GERMAN ASSAULTS DEFEATED IN WEST BY ALLIED FORCES

Paris, November 29.—This official communication was issued at 11 o'clock tonight: "Quiet prevails along the whole front except in the Argonne region, where the German attacks have not been more successful than preceding attacks. "Yesterday the enemy's cannonading was more active but carried on chiefly with 77 millimeter pieces, his heavy artillery has made itself felt very little. Under these conditions the artillery struggle has turned particularly to our advantage. "In Belgium our infantry captured several supporting positions to the north and to the south of Ypres. North of Arras one of the enemy's attacks undertaken by nearly three regiments, has definitely failed after several counter attacks carried out in all directions. "Between the Somme and Chaumes we have made perceptible progress. In the neighborhood of the village of Ezy our troops came into immediate contact with the wire entanglements of the defense. "In the region of the Aisne, between Vailly and Berry-au-Bac, a group of machine guns and emplacement for 30-centimeter pieces were destroyed by

our shells, one of which caused an explosion in one of the enemy's batteries. "In the Vosges three counter attacks by the Germans in the Ban-de-Sapt region were repulsed."

NO CHANGE NOTED IN EAST OR WEST, BERLIN REPORTS

Berlin, November 29.—(By Wireless to London).—This announcement was given out today at army headquarters: "There is nothing to report from the west. Yesterday attacks of the enemy against Ypres and west of Lens failed. "In the east the situation on the front of the Vistula remains unchanged. Russian advances in the neighborhood of Lodz were checked, and were followed by successful attacks by our troops. "There is nothing of importance to note in regard to southern Poland. "The official press bureau announced today that it had received information from Sofia that the Serbian cabinet had been overthrown. "Other information given out by the bureau today follows: "It is denied officially that Dinkov had been recaptured by the allies. "The troops of the dual monarchy have again evacuated Czestowice. "The German minister of the interior has ordered isolation of Russian prisoners because cholera is reported prevalent in the Russian army. "Views from Vienna regarding the campaign against Serbia is proceeding successfully. "It is reported from Constantinople that the larger part of northern Persia has been aroused to hostile action against Russia, and that the Russian movement against Great Britain is increasing. "The British ambassador and Prince Osman, relatives of the Khedive of Egypt, have been banished by the British authorities. "The news of engaging in an anti-British conspiracy. RUSSIANS INFLICT ENORMOUS LOSSES ON THE INVADERS

One of the German Armies Cut Into Three Parts. Fighting Continues, the Germans Trying to Cut Their Way to Safety.

Petrograd, November 29.—The following official communication was issued tonight: "Between the Vistula and the Warta the enemy continues to maintain the position fortified by him at Strykow, Zielona, Szadok and Zdzinska Wola (Russian Poland). The fighting has been very stubborn in the regions of these points. Our troops captured at several hundred prisoners. "Our troops have taken part in an engagement along the front comprising Glogowo, Bielawy and Sobota. Along the left bank of the Vistula the Germans carried out a counter-attack. "According to prisoners, the German losses were enormous, many battalions losing all of their officers and the total number being reduced from 60 to 80 men. "The fighting is not yet finished. The battle on the whole front is developing favorably for us. "The enemy, however, continues to offer stubborn resistance. It is impossible, therefore, to consider the operations ended and it is necessary to await the revelation of its final results in the firm assurance that the Russian troops are fully conscious of the necessity for successfully concluding their heroic efforts to finally shatter the enemy's resistance. "On the Czestochowa-Cracow front the battle has been an important engagement. The Austrian army, which defended the approaches east of Cracow on Schreniava and Raba, was defeated November 28, being driven back to the rear of the Pustkiewa. We have occupied Czestowice. "In the region of the Masurian lakes (East Prussia) and the Angerap river, our troops have thrown back the Russian army, which has retreated to their fortified positions. "German Army Cut in Three Parts. "A review of military operations in the last week at the rear of Lodz, as given out semi-officially, shows that the Russian army under General Maeklenzen has been cut in three parts. "The right wing still is struggling fifteen miles west southwest of Lodz to prevent the capture of the city. The center is ten miles north northeast by north of Lodz and still is engaged in a desperate effort to cut its way to the rear. The left wing, which has retreated to the strongest position on the Vistula. This army, the review asserts, is moving back before Russian onslaughts, but still is stubbornly disputing the Russian advance. "In this quarter the Russian advance from Gombin, fifty miles north of Lodz, is being retarded. The three German centers are at least twenty miles apart, and that the middle one is being cut off from its rear, and being completely isolated from the others. "It is said the main bodies of the German wing are maintaining a thin line of communication to the rear. "The Russian experts declare that the operations will not result in the capture of Lodz, but that the German campaign against Warsaw has been ended. "The alleged failure of the German plan is attributed to what is termed a Russian attempt to cut the Russian center line. "Lodz is said to have been under attack more than once, but the only damage sustained was the burning of the electric power plant and the suburban railway station. This is regarded as extraordinary in view of the desperate conflicts that daily have been raging on three sides. "RUSSIANS WIN OVER AUSTRIANS. "Lemberg, Galicia, November 29.—(Via Petrograd and London).—The Russians appear to have accomplished their aim in a series of operations through the Carpathians southwest of Lemberg. Fighting in these mountainous regions has been most ferocious, being carried on under extraordinary difficulties. MARSHAL'S BATON TO VON HINDENBURG

Kaiser Promotes General Who Is Fighting the Russians, Although He Has Not Yet Won Victory.

Berlin, November 28.—(Via The Hague to London, November 29.)—The first field marshal's baton of the Kaiser was awarded to General von Hindenburg for his series of victories in defending East Prussia against the flood of the Russian invasion. His chief of staff and collaborator, General Ludendorff, has been promoted to a lieutenant generalship for his share in the successes.

The award to Von Hindenburg comes with the great eastern battle still undecided, as a reward for preliminary victories at Wloclawek and Lodz, which, it is said, have thrown the Russian army on the defensive with a loss of 80,000 prisoners. It is taken here to indicate that the emperor is confident Von Hindenburg will defeat the Russian army.

The honor of receiving the grand cross of the Iron Cross, the emblem given a field marshal, is the highest military distinction a German commander can receive, and was won by Von Hindenburg in a recent campaign against the first von Moltke, Crown Prince Friedrich and the Prussian "Red Baron" Friedrich Karl, on the field of battle. The elevation of Von Hindenburg will be generally acclaimed in Germany, where he enjoys great popularity.

Von Hindenburg lauded.
The newspapers comment appreciatively on the honor conferred on Von Hindenburg. The Tagblatt says: "It is fitting that the first man to receive the rank since the death of Field Marshal Count von Schlieffen, the great teacher of the Prussian art of war, should be Von Hindenburg who repeatedly has demonstrated the teachings of the great master, namely, that German leaders must learn how to inflict a decisive defeat on their enemy, and good in Poland what he promised in East Prussia and his retirement to the frontier and by his new blow at the slowly following Russian he has resumed master of the situation."

"The German nation has confidence that Field Marshal von Hindenburg will do all within the limits of human power to defend the eastern borders of the empire from its most dangerous enemy."

The Tagblatt gives praise to General von Hindenburg for his victory at Wloclawek, but says he is not apt to add to his present laurels the title of the most popular man in Europe or receive an honorary degree at Oxford University.

The whole nation rejoices at the appointment of its hero, the Lohli Anzinger in the morning that the Prussian army will be no cause for apprehension so long as it is led by the master of strategy, on the watch to dare and to accomplish new victories.

GERMAN ASSAULTS BEGIN TO WEAKEN

Continued From Page One.

They are defending ground there they have won. He declares much credit should be granted to the Austrians who withdrew from western Galicia to assist the Russian advance, cheerfully sacrificing their lives to those of the combined campaign.

The battle really began October 11, when Major General Gough, of the Second British Cavalry Brigade, first engaged with German cavalry in the woods toward Hazebrouck, clearing the way for two army divisions. The success rapidly in the northeasterly direction. For several days the progress of the British was only slightly hindered, except at Basses, a high position which stubbornly resisted general French says: "The second corps under General Smith-Dorrien, was opposed by overpowering forces, but nevertheless advanced until October 18, when the enemy's opposition forced a reinforcement."

Faced Stabbing Situation.
On October 19 Sir Henry Rawlinson, with two divisions of English cavalry and two divisions of French infantry, was stationed east of Ypres under orders to keep possession of all the ground held by the allies until the first army corps could reach Ypres. General Rawlinson was opposed by superior forces, but he held his ground until a much larger territory than their size justified. General French says he faced a similar situation at Ypres, where he was ordered to hold the line, and there was imperative need for a strengthened line.

However, General French decided to send the first corps north of Ypres to attack the German army, which the shattered Belgian army and the worn French troops had tried in vain to stop.

Sir Douglas Haig, with the first army corps, was sent October 19 to capture Bruges and drive the enemy back toward Ghent, possible. Meanwhile the Belgians entrenched themselves along the Ypres canal.

Because of the overwhelming numbers of the Germans opposing them, French says he enjoined a defensive attitude on the first corps, and the south of Ypres. Bad roads and overwhelming opposition finally made it impossible for the first corps to move to Bruges.

The fighting gradually became bayonet charges. General French says that October 20 brought forth the hardest attack made on the first corps, at Ypres, and in the checking of the "orchestrated" regiment displayed great gallantry. General French says he was through a rally of the Worcester-shires was fraught with momentous consequences.

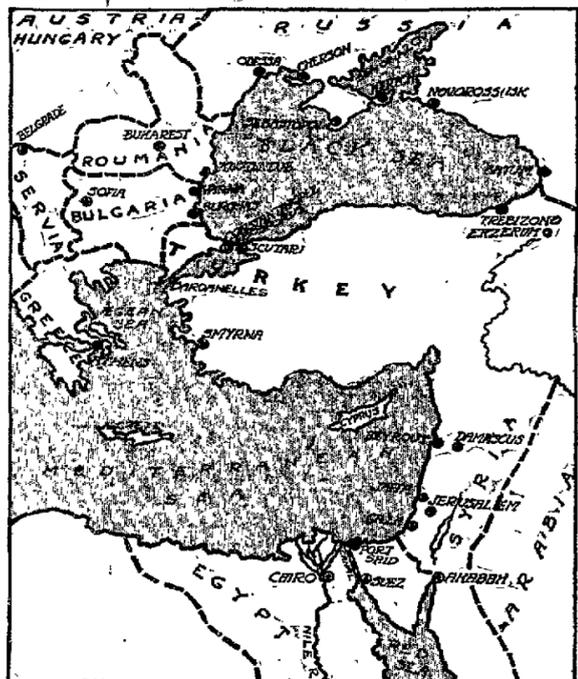

French Lauds Indian Troops.
Of the Indian troops Field Marshal French says at this point: "Since their arrival in this country and their occupation of the line allotted to them I have been much impressed by the initiative and resources displayed by the Indian troops. Some of the uses they have employed to deceive the enemy have been attended with the best results, and have doubtless kept the superior forces in front of them at bay."

General French goes on to say that the whole line continued to be heavily pressed by Bavarian and one German corps, in addition to other troops, he says, were directed against this northern front.

About November 10, after several units of these troops had been completely shattered in little attacks, a division of the Prussian guards was brought up with great speed and re-energized. Doucet upon a dead officer's report says, proved that the guard received the emperor's special command to break through. They took the leading part in the vigorous attacks of the 11th and 12th, but like their comrades were repulsed with enormous casualties.

Tribute to British Officers.
General French pays tribute to Sir Douglas Haig and his divisional and brigade commanders. "Their deeds during these days of stress and trial," he says, "will stand as the most brilliant chapters which will be found in the military history of our time."

NEW NAVAL BATTLES EXPECTED IN THE BLACK AND AEGEAN SEAS

This map shows the Black sea and the Aegean, now the scene of conflicts between the Russian and Turkish navy and of a recent campaign with the United States, whose battleship Tennessee was forced to leave the waters of the gulf of Smyrna.

The battle between the German cruisers in the Turkish service, the Breslau and Goeben, and the Russian fleet which has been sailing from the south coast of the Black sea, near the Kesor or Bherosene light.

STRIKE COMMISSION NAMED BY PRESIDENT

Seth Low, C. W. Mills and Patrick Gilday Appointed to Adjust Colorado Trouble.

Washington, November 29.—President Wilson tonight announced the appointment of Seth Low, of New York; Charles W. Mills, of Philadelphia; and Patrick Gilday, of Clearfield, Pa., as a commission through which to settle the Colorado coal operators' and their striking employees may be settled.

The commission, officials explained, was not to deal with the existing differences which have caused rioting and bloodshed in Colorado. Hywel Davies and W. R. Fairley, the conciliators who have been attempting for several months to settle the strike, will continue in their efforts to have the operators and miners agree.

In a statement the president expressed "the very earnest and sincere hope that the parties may see it not merely to their own best interests, but also a duty which they owe to the communities they serve and to the nation itself, to make use of this instrumentality of peace to settle the strike of the kind which has threatened the order of prosperity of the great state of Colorado a thing of the past."

Appointment of such a commission was contemplated in the plan for temporary settlement of the strike proposed by the president several months ago and accepted by the miners, but rejected by the operators.

The president announced tonight that the commission will place themselves in the Colorado coal fields, and the operators of the mines of Colorado in case controversy between the operators and miners develop circumstances which would render mediation the obvious way of peace.

Mr. Wilson added that merely to withdraw the federal troops and let the miners and the operators of the mines of Colorado in case controversy between the operators and miners develop circumstances which would render mediation the obvious way of peace.

Both Men Experienced.
Philadelphia, November 29.—Charles W. Mills, of Philadelphia, appointed Colorado coal strike commission member, both are experienced in the settlement of labor troubles. Mr. Mills is a prominent coal operator in the city.

ANOTHER RICHMOND BOBS UP IN MEXICO

Gen. Pablo Gonzalez Quits Carranza and Proclaims Himself Provisional President—Gonzalez Has 8,000 Troops.

Washington, November 29.—State department advices today reported that General Pablo Gonzalez, now at Exhaca with 8,000 troops, had proclaimed himself provisional president of Mexico. He hitherto had been regarded as loyal to Carranza.

Gonzalez was one of the foremost leaders of the constitutionalist army in the campaign against Huerta. After the Aguas Calientes convention, however, he disappeared southward with his army and his whereabouts since had been a mystery.

The state department reports came from Aguas Calientes. They gave no details. It is not believed here that Gonzalez, with his comparatively small force, will be able to interfere with the forces of Provisional President Gutierrez and General Villa for a joint triumphal entry into Mexico City.

MANY AMERICANS ARE STRANDED.
Vera Cruz, November 29.—Many Americans bound for the interior of Mexico now are becoming stranded at Vera Cruz. There is no rail communication with Mexico City and there is not likely to be for some weeks.

Every ship arriving here brings a few Americans whose destination is Mexico City. Some are not well supplied with funds and Consul Canada fears they may become charges.

General Carranza is expected to return from the interior tomorrow or today. So far as is known the Villa forces have not yet attacked Tampico. Good order prevails here.

The United States collier Nerous has received orders to sail for Guantanamo. She then will proceed for the Philippines.

Cable communication with the capital has been interrupted since early tonight.

CARRANZA REPUDIATES FIAT MONEY ISSUES.
El Paso, Texas, November 29.—A message received today by this city repudiated all issues of fiat money made by the Villa government in Chihuahua. This further complicates the already involved matter of Mexican currency.

A message from Vera Cruz tonight stated that General Manuel M. Diguera had repudiated the Villa troops under General Angeles attacking Guadalupe, the west coast metropolis. Diguera said he captured twenty cannon. Villa agents here for several days have claimed Angeles took Guadalupe with little resistance.

TURKS ARE DEFEATED WITH GREAT LOSSES.
Russians Claim Success in the Fighting in the Caucasus.
London, November 29.—Reuter's Petrograd correspondent received from Russian army headquarters in the Caucasus: "Turks defeated in the recent fighting suffered enormous losses. The twenty-eighth and twenty-ninth divisions lost half their effectiveness and the eighty-eighth regiment almost was destroyed."

MODERN DANCE SCORED BY DR. DUNBAR OGDEN

Dancing Not Wrong, But Present Conditions Are Cause of Criticism.

Dr. Dunbar H. Ogden, of the Central Presbyterian church, Sunday evening directed some pointed statements against the modern conditions of the dance under the subject, "The Right and Wrong of Dancing."

In censuring the present nature and tendency of the dance, he said in part as follows: "The church has always had an attitude of warning and condemnation against the theater, card playing and dancing. This is not because the church does not sanction pleasure, but because these particular pleasures have constantly possessed an evil tendency."

"There are two positions to take, either to withdraw and let the dances be evil or good as they may develop, or to place a restraining, controlling touch upon their trend. I take it that we would demand that the streams of amusement be purified when they are foul."

"In the quotation from Job, 'They send forth their little ones like a flock and their children dance,' the Hebrew word means to 'skip.' Later it meant to 'dance' in the marpole dance. The word then assumed the significance of to 'go around.' This developed into the New Testament meaning of to 'girdle' the loins. Thus we see that the first meaning of the word dance covered an expression of the genuine joy and the Virginia reel as for a coil to run. The dance has become a matter of pleasure, but because of its nature it is a form of amusement it is good for people to be amused."

"But let us look at the development of the dance. It commenced with a form of dancing by means of which the feet were the vogue. Now the note of the hour is the turkey trot.

"There is something questionable about the argument advanced that it is possible to dance the modern dances modestly. Many good women, whom I know to be of unimpaired character, admit to this fallacious reasoning and allow their sons and daughters, who are only out for a bit of joyous fun, to be instructed by French dancing masters whose hearts are rotten with the rot of the dance. I give you the example of Italy. True, some of the rotteness has been concealed or withdrawn by these masters, but the rotteness is there. Their patronage is gone if their places become institutions of shame. Yet, and nevertheless, the latest Parisian dances are held."

"I believe in the sweet reasonableness of truth. I do not mean that the whole institution of dancing is wrong, but the present conditions are wrong, and wrong I would press. I would element of the poetry of motion and the graceful movement of the body to the rhythm of music. I would abolish the inhuman lifting of the feet and reduce the contact of the bodies of the dancers to a minimum. I would preserve the square dance of our fathers and abolish the round dance."

CLUB WOMEN URGE NECESSITY OF BONDS.
Continued From Page One.

thing which will aid in improving conditions in the schools. Mrs. Wilson says that she was disappointed because she would not already taken a determined stand in the present campaign, and expressed a strong belief that within a short time every organization in the city will be at work.

The present condition of Atlanta's school system is being discussed by Mrs. Wilson in the Constitution Sunday. Why, Atlanta is a country village in regard to school facilities. It is just up to the women to do whatever they can; and they can do a whole lot by supporting the school system to the needs of the schools."

Mrs. Bolling Jones, a member of the executive board of the Georgia Federation, says that she is not only in favor of bonds to build more schools to relieve the congestion which will result from the opening of the schools in September, but she also favors a movement among the women of Atlanta to make sure that the improvements will be made immediately.

WOMEN TO PUSH MOVEMENT

It is understood that just as soon as the general council of Atlanta authorizes the holding of an election to give the people an opportunity to vote on the bond issue question, a majority of the women's organizations of the city are going to unite in a campaign for the purpose of getting every voter in the city to go to the polls and cast his vote.

There is also a movement on foot now to hold a great mass meeting in the Auditorium hall, to be followed by a series of other meetings in the various wards for the same purpose.

Eminent German's Opinion

Great admiration for the Carolina Piano is shown by the eminent German piano and player manufacturer, who inspected a Carolina-Inner Piano at the Cable store, who is a relative in Atlanta to make a thorough examination of this famous American piano. He did not attempt to conceal his admiration of American workmanship and inventive genius, and only leaving the Cable store, who the following letter to its manager, Mr. Brownlee:

"Atlanta, Ga., July 27th, 1914. 'Cable Piano Company, Atlanta, Ga.: 'I am distressed to you for the courtesy very best thanks to you for the courtesy shown to me yesterday. As the same time must pay you my compliment on the piano and player-pianos seen at your store. I was amazed at the exactness of the work, as well as at the splendid deep tone of your instruments."

"I am a German and I take it, entitled to express an opinion, and can only leave you the impression of my products by designating them as 'very excellent' your player apparatus. I admit that I have never seen so good an apparatus before. I was astounded at the precision of the mechanism and also at the air-tightness of the channels and the bellows."

"I wish you the best success, I beg to remain, yours very respectfully, 'PURVEYOR TO THE ROYAL COURT, 'H. M. Kaiser of Austria, 'King of Hungary, 'King of Spain."

Our store has carefully considered the requirements of all music lovers. In grand pianos are all sizes in the precious woods, both in the highly polished and in the new dull finishes. Supreme in this group is the Masca & Kamin—the world's best piano. Then there is the beautiful Conover and for small apartments, a Cable-Style Semi-Baby Grand—a \$350 value for \$325.

Common sense and the Piano are pretty sure to find just the instrument you are looking for. Consider first the four famous 'Leader Styles'—the Conover Style 13—Cable Style E—Kingman Style 3—and Wellington Style B. These are the leaders sold by the Cable factories to the best piano merchants throughout the United States, and because they are built to compete in satisfaction as well as price, you are assured of the best possible values.

Then there are the Cable Pianos. Investigate with special care the Carolina Piano. You will find only in four well-known makes all that we handle. We need not call your attention to our Victrola and Record section. The assortment and service of this department, as well as the convenience of its location, have made our store a sort of musical headquarters.

HOLDS WAR SECRETS

CHARLES M. SCHWAB.
Charles M. Schwab, the steel man, is now America's "man with a mystery." He recently came back from Europe with a secret, presumably about the war. This secret, he says, is so great that he doesn't dare divulge it at this time. He won't even hint at it, while he keeps it sealed on the business outlook for America. He declares this country will benefit greatly by the war. He thinks we are now beginning an era of business prosperity that will be felt for the next ten years.

No Danger.
(From The Kansas City Times)
An old woman was greatly frightened when the train thundered into the long tunnel.
"Do you think," she asked the conductor, "this tunnel is perfectly safe?"
He declared this country will benefit greatly by the war. He thinks we are now beginning an era of business prosperity that will be felt for the next ten years.

"Marry me, Caramel Carry."
"Well eat Campbell's Soup Every day."
"O Harry, you fairy!"
"Just carry me right away."

Yes; it makes house-keeping easier.

You find many of the bothersome daily problems solved by Campbell's Tomato Soup. Beside its use as a dinner-soup for "company"-occasions; it is just the thing to begin the family supper—especially a Sunday supper; or on the maid's day out. For the children's luncheon, or your own, it comes in just right. Prepared with boiled rice or noodles it is almost a meal in itself. And in condensed form just as received it is the basis of many delicious recipes for every meal of the day.

Order it by the dozen. You'll find that the handy way.

TUBERCULOSIS FIGHTERS OPEN CONVENTION TODAY

Delegates Will Make Visit to the Battle Hill Sanitarium at Noon.

Following the success of the observance of "Tuberculosis day" at many of Atlanta's churches Sunday, leaders in the movement to eradicate the disease in the south are looking forward to the first session of the southern conference which will be held today in the Chamber of Commerce building.

Delegates to Monday's conference here will represent the states of Georgia, North and South Carolina, Alabama, Florida, Tennessee, Mississippi and Louisiana. The sessions will be held under the auspices of the National Society for the Study and Prevention of Tuberculosis.

Session Opens This Morning. The conference will open at 10 o'clock this morning. The discussion will cover the subject of Red Cross seals, the evening the conference will discuss the subject of "Tuberculosis Among the Negroes."

Dr. Minor reached Atlanta Saturday night and will address Sunday patients in the observance of the day in the churches. He attended the services at the Wesley Memorial church, where he made an address.

Following is the program arranged for the conference: Morning session, "Selling Seals by Mail," Miss Ida V. Clay, of Montgomery, Ala.; "The Use of School Children in Seal-Selling," Rev. George Eaves, Birmingham; "Publicity and Advertising," Russell Weisiger, Atlanta; "Personal Work and the Use of Booths," Miss Rosa Lowe, Atlanta.

Afternoon Program. The topic for the afternoon will be "Hospital and Home Care of Tuberculosis," with addresses as follows: "The Operation and Maintenance of Local Hospitals for Tuberculosis," Dr. Charles J. Hatfield, Philadelphia, general secretary of the national body; "Nursing Problems in Tuberculosis," Miss Logan, Atlanta; "Home Care of Tuberculosis," Dr. Donald B. Armstrong, New York.

Evening session, "Tuberculosis Negro," with the following addresses: "The Tuberculosis Negro to the Community," Dr. E. H. Rankin, Raleigh, N. C.; "The Education of the Negro in Tuberculosis," Dr. William A. Harris, Savannah. Considerable interest is centered on the public health sanitarium at noon to the Battle Hill sanitarium.

Dr. Minor Speaks. Instead of the usual services at the Wesley Memorial church Sunday, Dr. Minor spoke to the congregation on the "White Plague."

"I believe that Christianity should do something for somebody. Tuberculosis, because of its prevalence in the human race, gives us as ample opportunities for altruistic activities as any affliction of man that I can name. It is my belief that one of us should speak to the Sunday assembly of a church upon this subject."

"Tuberculosis is a growth, widely found in people. In some localities authorities say that 80 per cent of the children of the age are affected. The large percentage of people afflicted are the poor. The badly ventilated, crowded tenements, their filthy habits, their long hours of labor, their disposition to dissipation and the numerous other causes, all of which change the latent tubercular growth into an active one."

PIE-EATING CONTEST OF UNIQUE BANQUET WILL BE A FEATURE

Newspaper, office boys, messenger boys—they are going to be crowned kings for a day. The youngsters are going to be taken in hand by members of the Rotary club and led over to the assembly room of the chamber of commerce next Tuesday at 1 o'clock and told to go as far as they like in the "eat" line.

Why all this fuss? The Rotary club thinks the kids who run errands in the offices and who sell papers on the streets ought to be taken in hand some time during this great Thanksgiving season and made to feel that they are of some account in this community. Accordingly the club has planned for Tuesday what might be called a "rotary big brother" dinner, and no member of the club can get into the hall unless he has a kid with him. It is up to him to get an office boy it's up to him to go out into the highways and byways and pick up some youngsters.

And after the roll call of members, it's up to each to introduce his guest. The youngsters will be called the "Scrap," "Lefty" or "Mugsy," what the youngster does for a living is given them a name on Thanksgiving and what it means.

COL. ROBERTS' OFFER EXCITES CURIOSITY OF ATLANTA WOMAN

If voices are sponsors for the beauty of their owners, it was a young and good looking woman who telephoned the city editor's office of the Constitution last night and asked for the reporter who wrote the story in Sunday's paper about Col. James J. Roberts, the South Carolina bachelor who offers \$2,000 for a wife.

Colonel Roberts is the wealthy land owner who has more money than he knows what to do with, he says, but hasn't a wife. He has offered \$2,000 to anyone who would bring to his door a suitable mate.

The Atlanta Methodist Episcopal annual conference has closed its business sessions. Richard D. Stinson, of the Atlanta Normal and Industrial Institute, Atlanta, sure as he was once last night on why the masses should be practically trained to do the things for which they are best fitted.

Rev. C. C. Cargile preached the Thanksgiving sermon for the annual conference at the R. Butler and C. P. Washington laid the cornerstone of the new church. Six deacons, ten elders and 140 members were present.

Floyd County Baptists. Rome, Ga., November 29.—(Special.) The general meeting of the Floyd County Baptist association, which has been in progress for the last three days at the First Baptist church, came to a close tonight with sermons by Rev. Charles E. Lee, Rev. J. G. Ginty and Rev. J. C. Hughes. The convention paid particular attention to the Sunday school work, besides discussing numerous other topics of interest to the denomination.

CORN LIQUOR MAY AVE MAILED WHO TOOK POISON

Card from Mayor of Macon Found on the Body of Attempted Suicide.

A drink of good old corn liquor, quickly administered by a nearby physician, probably saved the life of M. F. Huckaby, a young white man, apparently about 23 years of age, after he had attempted to end his life last night at the Terminal station by swallowing a vial of carbolic acid.

Huckaby raised the vial to his lips, drank the contents and fell on the floor at the entrance to the Terminal station. Officer Benson, who was standing near, rushed to his side and quickly realizing what had happened summoned a nearby physician.

The physician forced a drink of corn liquor down the man's throat. This, according to Dr. J. A. McAllister, the Grady hospital ambulance physician, who carried Huckaby to the hospital, probably saved Huckaby's life.

Huckaby had evidently arrived from Macon, Ga. There was no means of identification except a card found on his person, signed by the mayor of Macon, Bridges Smith. The card read as follows:

"BRIDGES SMITH, Mayor of Macon, Ga., November 24, 1914.

In addition to this card 15 cents in change was also found. These were the contents of Huckaby's pockets. He was dressed shabbily, his clothes having the appearance of having been washed in carbolic acid, being dark colored. He has red hair.

The local authorities believe that Huckaby was evidently in hard straits and that he probably had been examined several times by the Macon police. He was first taken to the office of the Macon police, he evidently had appealed to Mayor Smith, who signed the above card, and was taken to molest him, so long as he behaved himself.

NO DELAY EXPECTED IN LEO FRANK CASE

Remittitur Will Probably Be Sent Down Either Today or Tomorrow.

The supreme court remittitur in the Leo Frank case is expected to be sent down to the superior court late this afternoon or early tomorrow morning. Contrary to the report that the decision of Judge Hill will likely delay the resentencing of the doomed man, it was stated at the courthouse that either Judge Bell or Judge Pennington would be called upon in the absence of Judge Hill and that there would be no delay.

Following the receipt of the remittitur, Frank will be removed from the Tower to the report that the trial will be carried before either of the superior court judges within the next twenty-four hours for a new execution date.

At the meantime representatives of his defense are busy in Washington preparing their plea to be submitted before the remaining justices of the United States supreme court. It is expected that they will take action today.

RAISE FUNDS TO HELP LEONARD STREET HOME

In spite of the very inclement afternoon, about 40 people gathered yesterday at the Odd Fellows' auditorium at the Leonard street home for the purpose of raising funds for the Leonard Street Orphan's home. This was the culmination of a ten days campaign carried on among the churches, Sunday schools and other organizations of the city, and marked the beginning of a permanent system of raising funds for the care of the colored people for the support of this home for the little homeless children of the city.

Judge W. W. Tindall, of the juvenile court, and Dr. Milton N. Armstrong spoke heartily and enthusiastically in support of the work, and urged their hearers to rally to the needs of the home and enable it to continue its work.

President John Hope, of Morehouse college; Dr. Loring B. Palmer, Professor of Music at the Atlanta Conservatory of Music; and J. Bryant, Editor E. J. Davis, Secretary Harry H. Pace and the superintendent, A. C. Chadwick, made contributions for the maintenance of the work, after which a dozen churches reported \$202.17. On account of the inclement weather many who were expected did not report, but which will do so this week.

The little children from the home sang hymns and melodies, and the Y. M. C. A. quartet also sang. The home is situated at 39 Leonard street and is always open to visitors and friends.

STIRRING PICTURES OF WAR IN BELGIUM OPEN GRAND TODAY

Monday afternoon, at the Grand theater, will be shown, for the first time in the south, the initial film of motion pictures brought to this country from the European war zone. These pictures will also mark the official reopening of the Grand under new management, Arthur S. Heyman having leased this playhouse for a period of two years.

The real claim agent of the Atlanta and West Point railroad, died Sunday morning at his home in Marietta, Ga., of pneumonia. Frank Wilson, was an 61 years old, and has been connected with the Atlanta office of the railroad for little more than six years. He was chief clerk to the claim agent at the Clyde Steamship company at Charleston, S. C. He was well liked especially in railroad circles, and had many friends in this section.

He is survived by a wife and one daughter. The funeral will be held from the residence in Marietta this afternoon, and the body taken to Canton, Ga., for burial.

Rotary Club Exhibits Open In Healey Building Windows

The big exhibit of the Rotary club of Atlanta will be officially opened Monday morning. More than a score of Rotarians, each of them representing an important industrial or mercantile line in Atlanta, have installed exhibits in the window showrooms in the Healey building on Forsyth street, and this display promises to be unusually successful.

To insure attractiveness in the displays, prizes will be awarded for the most tastefully decorated exhibit. Among those offering such prizes are Harry Goodhart and L. L. Shivers. The latter is chairman of the committee having the exhibition in charge.

There are many varieties of exhibits to show in the windows and the show offers unusual facilities for those on the lookout for Christmas gifts to make their selections.

Among the exhibitors and the companies they represent, are the following: Francis E. Kamper, Kamper Grocery company.

E. M. Hudson, McCord-Stewart company, wholesale grocers.

Ben Lee Crew, Phillips & Crew company, pianos and music.

Ivan E. Allen, Fielder & Allen company, office outfitters.

Mexican War Vet, Young at 90, Weds Seventh Wife, Courtied by Mail

Robert S. Knox, aged 90 years, veteran of the Mexican war, celebrated Sunday by taking unto himself his seventh wife. The couple was married at the Britton hotel and left amidst showers of rice, old shoes and the good wishes of about 200 people.

Judge Harlan J. Wood, ordinary, pronounced the nuptials. The latter Mrs. Knox was Miss Jennie DeWitt of Lima, Ohio, who gives her age at 53 years. Prior to their meeting here, the couple had never met, their marriage having been agreed to by correspondence.

The grim reaper has intervened in four instances, then the aid of the law had been invoked twice in the former experiences of this much married man. Eight children have come from his homes, seven of whom are living.

FRENCH OFFICIALS HERE TO PROTECT STOCK SHIPMENTS

A group of French military and medical authorities, including a nobleman, have established headquarters in Atlanta, at the Ansley hotel, for the purpose of looking after the purchase of supplies in the south for the allies in Europe.

Among them is the Count Reno de Montjou, who has two sons at the battle front in the French army. Another is Dr. L. Pleard, a noted French medical authority, who is here to select cotton for the manufacture of absorbent bandage material.

They arrived in Atlanta Saturday afternoon. One of their missions, it is reported, is to prevent interference with shipments of the cargoes of horses and supplies that are to be sent from this territory by way of Mobile to Havre, France, at an early date.

The charge that America is infested with secret service operatives in the best of the United States and England, as well as other allied nations, are helpless to rid their shores of them.

It is also alleged that French agents have been informed of plans to prevent the shipment of the stock cargo that is to leave Atlanta either this morning or Tuesday. L. E. Campbell, of the Campbell company, exporters of Mobile, states that the cargo was shipped of animals shipped, recently from Norfolk, had been burned at sea by an incendiary fire. Several French secret service men also are here in Atlanta to guard the shipment.

Atlanta will be permanent headquarters for the maintenance of the work, after which a dozen churches reported \$202.17. On account of the inclement weather many who were expected did not report, but which will do so this week.

The little children from the home sang hymns and melodies, and the Y. M. C. A. quartet also sang. The home is situated at 39 Leonard street and is always open to visitors and friends.

Carlisle to Play Auburn On Grant Field Saturday

Atlanta football fans will witness their final game of the football season on Saturday, when the Carlisle Indians come here for a game with the Auburn Pilgrims.

This game was arranged by Charlie Wahoo, a former Carlisle star, and now a resident of Auburn. Being the first appearance of the Indians in this section, the game has occasioned considerable interest.

The Indians have been coming to the front of late. They started off poorly, mightily poorly for a Carlisle team, but of late they seemed to have struck the real stride...

That the Indians now have a formidable eleven was evidenced by their score against the strong Brown eleven on Turkey day. Brown winning by three touchdowns to two.

Among them are Clark Howell, editor of The Constitution; James R. Gray, editor of The Journal; Senator Hoke Smith, former Governor; Joseph M. Brown, former Governor; George Adair, Mayor James G. Woodruff; James S. Flory, vice president of the Atlanta National Bank; Hamilton McWhorter, of Athens; A. B. Green, of Fort Valley; Dr. K. G. Matheson, president of the Georgia Medical Association.

Welchance Will Umpire Crackers' Spring Games

Harry Welchance, the Crackers' field captain, who is undergoing treatment for consumption at Asheville, N. C., has been selected to umpire the exhibition games that the Crackers will play next spring.

It was announced in a letter from Manager Bill Smith, who is visiting his mother at Springfield, Ohio, that Welchance has been improving rapidly under the careful treatment he has been getting, and it is believed that

with a year's rest he will be ready to don the spangles once more. Welchance has been improving rapidly under the careful treatment he has been getting, and it is believed that

Harry has about closed for a bench manager's berth with the Greenville team, of the Carolina league. In this capacity he can still be connected with the profession that he loves, though he will not be able to play.

The sympathies of every Atlanta fan will go out to Missus Smith, who is worried over an illness that struck his mother last Saturday. Mrs. Smith's condition is serious, and Billy is a constant attendant at her bedside.

WILSON IS PREPARING FOR CONGRESS SESSION

He Will Complete Message This Week—Congressmen Returning to Capital.

Washington, November 29.—President Wilson has a busy week before him in preparation for the convening of congress. Besides completing his annual message, he will discuss the European situation with two American diplomats just back from the war zone.

President Fisher, of the chamber of commerce of the United States, who will call at the white house during the week, is expected to urge carrying out once a provision for an investigation of combinations abroad with which American exporters have to compete.

Mr. Wilson has been busy for more than a month with the trade commission. He is understood to have decided on Joseph Davies, commissioner of corporations, whose bureau will be merged into the new commission.

Chairman Sparkman, of the house rivers and harbors committee, will discuss with the president the question of the next rivers and harbors bill. The president is understood to be desirous that only urgently necessary provisions be included in this bill.

Conferees will be held during the week with Henry Vanduyke, minister to Belgium, and other members of the ambassador to France. It has been reported that Mr. Vanduyke brings a message from the queen of Holland proposing a plan for neutral nations to bring about peace in Europe.

Farms and Farmers

PROF. R. J. H. DE LOACH, EDITOR.

Address all letters for this department to Prof. R. J. H. DeLoach, Experiment. Ga.

Two Important Subjects.

We are offering a specially good article this week from Perry van Ewing, animal husbandman of the Georgia Experiment Station. Mr. Ewing has had experience in this line and speaks from practical knowledge. The pigs at the experimental station are as fine as can be raised anywhere in the whole country, and we attribute this fact largely to the fact that the feed which they receive is of the highest quality. Every farmer should try a small patch of rape this season. It will not take long to see the many questions about it. This article is given to you the questions. It is complete and contains just what you ought to know.

We are also constantly getting questions with reference to the rape for hidding from Texas fever ticks. We are therefore sending full information on this subject to every farmer who asks for it. The rape mixture of chemicals and dip his own entile of the form and use it carefully and see what should be done.

Rape for Brood Sows.

By Perry van Ewing, Animal Husbandman, Georgia Experiment Station. A great many farmers consider it impractical to use two liters of pigs each year. The spring litters are seldom profitable in this connection some reason being given for this. The fact is that the fall litters are seldom profitable. The necessity of providing a winter pasture for the brood sows has long been recognized, but the difficulty of obtaining a suitable crop in order to make into fall or early winter rape is a very serious matter. It has been fully demonstrated that the use of rape in winter pasture for brood sows has made the late fall pig crop complete. The rape is a very hardy plant and is well established in the soil. It is generally grown among swine raisers for in every test that has been conducted with this crop it has been found and elsewhere only the best of results have been secured.

Description of the Plant. The rape plant (Brassica napus) is a crucifer, closely related to the mustard, cabbage, collard, cauliflower, kale and turnip. In general appearance it very closely resembles the rutabaga, or Swedish turnip, except that it has no bulbous root. The leaves are of a dark green color and are very succulent and tender. The plant is a cool weather plant and does best during the early spring and late fall. It is not a winter hardy plant and should be planted in the fall in the cooler months as much as possible. Under good conditions it will attain a height of from 18 to 22 inches.

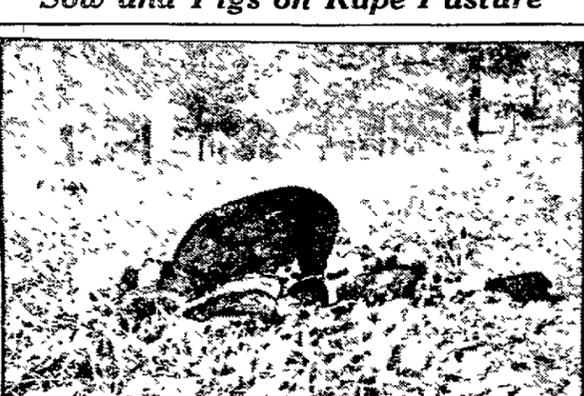

Possibilities of the Crop. For winter pasture a small patch sown to this crop will supply a large quantity of nutritious feed at a time of the year when green feeds are scarce. It can be grown very cheaply for it does not require any cultivation or other care after the seed are planted and yet its value is greater per acre than any other crop that can be raised. The value of an acre of rape when used for hog grazing purposes has been shown in various experiments to be worth from \$20 to \$30 in more and to place its average profit-producing value at \$100 is not unreasonable. An acre of rape can easily be grown for from \$7.50 to \$10.00 and cost of pig production is lowered. The rape is a very profitable crop which gives a net profit on the investment. The high feeding value is largely due to its high protein content and to its succulence. For chemical analysis see the table on page 23. The rape is also very low in crude fiber which largely accounts for its high value.

At this station we have been enabled to succeed in raising fall pigs by allowing the rape to grow in the field in addition to one third or one fourth of a mixture of two thirds of rape and one fourth of timothy. The rape is made into a chop with skim milk. The sows not only do well themselves on the chop but the pigs also do well. The rape is a very profitable crop which gives a net profit on the investment. The high feeding value is largely due to its high protein content and to its succulence. For chemical analysis see the table on page 23. The rape is also very low in crude fiber which largely accounts for its high value.

Soil and Its Preparation. Any good malle soil will produce good crops of rape. It requires a large amount of manure or heavy sod turned in to be full of it. The soil should be well broken and harrowed into fine soil. Bone meal or superphosphate makes an excellent fertilizer for the crop but while this is not available the land should be fertilized with the use of from 50 to 400 pounds of a fertilizer containing about 10 per cent of phosphorus and 3 or 4 per cent of nitrogen.

Planting. Rape is best sown in drills or broadcast. The rate of sowing should be from 5 to 10 pounds per acre. The seed should be sown in the fall or in the early part of the winter. The rape should be sown in the fall or in the early part of the winter. The rape should be sown in the fall or in the early part of the winter.

REPORTS ON WEATHER BARRED TO GERMANS

The absence of forecasts will make Zeppelin raid on London very dangerous.

The Hague, November 22.—(Correspondence of the Associated Press)—It is because the German Zeppelin air craft seldom if ever undertake extensive operations unless favorable weather reports are received, that the French military authorities issued their recent order forbidding the publication of weather forecasts. Albe Moreux, director of the weather bureau, explained how the cutting off of these reports will affect German calculations. He says that the order is designed to keep vital information from the Zeppelin raid.

KAISER SENDS GREETINGS TO HIS CHANCELLOR

London, November 30.—(10 a. m.)—Telegraphing from Berlin Reuter a correspondent sends this official announcement: Emperor William has sent this birthday telegram to Dr. von Bethmann-Holweg, German imperial chancellor.

LODZ IS BOMBARDED BY GERMAN AVIATORS

London, November 30.—(4:55 a. m.)—A Reuter dispatch from Petrograd says trophies captured by the Russians at Lodz together with several captured Lannan have arrived in Warsaw. Four this concentrated solution into the city. German aviators dropped eighteen bombs in the main street of Lodz, destroying the Goelcher factory, killing or wounding many of the populace and causing heavy property damage.

Are Forts and Battleships Obsolete?

(From American Review of Reviews) Even at this early stage of the war it is proved that great fixed fortifications are of much less value than had been supposed. The batteries are perceived that it is a mistake to permit masses of effective soldiers to be cooped up in beleaguered towns for months within fortified places. Perceiving this King Albert led his gallant army safely away from Antwerp before the Germans took possession.

CHURCHES ARE URGED TO STRIVE FOR PEACE

Protestant Leaders in Neutral European Countries Send Appeal to America.

New York, November 29.—The Federal Council of Churches of Christ in America received today at headquarters here an appeal from Protestant church leaders in several neutral European countries that churches throughout the world strive for peace. The appeal originated with the Rt. Rev. Nathan Soderstrom, archbishop of Upsala, Sweden. It is signed by Ostenfeld, bishop of Stavanger, Denmark; Gustaf Johani, archbishop of Abo, Finland; Pastor Leemans, president of the Reformed church, Holland; Pastor Demoor, president of the Reformed churches, Holland; Pastor Helwig, president Evangelical Lutheran church, Holland; Pastor Hecker, president of the Reformed churches, Holland; Pastor Tundberg, bishop, Christiania, Norway; Nathan Soderstrom, Pastor Ris Berne, president of Conferences of Reformed churches of Switzerland and Pastor Armand Ducloux, Geneva, moderator of Company of Pastors.

Bishop Joseph Ferencz, Koloswar, Hungary, also joined in the appeal. Other signers are: President van Bessel, of Munich, and the Archbishop of Canterbury sent letters expressing interest in the plans but explaining that as officials of state churches in allied countries they would not sign the appeal. The text of the appeal follows: "We servants of Christ, address to all those who have power or influence in the matter an earnest appeal to keep peace before their eyes in order that bloodshed soon may cease. The war is causing untold distress. Christ's body, the church, suffers and grieves in its head cries out 'O Lord, how long?'"

We remind our Christian brethren of various nations that war cannot endure the bond of interest and union that Christ holds in us. Our faith perceives what the eye cannot see. The strife of nations must finally serve the dispensation of Christ. He is one. Let us therefore call upon God that He may destroy hate and enmity and may we obtain peace for us. His will be done.

ADVICE TO SAILORS WHEN VESSEL IS LOST

Told to Keep on Clothes; Not to Try to Swim, and to Hold to Hammocks.

London, November 22.—(Correspondence of the Associated Press)—Don't let go of your hammock. This is the advice to British sailors when they are forced to take to the water. It is a current issue of The London Lancet and is founded on the measures found most helpful by the Japanese during the war with Russia. It must be explained that the hammock referred to is not a hammock in the usual sense of the word. It is a life preserver in the shape of a life jacket. The warning is not to attempt to swim is uttered to protect the man in the water. It is based on the fact that the long experience has shown that clothing in water weighs a man down and contributes its share of buoyancy, until thoroughly soaked.

Many New Citizens.

(From The Cleveland Leader) Immigration to the United States gains little or nothing by the excess of arrivals over the number of foreigners sent home. The most conspicuous cause of the condition as it will be when the ends of the rush of immigrants are sure to follow. But the making of new citizens out of aliens does not readily. It is apparently more popular than it was in time of peace. Foreign-born residents in the United States are showing unusual eagerness to become entitled to the legal standing of those born under the flag of this republic.

Education.

(From Judge) Young John Smith, who jumps in the Star Department Store, is an educated person. In a hundred brands of lore he can conjugate in Latin. And in Greek he feels at ease. He is strong in the sciences. He can read and write in Sanskrit. He has logic right down pat. But he earns just fifteen dollars. And he's lucky to get that.

MASONS OF AMERICA TO AID WAR SUFFERERS

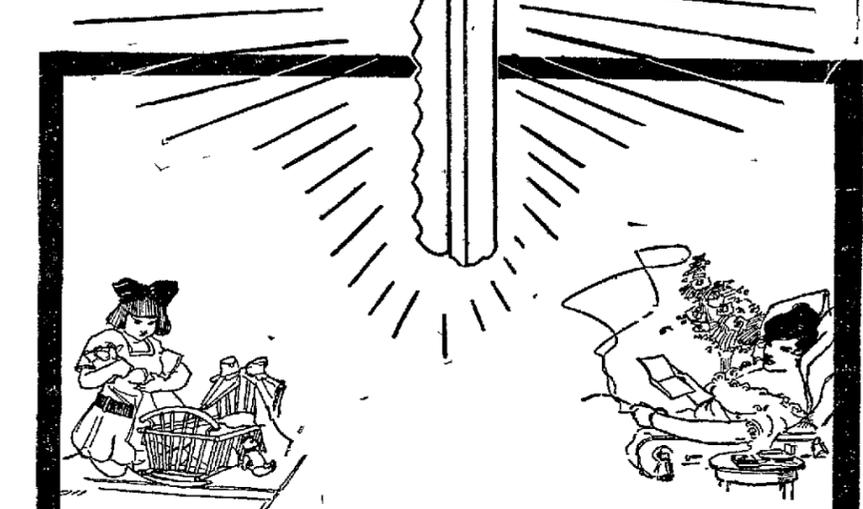

Cincinnati, November 29.—At a meeting of prominent Masons from all over the country here tonight a movement was launched to secure funds for war sufferers in Europe. Forty-six of the forty-nine grand commanders of the country expressed their approval of the plan. The other three have not been heard from. It was estimated there are 1,500,000 Masons in the United States and it is hoped to secure at least one dollar each from them. This city will be made the headquarters for collection and distribution of the money which will be sent to the grand lodges of the countries at war. Relief will not be confined to Masons or their families.

5,000 MULES A MONTH FOR THE ALLIED ARMIES

Nashville, Tenn., November 29.—A contract to supply 5,000 mules a month has been let to a Nashville sales company, it was learned today, and a large number of mules have already been sold and shipped to New Orleans and Mobile for European service. It is stated that the mules were bought for the British and French armies, representatives of which have been in Nashville for some time.

questioned. But today the leading newspapers and magazines, leaders of public thought, are all questioning this prerogative.

He admonished the church to be prepared to meet such an eventually with the highest degree of efficiency.

He called attention to the commandment, "Thou shalt not kill," and at the same time pointed out that God specifically ordered the children of Israel to exterminate completely inhabitants of the land of Canaan before occupying it.

Such a course, it seems to Dr. Lyons, is in the natural development of the human mind toward a good end.

At its regular meeting next week the board of directors of the city of Atlanta will consider a municipal bond issue for the purpose of making public improvements.

Other towns and cities in this part of the state are considering similar propositions. So many are being made that the number of unemployed men of both sexes is steadily increasing.

Details of the plan, which will be submitted to the annual convention of the ginners' association, which will be held here January 1 and 2, were announced at the headquarters of the organization.

Waycross, Ga., November 28.—(Special.)—An address by Judge Robert T. Daniel, grand sire of the Order of Odd Fellows, will feature the convention of the first division of the order, which is in Waycross Wednesday.

SUSPECTED NEGRO ADMITS SHOOTING, BUT DENIES THEFT

Tom Ballard, the negro arrested Saturday night by Police Officer T. B. Shaw, and held under suspicion of being the highwayman who shot and probably fatally wounded W. E. Ormond, of 43 Cooper street, when Mr. Ormond rushed from his home to the aid of his wife and daughter, Miss Willie Ormond, who had been knocked down by a highwayman last night.

Ballard, according to the police, states that he heard the screams of the two ladies, and rushed out of his home in the rear of No. 9 Woodrow avenue, near the scene of the robbery.

One of the bullets that entered Mr. Ormond's face was out of his neck Sunday by the doctors. It had lodged behind the right ear. It was of .32-caliber, and corresponds to the one which was found hidden between two bed mattresses Sunday morning by Detectives Gorman and Hardy Ormond.
