. So it is that 8,000 live-wire, consecrated citizens of Atlanta work, agitate and vote in vain for an obvious public improvement.

the credit of every community, in the face of urgent need, in the face even of need to combat life and death conditions, is practically locked up. An obstinate or indolent or indifferent sprinkling of the tax-payers can defeat any bond issue, simply by "sniping" at the ballot or staying at home.

This condition cannot, of course, continue once the intelligent sentiment of the state senses its essential danger and injustice. It should be among the first tasks of the forthcoming legislature to submit the proposed amendment permitting municipalities to authorize bond issues on a basis of two-thirds of the votes CAST rather than two-thirds of the votes REGISTERED.

Even the honest conservative cannot claim that such a change in the law will encourage an abuse of the bonding privilege. The greatest barrier to any form of abuse or extravagance is that in these days of publicity not even a sprinkling of voters would approve an unmeritorious or even dubious bond issue, much less two-thirds of the votes cast in an election. Another ironclad safeguard is the constitutional stipulation that no Georgia municipality can bond itself in excess of 7 per cent of its assessed real estate valuations. Considering that assessments in Georgia are substantially below market value, the strength of this safeguard is seen at once.

In the face of this rock ribbed protection, the folly and injustice of continuing the present system is manifest. We simply set ourselves against the usage in every other civilized country. We deaden public spirit and initiative, put a premium upon the drones, and penalize the progressive element in communities. The quicker this paradox is ended, the better.

A TUESDAY HALF-HOLIDAY

The great day parade of the Shriners will take place next Tuesday morning, forming at 7:30 o'clock and moving down Peachtree through the heart of the city. The head of the pageant will leave the Georgian Terrace and the Ponce de Leon Apartments at 8:30 o'clock.

It is estimated that the procession will require five hours to pass a given point. Naturally during that morning business Atlanta and all Atlanta will give itself over to the Shriners, lock, stock and barrel.

The parade will be perhaps the most unique of its kind that has ever taken place in the United States.

Sixty bands will be interspersed throughout the procession. The Shriners will be in the full regalia of the temples in every state in the country, as well as in Canada and Mexico.

In sheer gorgeousness and display of color and wealth of odd device the spectacle will be the most wonderful ever staged in the nation.

Under these conditions, with the streets given over to our guests and the sidewalks congested with onlooking Atlantans, no business will be done between the hours of 8 and 1 o'clock on Tuesday. The people will be out looking instead of buying, and if they wanted to get to the stores their way would be hopelessly impeded.

With anticipatory knowledge of this situation a movement has been started and approved by all the department stores in the retail district, to close between the hours of 8 and 1 on Tuesday. Other business houses have promptly joined the original signers and undoubtedly the day will be generally observed as a business half-holiday.

No business house has anything to lose by closing, since in the nature of things it will be unable to pursue active operations. And all should welcome the opportunity to give to their employees an opportunity to witness the great parade.

So close up from 8 to 1 o'clock Tuesday? Give your employees this chance and go out yourselves to enjoy the moraine!

AN EXCELLENT SUGGESTION.

The use of the municipal auditorium in stead of an opera house for the commencement ceremonies of the Girls' and Boys' High schools is the excellent and sensible suggestion made in a communication by D. Y. Johnson, published today.

Mr. Johnson is correct in stating that in previous years the opera houses used for these purposes have been packed to suffocation, and that even then it was necessary to turn away many who had the natural desire to see children or friends complete their educational course.

The use of the Auditorium is a simple expedient that will solve this question. The building affords ample accommodation for all those that may wish to attend, imposing no discomfort and inconvenience and being easily accessible from all parts of the city.

For "Spring Fever."
 "In the old days," says The Rochester Sentinel "the city man, feeling the lassness of 'spring fever' coming over him, bought from the corner drug store a 40-cent package of Old Doc Somebody's spring tonic. But things are changing. Men have learned that the best spring tonics are the gifts of a beneficent nature. A full breath of fresh air, a brisk walk along a grass grown road, a plunge into the cool waters of the old swimming hole—if the water is pure and cold—the morning shower, if in the city, fresh green food or the pursuit of a bounding golf ball over a spring course—these are real invigorators, true tonics."

DISTRACTING NOISES

THE UNKNOWN DEAD.
 By Virginia Frazer Boyle.
 (Mrs. Boyle is Poet Laureate United Confederate Veterans' Association, and this poem was written for Memorial Day, 1914, by the United Confederate Veterans Association, Jacksonville, Fla.)
 We strung our harps with peacens for the brave
 And hung our chaplets where the field was red
 We blazoned high each dear remembered name
 But stand in silence by the unknown dead,
 Hover them, spirit of tenderness,
 Cover them, angel of flowers,
 Fame only knows what to call them—
 Love only knows they are ours.
 They fought for us, and yet we cannot call
 Their glory-roll upon famous altar stairs
 They died for us and yet we cannot give
 To each by name, remembrance in our prayers
 Hover them, spirit of tenderness,
 Cover them, angel of flowers,
 Fame only knows what to call them—
 Love only knows they are ours.
 Some sater wept them when they went
 To find a stillness through the falling
 To hear the echo of a soldier's song
 Hover them, spirit of tenderness,
 Cover them, angel of flowers,
 Fame only knows what to call them—
 Love only knows they are ours.
 Oh! gentle mother of the quick and dead—
 Oh! Southland hold these closer dearer yet
 The unknown dead who wrote in living flame
 A name that glory never can forget!
 Hover them, spirit of tenderness,
 Cover them, angel of flowers,
 Fame only knows what to call them—
 Love only knows they are ours.

SWIMMING.

Swimming is the art of making a noise like a fish in the water. Half the lives which are saved from the hungry deep are saved because of a knowledge of swimming while half of the lives which are lost are lost because of that same knowledge. When a man is in the water he is surrounded by cold water by kicking his legs like a frog he becomes over-confident and some day when he is greatly in need of land he is unable to discover any except that directly beneath him.

Thousands of happy men and boys go swimming industriously every year and hundreds of them are fished out of the water later by their sorrowing relatives. They did not go swimming in order to save their lives but because they knew how to swim. Swimming is just about as dangerous a form of safety as aviation is, because it is indistinguishable from death.

The man who goes straight down when dumped into the water may perish some day in the stormy ocean but he has one great source of safety—he will never drown while in swimming.

 I Wonder Why it is that in so large a number of cases when a Salesman faces his prospective Client, that client claims up freezes up or else explodes, "forgetting" that he himself depends almost wholly for the success of his own business upon the way his Salesman are received, granted interviews and given orders. I Wonder Why that man forgets the position of his own Salesman.

Auditorium Suggested For Commencements of Atlanta's High Schools

Editor, Constitution. The approach of commencement season for Atlanta's Boys' and Girls' High schools suggests to me the wisdom of the board of education having these final exercises take place at the municipal Auditorium instead of a cramped opera house.

Every Atlanta parent, with children of the graduating age, has had experience of the inconvenience and discomfort growing out of inadequate seating capacity at the commencement exercises of the two institutions.

Each father and mother and a host of friends of the girl and boy graduates naturally wish to attend these ceremonies.

On many such occasions the crowd has been such that many entitled to be present were turned away, despite the expedient of issuing tickets.

There is no necessity for this congestion, with its consequent penalties.

There is the municipal Auditorium, big enough to accommodate every man woman and child who wants to attend commencement.

Its acoustic properties are excellent, and it is centrally located.

Why not use it for the purposes indicated?

THOMAS THOMASVILLE FRIENDS URGING HIM TO ANNOUNCE
 Thomasville, Ga. May 6—(Special)—If he is influenced by the urgings of his many friends and supporters here there is no doubt that Judge W. J. Thomas of the southern circuit will be in the race for governor of Georgia this year, though he made no positive statement in regard to the matter while here holding court the present week.
 That he is still considering the matter however, there is no doubt and the probabilities are pretty strong that he will be in the running.

As first collector and then judge of this circuit Judge Thomas has been often in Thomaville and his record in both offices won him numerous friends and admirers both in the town and county, who will gladly support him should he decide to enter the race.

 Sheriff J. A. Beard tax collector P. E. Whittles receiver J. M. Sommerkamp treasurer John S. Jenkins surveyor Josiah Flournoy coroner J. S. Terry. The vote was hardly as heavy as had been anticipated. The incumbents were renominated by majorities ranging from 200 to 700.

In the primary for county officers in Chattahoochee county this week Robert Wray was nominated for sheriff and R. S. Cook for tax collector. There was no opposition to the candidates for other offices.

PROFESSOR RANSOM MAY MAKE RACE FOR THE STATE SENATE
 LaGrange, Ga. May 6—(Special)—Although Chattooga's primary election has already been held the political game is still busy and things are beginning to pick up again. Friends of Professor Ransom are endeavoring to present him in Chattooga in the lower house at LaGrange in order to make the race for state senator. Professor Ransom has not been quoted by the press upon his race but it is believed he will enter the race for state senator. Should Ransom do this there is speculation as to who would offer to represent the county in the lower house. The name of J. M. W. Wompe of Wrens has been suggested for that place should Ransom offer for the higher office.

 Governor Slaton delivered an address to the Masons in Rome.

State Superintendent of Education M. L. Britton was in the city of Rome on Wednesday and was in the city on Wednesday. He delivered one or two addresses.

LITTLE TALK OF POLITICS HEARD IN FLOYD, SAY VISITORS TO CAPITOL

According to their comment there is no great amount of talking of state politics in Rome yet although there is some interest. The county elections however, are just over and it is expected that the political and social situations will begin to warm up.

Oster on Vaccination.

(From The Medical Journal.)
 Much has been written in the medical and lay press of Dr. Oster's views on vaccination. The views of the medical profession have been made to carry the idea that he himself doubted its efficacy. We have never been able to seriously entertain such a possibility but not having the address from which the idea by its origin we were unable to determine whether or not the pieces of news were right. One of our exchanges has lately published Dr. Oster's statement of his views on the subject and the statement is so definite that I do not see how any one who has gone through epidemics as I have or who is familiar with the history of the subject and who has done a number of experiments in vaccination in doubt its value. Some months ago I was invited by the editor of the Journal of the Anti-Vaccination League for a serious discussion of the subject. I would like to issue a Mr. Oster's like bulletin. I am ten years ago a member of the Anti-Vaccination League. I make this promise—neither I nor any one who they catch the disease hit to look after them at my expense. I will try to arrange the funerals with all the pomp and ceremony of an anti-vaccination demonstration.

WANDERBILT CASE

UP TO METHODISTS

Committee of 15 to Consider Relations of Church and University—Court Decision Criticised by Bishops.

Oklahoma City, Okla., May 6.—To a select committee of fifteen will be given the task of working out for the church the situation caused by the recent decision of the supreme court of Tennessee removing Vanderbilt university from the direct jurisdiction of the Methodist Episcopal church, South, after the college of bishops, in an address read by Bishop W. Candler, of Atlanta, Ga., expressed the opinion that, in view of the decision of the court "leaving to the church only a mere shadow of control over the university."

The committee will probably be named by Bishop A. W. Wilson, of Baltimore, senior bishop, tomorrow. The resolution providing for the appointment of the committee was introduced by Rev. J. H. Watkins, of Kansas City.

Delegates from thirty-seven annual conferences and over a thousand visitors attended the first sessions of the general conference, which will be in session here tomorrow.

Bishop Wilson presided today. Each of the other twelve bishops will preside during the conference.

Tonight addresses of welcome were responded to by Bishop H. H. Harts, of Kansas City.

The roll call by the Rev. A. F. Watkins, secretary of the day, culminated in the appointment of the conference committee and the reading of the bishops' address convening the conference.

The roll call showed more than 250 out of 333 accredited delegates in attendance.

Watkins for Secretary. After the devotional services, led by Bishop Wilson, the roll call was taken by Rev. A. F. Watkins, secretary of the day.

F. S. Parker and J. S. Burrow, journal of the conference, were elected. F. S. Parker, of Chicago, Ill., was elected secretary of the conference.

The rules of order of the last conference, which fixed the hours of meeting, were adopted.

The address of the bishops, containing as it did, a review of the work of the past four years and recommendations in regard to the future of the church, was the center of interest.

While the address reviewed the reorganization of the department of foreign missions, the order of the day, conference in Asheville, N. C., in 1910; reorganization of the department of education with the Methodist Episcopal church and discussed the question of the rights of the church in the university.
