The Plainclothesmen, With Fourteen Detectives, Don Uniforms and Compose New Watch.

When Commissioner Baskin walked into the police board meeting last right and took his seat, it was the first time a full meeting of the board has been in session since last April, when fruitless efforts to elect a police board chairman ended in an agreement that no chairman would be elected unless a full board was present. Commissioner Andy King took ad-

vantage of the opportunity to elect and immediately moved that the election of a chairman be taken up. The Woodward faction, realizing that defeat was staring it in the face, atdefeat Commissioner

King's resolution, but only mustered

four votes against it. Commissioner W. B. Fain on the first and only ballot was named chairman. The vote stood: Fain 7, Commissioner R. T. Pace 8 and Commissioner Vernoy Commissioner Fain was declared clocted, having marshaled a majorit; of the twelve votes. Thus ended the longest struggle in the history of the

police board to elect a chairman. For eleven months the board has been without a chairman, Mayor Woodward, by virtue of his office, acting Last Night's Bullot.

Last night's ballot was: For Fain King, Dickson, Letton, Smith, Vernoy, Fain and Baskin; for Pace, Woodward, Johnson and Clarke: for Vernoy. Garner and Pace.

It was Commissioner Vernoy's vote that gave Commissioner Fain the required majority to elect. Commissioner Baskin's right to vote was not questioned, although Tuesday afternoon at council meeting Councilman J. N. Renfree took the position that Mr. Baskin no longer was a member of the police board, as he had moved from the first

ward.

FAIR PROJECT ASSURED, RESULT OF AGREEMENT

Peace Declared at Conference Arranged With Members of Council by Mayor Tuesday Morning.

With amendments dictated by Mayor James G. Woodward at a conference ne had with caucus leaders in his office, at 11 o'clock, Atlanta's general council, Tuesday afternoon, went into extraordinary session, passed the sheet by a vote of 18 to 4, and a few minutes afterwards the aldermanic board concurred in council's action by a vote of 8 against 2.

Mayor Wooward sent for the amended sheet immediately after he had been told of the action of both branches of the general council, and, in the preshe attached his signature.

The sheet, as it stands approved today, carries all the appropriations for new projects except the appropriation of \$12.500 for salary increases promised Girls' High school teachers ind an appropriation of \$3,588 to meet the expenses of ten months for operating the Normal Training school, of which Miss Postell is principal.

It was Alderman Armistead who suffered most through the mayor's demand for an amendment eliminating the \$12,500 and for also cutting off the apportionment to the Normal Training school. GERMAN SOCIALISTS ARE TIRED OF THE WAR TO LOCATE DROWNED MAN

by Demanding Termination of Struggle. Amsterdam, February 10,-(Via London, 1:46 a. m.)-Herr Hirsch, a socialist deputy, created a furore in the Prussian diet by asserting that the socialist party refused further to support the government and demanding termination of the war. Dr. Karl Liebknecht another soder to find it. cialist, interrupted the conservative member, Herr Heyderbrand, who was describing the unity of the German peoples, declaring: "You have no right to speak in the

name of the people."

This caused another uproar and there were many cries of "shame," but quiet soon was restored.
In submitting the budget August Lentze, minister of linance, declared that economically Germany could cope with the war for a long time. The budget was sent to committee. Lentze, minister of finance, declared

THREE ALLIED CRUISERS WATCH HAVANA HARBOR

mavana, February 9.—A French armored cruiser, apparently the Conde, arrived off the port today and joined the British cruiser Bristol, which for some weeks has been alternating with the British cruiser Berwick in watching the port and cruising outside Cuban territorial waters. There is much speculation in official circles regarding the purpose and the presence of these cruisers.

Russians had stubbornly defended. Numerous prisoners and much ammunition and war material were captured. "On the other Carpathian fronts severe battles occurred. In the western sector the Russian attacks were unsuccessful, and 340 prisoners and three machine guns fell into our hands. "We continue to advance in Bukowina and have occupied Wama."

V. H. KRIEGSHABER RE-ELECTED HEAD JEWISH ALLIANCE

Victor H. Kriegshaber, who has been president of the Jewish Educational Alliance since its organization some years ago, was again re-elected president at a meeting of the directors on Monday evening. Mr. Kriegshaber urged the election of Morris Lichtenstein as president and asked leave to serve the alliance in the ranks rather than as its official head.

Mr. Lichtenstein, one of the vice presidents of the Jewish Alliance, insisted upon the re-election of Mr. Kriebshaber, whose successful administration of the affairs of the alliance has won universal commendation, and his election was unanimous.

The following officers were re-elected: Miss Meianie Ficibelman, vice president; Morris Lichtenstein, second vice president; Morris Lichtenstein, second vice president; Joseph Heyman, secretary. Sigmund Weil was elected to membership on the board of trustees and the retiring trustees were re-elected.

the war zone proclaimed by Germany does not constitute a blockade or ever a paper blockade. He stated that it

imply was a warning.
A bill to make it unlawful for a ship of foreign registry to fly the American flag for deception was introduced in the house by Representative Martin, of South Dakota. It would prescribe a fine of \$10,000 to \$100,000 and confiscation of the ship.

WAR ZONE ORDER

DEFENDED BY VON JAGOW. Berlin, February 9.—(Vla The Hague to London.)—Gottlieb von Jagow, the German foreign secretary who is visiting Berlin, in the absence of Emperor William on the eastern front, today explained to the correspondent of the Associated Press the nature of the recently announced German naval measures to be taken against hostile commercial shipping, over which, he said, there seemed to be misapprehension abroad owing to delay in the transmission of the memorandum accompanying the proclamation. The phrase "submarine blockade" as used in the foreign press, the secretary said, perhaps also was responsible for this misapprehension.

"The announcement was not a declaration of a blockade," said Herr von Jagow. "All questions as to its validity promised on this theory are excluded. The proclamation designated waters around Great Britain and Ireland as a war zone, announces Germany's intention to conduct war operations in this region, and particularly to destroy commercial ships of the enemy.

"England months ago declared the whole of the North see war area. German warships heretofore have destroyed merchant ships belonging to the enemy only when there was every certainty that their passengers and crew could get away safely. But in the future this forbearance must be subordinated to military considerations, and since England, by measures inadmissible under luternational law, has paralyzed neutral commerce with Germany in an attempt to force upon the German civilian population death by starvation.

"Anyhow," continued Herr von Jagow, "hostile marchantmen have no claim to consideration if, as in part aiready has sheen the case, they are area. Berlin, February 9.—(Via The Hague to London.)—Gottlieb von Jagow, the

Mr. Farrell is qualified to speak with authority. The commodity his concern handies is universally accepted as a barometer of conditions. He referred to healthy conditions in the steel trade and declared they extend to every other line of endeavor. He dwelt, also, on the improved outlook for cotton. In fact, he could detect possible trouble or embarrassment in no direction.

His appeal to the national common sense is particularly timely, as was the recent statement of President Wilson that business men could secure better legislation if they studied politics more intelligently. It is American common sense that has conquered every problem yet presented to it, and that also is gradually putting the quietus on the more riotous and harmful of the dema-

cation is being preached in every militia

It would not be surprising if the European war brought forth such an emphatic display of "national common sense" as to Americanize us more thoroughly, teach us our mutuality of interests more thoroughly, than even the Spanish-American war. . .

It is possible that President Wilson and his advisers may find it necessary to resume toward both England and Germany the attitude of firmness displayed a few weeks ago in his note to England regarding American shipping. Germany has announced the intention to draw a new war sone around Great Britain and Ireland. In the meantime, regulations regarding neutral shipping have returned to the hazy status they occupied a few weeks ago, and there is the contingency that American commerce, already handicapped, may be placed at even a worse disadvantage by the clash

Beneath the surface friendliness of both Germany and England toward the representations, there has stood out the determination to let no outsider seriously interfere with their designs of a military nature. In the meantime, what are left of the neutral busy trying to locate it.

nations look to this country to enforce their rights where the belligerents are concerned.

Manifestly, the situation is one where the most delicate of diplomacy must combine with a touch of tartness. We must do business with all these various nations, or their remnants, at the conclusion of the war. Most certainly, we do not want to become embroiled with any of them now or later.

At the same time, we cannot afford to stand idly by and see our commerce, which is just now getting on its feet after a shock for which it was not responsible, ruthlessly slaughtered by the fighting nations. We are Only this thought; If you' were ever near playing, it seems, the role of innocent by All that Faith dreams of Heaven would be stander, but we have too much at stake to submit to the punishment usually accorded

The result probably will be that after a series of negotiations we will come to a definite understanding with the belligerents, both as regards the restricted sea areas and contraband. The whole country has a stake in the matter, since it is engaged in shipping numerous products across the ocean. And the south's imperative need to get out its cotton and the surplus grain it will raise this year increases our interest.

READY WITH THAT BUNDLE!

Borrowing the vernacular, Atlanta ought to make a "killing" on Bundle Day, which is tomorrow. Initiated and underwritten by the Associated Charities, the idea has caught hold of the big-hearted people of this city with amazing rapidity. Co-operation is the watchword.

Don't forget that Bundle Day will not cost the participant a penny, while it may, and probably will, mean a great deal to the beneficiaries.

In common with other cities, Atlanta has its problem of unemployment. Many people who normally would have no difficulty in purchasing good clothing and shoes, now find themselves positively harassed by the

THE DUEL FOR WARSAW.

Unless the Germans and the allies come

to grips before Paris, it is probable the present war will witness no military spectacle more dramatic than the duel between Germans and Russians for the possession of the ancient Polish city of Warsaw.

It is impossible to do more than guess from the tangled press dispatches. But the general impression is that of two huge and unwieldy armies stretched over hundreds of miles, struggling like titans through snow

The suffering on both sides, and the losses, which have been discreetly minimized, must have been tremendous. Those who love good literature must hope that among both armies are men capable of telling the story, when finally they emerge from their gigantic death grapple.

THE D. A. R.

Atlanta is honored in playing host to the seventeenth annual conference of the Georgia division of the Daughters of the American Revolution. Women from all parts of Georgia are here to participate in important deliberations, and in the social functions arranged in their honor. The hostess chapter is the Joseph Habersham chapter, of which Mrs. John A. Perdue is regent and Mrs. W. L. Peel honorary regent.

The Daughters of the American Revolution have done much in kindling throughout Georgia a love for the better and more en during of our historical traditions. They keen alive memories that deserve to live, and their creed is to instill patriotism of the finest sort, untouched by the pretentious or the blatant.

The Holland Letter

In the produce exchange it has frequently been said since the price of wheat at Chicago passed \$1.50'a bushel that consumers in foreign lands will find that wheat costs them at the rate of \$2 a bushel at least. For it is in the foreign markets that the cost of transportation, insurance and like charges are paid. These costs do not come out of the money received by the farmers for their wheat. The extraordinary situation occa-When all the roses of the earth incline sioned by both domestic and foreign demand shower their rarest petals for wheat has been now for several days the exciting topic in business circles here and presumably in the wheat-growing districts as well as in Chicago. It begins to be suspected that a gigantic corner in wheat may be automatically created. Reference is made to other corners, and also to congestions which have been so great as seriously to impede the export of wheat, indirectly at Love would have all sweet flowers know least, and harmfully to affect the railroads With every wind that breathes on them and business. Heretofore, the corners in wheat have been the work of speculations. move wheat from the elevators to the markets has occurred as recently as 1907. In the early fall of that year, when wheat was beginning to move from the harvest fields to the scaports, the elevators, especially hose at Buffalo, were filled to bursting with wheat, not because anybody had cornered it, but because the railroads were unable to transport it. The frunk lines which have terminals at Buffalo did not possess freight cars in sufficient number rapidly to this wheat. That was one of the contributing causes which brought on the October panic of that year No individual or railroad management was responsible for this condi-tion It was due to the timidity of capital which made it impossible for the railroad companies to secure sufficient funds to enable them to buy freight cars

Is Whent Corner Possible?

An expression commonly heard not only upon the floor of the produce exchange, but n the offices of the commission houses recently, is this: Is the United States in danger of over-exporting wheat? That is only another way of saying that there begin to be symptoms observed of what may be called automatic cornering of wheat. If this does come, it will be due to competition, and may illustrate one of the evil effects of excessive competation. For there appears to have been created recently an unprecedented demand for wheat, which comes from two sources. Those who are leaders in the wheat markets across the sea are determined to secure all they can of the present supply, and are willing to enter into contract for heavy pur-chases during the remaining months which will elapse before the harvest of 1915 will become available. On the other hand, the domestic demand is unprecedented. No doubt this represents in part speculation, that is to say, the leaders in the domestic market are persuaded that the price of wheat will rise. They therefore buy and buy and execute contracts for future delivery. The best informed authorities here say that these donestic buyers are not seeking to corner the wheat market. These two demands running side by side inevitably cause appreciating prices for wheat, and it would not be surprising if the market price at Chicago were as high as \$2 a bushel. Intimations come to this city that many of the farmers are per-suaded that if they wait long enough they will be able to receive as much as \$2 a ushel for their wheat

Where the Danger Is. occasioned by, the European war, A ment and expansion.

Another effect of this extraordinary and unforeseen demand will be discovered in a greatly increased acreage devoted to wheat Science has recently taught the farmers how they may increase their wheat harvests while at the same time not greatly increase the acreage devoted to wheat. That is a condition which has long been hoped for by James J. Hill, Howard Elliott and others who are thoroughly familiar with every, aspect of wheat growing in the United States Mr. Hill, as the master mind of the Great North-ern Railroad company, and Mr. Elliott, through ten years' service as president of the Northern Pacific Railroad company, have made constant and exhaustive study of wheat farming. Both of these authorities have been persuaded that it is not advisable constantly and exclusively to cultivate wheat in the great wheat belts of the north and northwest, but that there should be instead cultivation of animal meat products and of other food products than wheat. Nevertheless, they are convinced the scientific cultivation of wheat should make it possible for the American farmers to harvest as many bushels of wheat per acre as the farmers in England have been able to do for many, years The English farmer, if the weather is fairly favorable, averages about twice as many bushels of wheat per acre as the American wheat farmer does, although the English soil has been in use for more than a thousand years There is likely to be this year a great increase in acreage, or as great an increase as is possible, for our wheat belt is not so extensive as are our corn belts. So that with favorable weather the farmers may with confidence look for a harvest of approximately a billion bushels of wheat. They will find a ready market for their wheat. More and more in this financial district there is realization of the enormity, the intensity and the desperate character of the struggle which now covers practically the entire continent of Eu-Even should war be terminated by midsummer of this year there will, nevertheless, be as great a demand for American food. and particularly wheat, next fall and winter as has been the case since the first of last HOLLAND. American Railroads—The Great Northern. By GEORGE FITCH, Author of "At Good Old Siwanh."

The Great Northern railroad was a happy when Dakota and Montana consisted mostly of boundary lines, and has owned it ever since, though in the early days he had to get out and help with the switching now and then to save expenses.

The Great Northern originates at St. Paul. and proceeds westward through North Dakota, sending out branches north with a regularity eel with the ribs attached. It crosses Montana just under the eave troughs of the republic, runs through Spekane, which was

merely an Indian scratching post when it was built, and lands at Seattle. The Great Northalso operates the largest ship on the Pacific between Seattle and the Philippines.

Fifty years ago there wasn't a sodhouse on the route of the Great Northern from Minnesota to the coast Today the system operates almost 8,000 miles of track and hauls enough wheat and other crops each year to feed the warring armies and leave, enough over for Belgium. We are an impetuous country, and nothing gets out of date so quickly on this continent as statistics regarding ourselves.

The Northern Pacific also runs from St. Paul to the coast, through the same states as the Great Northern, but the two systems live in considerable peace and do not fight each other in a rude and scandalous way. This is because they are owned by the same man Some years ago the two systems bought the Burlington, but when Mr. Hill attempted to weld them into a homogeneous, water-tight, bomb-proof and lap-welded iolding company, the cruel government stepped in and forbade the banns

The Great Northern has \$250,000,000 capital stock, and has managed to wiggle along on \$245,000,000 bonds, of which it spent \$107,000,000 buying the Burlington system. It owns enough iron lands in Minnesota to supply the country for many years, earns \$75,000,000 a year, pays 7 per cent dividends, and limits its branch lines to one passenger train a day with inflexible resolution.

FINDS \$3,500 IN LUMP. (Bakersfield dispatch to The Los Angeles Times.)

Thirty-five hundred dollars' worth of gold in one chunk—a nugget weighing 103-4 pounds—has been found near the head of Red Rock canyon, on the Mojave desert, by Dave Bowman, an old-time placer miner, according to Lance Underwood, who arrived in Bakersfield this morning from Mojave

Mr. Bowman was not prospecting when he found the nugget, according to Mr. Underwood, but was merely going into the can-yon when he saw the great lump of gold.

The nugget is very nearly the largest ever found in this vicinity. Mr. Bowman had no scales with which to weigh the gold, but rigged up a balance with a 10-pound hammer on one end, and the nugget at the other end proved three-fourths of a pound heavier.

The building in Pie alley, off News-paper row, which has contained the drinking place that has been the delight of statesmen, professors, Harvard students and plain common folks, is to be torn down for a modern office building.
The "Bell-in-Hand" was started in 1795,

by Jimmie Wilson, the town crier. Only the electric lights and the cash register are now of the present day, the chairs and tables being carved with the initials of the dead of many years. The ceiling was low, and covered with old paintings, including a picture of John the Baptist, 300 years old.

Official Indictment Of Jefferson Davis

The official indictment for treason of efferson Davis, president of the Southern Confederacy, upon which he was arrested in Georgia, but never tried, is one of the most interesting documents that have to do with the civil war. Mr. Davis was carried as a prisoner to Fortress Monroe, where he remained two years and was released without being arraigned for tilal. A reward of \$100,000 was offered for his arrest after he was indicted.

As it is claimed that the original indictment has been lost or stolen and that very few copies are extant, the following, which was published from the original in 1866 and which is copied from the scrapbook of an Atlanta lady, will no doubt be read with con-

siderable interest Indictment of Jeff Davis.

HE NEVER SAW NAPOLEON. (From The Newfoundland Quarterly.)

King Edward VII. as a boy worshipped Wellington, who lived for eleven years after the birth of the future king. One morning the young Prince of Wales displayed with pride a drawing which he had made representing Napoleon on horseback leveling a pistol at the head of the duke, who was advancing with sword drawn to the enemy. Just at this moment the Duke of Wellington entered the prince's room. "You are just the man I want to see " cried the boy, holding up his picture in

Three hours elapsed before Christobel was dislodged from her window.
This was done when Cattleman Ross secured a pulley and ropes with which she was lowered to the sidewalk out of the window.

All Suffrage Forces Work for Success of "Your Girl and Mine"

The three suffrage associations that exist in Atlanta are combining forces to work for the great suffrage melo-drama, "Your Gil and Mine," which is to be at the Grand March 11 and 12. The Atlanta Woman's Suffrage league, of which Mrs. Woodali is president, made the arrangements to get the play to Atlanta. She then in vited the other associations to help sell tickets and give publicity to the play, to which they agreed.

Charming Silk Frocks

Full of spring fashion notions, and such quaint, pretty ideas! Soft, clinging silks and crepes, lustrous satins and shimmering taffetas make up these new dresses, and they're fascinating,

Some have the new high necks, long chiffon sleeves, and that higher waist line; so much talked about, is quite in evidence. There are tucked skirts, and ruffled skirts, and flare skirts, and skirts that suggest the days of your grandmother.

They are truly bewitching, and you may have them in the pretty sand or putty shades, and the new blues, or black.

Sand and Putty Shades

Someone has lately said that dresses of these shades are only successful when self-colored, and we agreed with them—till this lot of dresses came in. And behold, there are some combined with dark blue, or old blue, or the new Egyptian blue-which has a dash of green in it—and the effect is charming.

Much silver and gold is seen in the trimming effects, and you will note the military touches, in braids, ball buttons, etc.

There are coat dresses, suspender dresses, very high-waist dresses and hip-girdle dresses.

Chiffon and taffeta is often combined, both in bodice and skirt.

They are dresses of much distinction of styleyet are decidedly practical—and moderately priced.

NATURAL HEALTH

The Facts About an Interesting Case of Serious Female Trouble Benefited by the Use of Cardui.

Rothrock, of this town, says: two years ago I was in very bad health or three or four months.

At this time I had a serious female trouble, which lasted severely for nine weeks. I got awfully weak and could scarcely go, and my doctor said I ought to be in bed.

My two sisters, who had used Cardui with good results and who now use it as a tonic, recommended it highly to I felt if I lived I must have some thing to thelp me, and as other medi-cines had failed to relieve me, I thought I would try Cardui, the woman's tonic. At this time I was almost skin and bones.

I seemed to improve after the use of the second bottle of Carduil The trouble stopped, I suffered less pain, and began to get back my strength and health. I took five more bottles

and health. I took five more bottles and got back my natural state of health, also my flesh, and could do my work easily.

This spring I was run down in health; had over-worked myself. I took nearly three bottles of Cardui, as a tonic, and it brought me back to my natural state of health.

Last week I put up 78 jars of fruit, which I could not have done before taking Cardui. I am glad I heard of it, and I hope other women will too. Your case may not be as had as the above, but even if only a mild case, we suggest that you begin today to try Cardui; the woman's tonic.

The apartment was gay with jonquils and in the dining room a handsomely appointed tea table had as its centerpiece a silver basket of yellow Shasta daisies. The silver candlesticks had yellow shades and the canies were yellow.

Miss Margaret Grant and Miss Virginia Lipscomb poured tea.

Mrs. Gay was lovely in white tulle and she wore a corsage bouquet of pink roses.

Mrs. Slicer was gowned in light blue satin and pearl embroidered net.

Mrs. W. D. Ellis, Jr., gowned in blue satin charmeuse, received with her daughter, and the guests were a congenial company of the married friends of Mrs. Gay and her mother.

When you talk about buying ten cents or one dollar's worth of any foodstuff, what do you mean by "worth?" The only measure of genuine worth in the purchase of catables must be nutrition. But do you keep nutrition in mind when you buy the family provisions? Let us see,.

Meat is probably your biggest item. Yet no less an authority than Dr. Hutchison, the dictitian, says that meat is a dear food. Why? Because we pay far too much for the amount of nutrition that we secure. Meat contains 75 per cent water—think of that when sirioin is chalked up at 350 a 1b.—three-quarters water?

Now, take Faust Spaghetti, made from Durum wheat, a rich, glutinous cereal. Of spaghetti and its allied products, the same authority says that they contain only 10 per cent water, and these foods are absorbed almost in their entirety—tgo to make blood, muscle and tissue. Faust Spaghetticosts 10c a large package—nearly all worth.

The Spring Note in Coats

The new Spring coat has arrived to tell its own fashion news. Its opportune appearance is appreciated when spring "storms in" in a wet February, and blows thru March, not waiting for its true emblem—the April sunshine—one is glad to see the signs of the season in the saucy little straw hats and the fresh charm of the new

Of course, everyone has welcomed the revival of Covert—the true coat fabric—one long remembered as a favorite.

Not only is it welcomed but expected as a natural sequence. \ All good things come back—even in fashion and fabrics. In beautiful soft finish and soft biscuit shade, with flare skirt and belted

Positive Relief For Constipation

The progress of modern medical science is, perhaps, no more forcefully evident than in the sumplifying of many of the old time remedies of past generations. For instance, the harsh cathartics and violent purgatives used by our forefathers to relieve constipation are now known to be not only unnecessary but really harmful. Constipation can be more effectively relieved without the discomfort and pain these old-time remedies occasion.

A combination of simple laxative herbs with pepsin, sold in 'drug stores under the name of Dr. Caldwell's Syrup Pepsin is most effective, yet mild and pleasant. It is absolutely free from opiates and narcotics and equally as desirable a remedy for the 'tiniest babe as for rugged manhood. A free trual bottle can be obtained by writing to Dr. W. B Caldwell, 452 Washington St, Monticello, Ilis.

Well-Known Automobile Man Moving Spirit of Proposed Organization.

Taxicabbing from the Terminal station to any hotel in the city for a nickel will be the pleasure of the future traveler of Atlanta's streets, if traveler of Atlanta's streets, if "jitney" bus organization proposed, materializes, as expected.
One of the moving spirits in the proposed "jitney" plan is George W. Hanson, of the Oakland Motor Sales company, one of the city's best-known automobile men. He was in conference yesterday with George Kelley, an au-tomobile man, of Birmingham, who has

observed "jitney" bus operations in other cities, and who has come here with a view of taking up the local situation. Another "jitney" bus promoter, Glenn Nichols, of Houston, Texas, owner of successful "jitney" lines in New Orleans, Houston and San Antonio, was also in Atlanta yesterday

looking over the field with a view of interesting himself. In event the proposed "jitney" or-ganization is promoted, it will be launched with a capital between \$25,000 and \$35,000. Anywhere between twenty and fifty machines will be put upon the streets to ply the principal downtown and residential thorough-

upon the streets to ply the principal downtown and residential thorough fares.

One of the most important schedules would be operated from the Terminal station every ten minutes via the downtown hotels out Peachtree street to the Georgian Terrace. Other lines will be organized through Peachtree and Whitehall streets and Edgewood avenue.

Mayor Woodward, it is understood, will be consulted today. The success of the innovation in cities along the Pacific coast, where it has been given a more extended tryout, assures Atlanta of an early demonstration. In Portland, Ore., and Seattle, Wash., it is estimated that the "litneys" are doing a weekly business of \$19,000 and \$20,000.

Mr Hanson stated to a reporter for The Constitution last night that in all probability "jitnles" would be plying the streets within the next week or so.

"I am in accord with any movement that is beneficial to the city's progress and welfare," he said, "and I really beleve that the "jitney bus would be one of the most popular and beneficial innovations Atlanta could possess."

MUSCOGEE IS PLANNING CREDIT FOR GRAIN CROP

Columbus. Ga. February 3.—(Special.)—Wide interest is manifested in the conference of farmers, merchants and bankers planned for Columbus in April, during the home-coming week that has been inaugurated by the local chamber of commerce.

A very important feature of this conference is to plan credit for grain crops

ferency is to plan credit for grain crops
farm credits in this section, as over most of the cotton belt, have been largely on a cotton basis. Planters are now breaking away from the one-crop idea and the necessity of a more comprehensive credit system is apparent. Supply men who sell to farmers have not fully outlined their policy for the year, except that the general tendency is to make the annual advances as small as possible. This very conservative policy will in itself substantially reduce cotton acreage, as it will be necessary to pay more attention to food crops.

TORREY MAY CONDUCT REVIVAL AT ATHENS

Athens, Ga., Kebruary 9.—(Special.)—Ministers of several evangelical churches of the city are planning to invite R. E. Dr. Torrey has a daughter finishing her course at Brenau conservatory, and another married daughter living at Elepton, and its hoped that these circumstances will be inducements to secure his services here.

Columbus Theater Bought.

Columbus, Ga. February 9.—(Special.)—W. S Gillis, W. H. Tolbert and George N. Murah have bought the Bonita theater and will take charge March 1. R. E. "JITNEY BUS" COMPANY Atlanta Boy Loses His Life On French Battlefield While Fighting for Native Country

His parents, residing in French territory occupied by Germans, are unaware of his fate, but relatives in At-Henri Loridans, former Atlanta youth and graduate of the French National School of Arts, lies in an unmarked grave near the battlefields of Valmy, where he was slain in the great battle which has been given the name of that village.

Because of the ban put upon mails and communications with native inhabitants of the lower French territory occupied by the enemy, his parents do not know of his death. Charles Loridans, an uncle living at 212 Ponce de Leon avenue, has been officially notified by the French government.

Up until the opening of the European war, the slain youth had been in charge of the Southern Ferro Concrete company in construction of plants in Jacksonville and Atlanta. He made his home with the family of Charles Loridans on Ponce de Leon avenue. He had been a resident of Atlanta three years He was only 22 years of age.

Young Loridans was a native France and a civil engineering graduate of the National School of Arts et metiers of Chalon. He was of a congenial disposition and quite popular with a wide circle of friends. Immediately at the beginning of the war across the sea he enlisted with the 48d regiment of infantry on the eastern French battlefield.

These Are the Flags of France, Belgium and Rumania

Here they are as they appear in black and white. There is absolutely no difference in them. To all intents and purposes they are identical.

But suppose we should add the proper colors to each, the sameness would immediately be lost, and each flag would stand out as an individual, a striking representative of what it stands for.

Now, do you see the analogy to the use of paint in advertising? Color is truly distinctive, gripping, interesting; it possesses a psychological attraction that cannot be eluded.

Color means power in advertising; and Bulletin Boards are the most powerful of all colored display. Augment this Color value of Bulletin Boards with the advantages they possess in Size, Location, Persistency, Lack of Competition and Economy; and you have the ultimate in advertising, a combination of every feature that is best in publicity.

es in yesterday's late trading. The
ies, however, were about as expectwith private advices indicating a
ter demand for spots and the marhere soon steaded on trade and
all street buying.
The nervousness so general here tonid the end of last week, owing to
pirchensions of an unsettled shipng situation, appeared to have been
theved by the continued free clearnees, and white there was some Euroean selling, prices gradually worked
hout 4 to 5 points net higher. The
alk was that houses with European
connections sold contracts to the
amount of about 10,000 bales against
purchases of actual supplies in the
south, and it was believed the sales
reflected the liquidation of old hedges.
The offerings were well absorbed, but
the market eased off a few points during the afternoon, under realizing.
There were small buying orders all

Sold and Bought Back.

New Orleans, February 9.—Price
St.

New Orleans, February 9.—Price movements in cotton today were narrow, the market standing 5 to 6 points under sesterday's final figures at the lowest, and 4 to 5 points over at the highest. The close was at a net decline of 1 point to a net rise of 1 point. In the early trading, prices were depressed by short selling of scalpers, but this selling was met by a quiet demand which, it was said, came from spinners and spot interests. A large part of the cotton sold short in the morning was later bought back at higher prices.

TO MARKET FOOD CROPS. M. Gaston Heads County Organization.

Jackson, Ga., February 9.—(Special.) At a mass meeting of titizens held in the courthouse in Jackson, it was decided to establish a market for the handling of all kinds of farm products, particularly food crops. This market will be in charge of J. M. Gaston, genwill be in charge of J. M. Gaston, general manager of the Farmers' Union warehouse, who has made a marked success of that institution. Copn, hay, oats and wheat will be handled in any quantities up to calload lots. The citizens of the community will be instructed in the best methods of preparing their products for market, and will be taught, in the beginning that their products must be equal in quality to those grown elsewhere.

There is county-wide interest in the movement. The merchants of Jackson have promised to handle all the farm products grown. It is pointed out that a market is needed before the people can get away from the all-cotton idea. The farmers of Butts county are arranging to plant largely of food crops this year, stimulated by the idea that they can find a ready cash market for all the foodstuffs they can raise.

Chicago, February 9.—Revival of foreign buying more than offset an increase of country offerings today in wheat. As a result, the market closed steady at % to % net advance. Corn gained 1% 1% 1% 1 net, and oats % 1 to 1%. In provisions the outcome was 10 to 12% to 35c decline.

Wheat traders, who usually act for seaboard export houses, were conspicuous in the purchasing here of the May delivery, and it was said a good deal of European business was done at the seaboard, but not ade public. In addition, cash handlers here were known to have sold 120,000 bushels for export by way of the gulf and to have received bids for more.

Corn showed strength from the start. A sharp falling off in the movement from the country helped to advance prices and there was an improvement of export demand.

Oats developed unusual firmness despite freel profit-taking by holders.

Heavy receipts of hogs acted as a weight on the provision market.

New York Stocks.

New York. February 9.—Cotton seed oil gave signs of heaviness early under cheaper crude offerings, increased seed movement and the lard weakness, but a sharp upturn occurred during the late trading on netive support from a large refiner and covering of local shorts. New York. February 9.—(Special.)—Liverpool surprised every one by advancing in face of the pessimistic tone of our trade, who do not feel the improved condition of affairs in Manchester, due, of course, largely to contracts for war supplies. Our trade here continues to be very bearish, and do not believe the advance abroad can be sustained. They feel the large export takings for the past two weeks represent old business at lower prices for cotton, and that the demand will not continue. There seems to be little speculation, but the investment holders still retain the larger portion of their purchases at lower levels.

New York, February 9.—(Special.)—The market today maintained a steady tone, owing to the support of Liverpool and local spot firms, whose buying was large enough to absorb the miscellaneous selling that occurred. Although local wentiment is in favor of lower prices, the absence of southern pressure, combined with the willingness of the trade to buy at small declines, prevents any material change towards at cheaper level.

BOWDEN SIGNS UP: Jack White's Seconds Throw Up Sponge in Eighth Round; Great Fight Card Is Staged

Jack White's seconds threw up the sponge in the eighth round of the scheduled ten-round bout with Frank Whitney, the 'Fighting Carpenter," of Rapids, Iowa, at the Bijou theater last night.

D. Timeon Bowden, the former University of Georgia baseball and football star, has signed his contract to play with the Crackers during the coming season.

Bowden, accompanied by Rip Reagan, manager of the Charleston club in the South Atlantic league, and both McDonough, Ga. boys, made the trip to Atlanta yesterday in an automobile.

Bowden had a brief conference with Manager Smith, expressed his delight over coming here, his satisfaction over the terms of his contract and his willingness to give the Crackers the best that he has in shop at all times.

The first and second rounds were Whitney's by a shade, left jabs to the face landing him the points in the first round and a strong finish at the end of the second, giving him a shade in this round.

The third round was even, with pretty exchanges head to head by both men. The fourth was White's only round of the fight. In this one he rocked Whitney's head with left hooks. jabed, each landing several terms blows.
Whitney's powerful straight rights, short left hooks and right uppercuts had White in a bad way in the seventh round, closing his left eye and bringing the claret from his smeller.
It was a wonderful fight up until the sponge-tossing ended it, and the fans were yelling like a bunch of Comanches.

FREDDY WELSH FAILS MERCER FIVE PLAYS TO WIN A ROUND!

The Mercer university basketball team will be the next opponents of the Shugrue; the Jersey City lightweight, again proved too much for Freddy Welsh, world's champion of that class, in a 10-round bout at Madison Square Garden here tonight.

In their previous meeting here, Welsh had the better of it in only two rounds, but in tonight's battle his best efforts earned him no better than an even break in two rounds—the sixth and seventh. Shugrue led in the others. The boxers weighed in, as agreed, under 135 pounds at 3 o'clock this afternoon. Their ringside weights were: Welsh, 135½; Shugrue, 135.

Welsh fought fast, but Shugrue showed marked improvement in cleverness. In fact, the Jersey boy at times outboxed the champion and was far better in the mixups. He met Welsh coming in with stiff punches to the body, while the Englishman frequently sent over hard lefts to the face. Many times Shugrue surprised the onlookers by blocking these lefts and caused the champion found it necessary to fight his best to make a showing against Shugrue's heavy work. Neither showed any marks of the battle. team will be the next opponents of the Atlanta Athletic club.

The Baptists will come here tomorrow night for a game with the locals, the eleventh game of the local season. The A. A. C. five believes that they can make it six straight wins and the tenth win in eleven games played during the season.

This game must be won for the locals to continue to have a look-in for the championship of the south.

CRACKERS TRAVEL 21 PLAYERS FOR OVER 9,000 MILES

Manager Smith, of the Local Club. Not Pleased With the Tentative Schedule He Has Received.

Manager Smith, who is back on the job again, after a brief illness, is not at all pleased with the schedule that the schedule committee of the South-ern league drafted.

The schedule calls for the Crackers to travel over 9,000 miles during the coming season. New Orleans being the only team in the league that has more mileage than the Crackers.

Then, too, there are several long jumps during the season that the Crackers have to make, for instance, Mobile to Nashville, that does not appeal to the local magnate.

Furthermore, the Crackers close the season away from home playing no less than five straight series on forcing territory the last of the season. All these complaints will be thrashed out at the meeting to be held in Little Rock on February 20. coming season. New Orleans being the

With the above standing, and the three above games scheduled to be played tonight, the six clubs in the local Y. M. C. A. basketball league will wind up their 1915 season.

The league has known a very good year, and in every instance all games have been hard fought and closely contested affairs.

The Winnebagoes, who are leading the league with a perfect percentage, will no doubt fluish with this record unbroken, inasmuch as they should win their game tonight easily.

The best game that will be played will be the Mohawk-Cherokee setto, which will be for third place. These two teams are tied for third place, and as they are very evenly matched, a flerce game should result when they tie up.

New Player Limit Stands. Umpires Named—Schedule to Be Ratified Today Trades Also Likely.

New York, February 9.—Although the principal business for which the National league club owners gathered here for the annual schedule meeting, which began today, was to ratify and adopt the playing dates for the coming season, that matter was laid over until tomorrow, when the schedule will be taken up immediately after the meeting reconvenes in the forenoon.

At the session of the board of directors which preceded the regular meeting today, President Tener announced that he had appointed as umpires the following: R. D. Emslie, William J. Klem, Mal Eason, William Byron, E. C. Quigley, William Hart and Al Orth. George Cockill, who was manager of the Harrisburg club of the Tri-State league, was appointed as a substitute umpire, but there is still a vacancy to be filled on the regular staff. Charles Rigler has not been signed so far. Secretary John A. Heydler stated that no application for a position had been received from Henry O'Day.

New Player Limit.

Instead of revoking the edict that no players be sent into training camps by any club before March 1 each year, this was made a hard and fast rule and read into the constitution. Similar action was taken as to the revision of the player limit from 25 to 21 adopted at the December meeting. The New York club representatives tried to have the limit raised to 22, but this was voted down. In addition, all player managers who participate in one or more games during the season are to be included in the player limit of 21, which will be the maximum from May 1 to September 1 each year.

Chairman Herrmann, of the committee on constitution, submitted an amendment providing that there shall be no recall after a waiver has been asked on a player. It will be discussed tomorrow and probably will be adopted. A letter was received from the International league asking for permission to place a club in the Bronx borough of this city, but no action was taken in the matter. Every club in the league was represented at the meeting, which adjourned late in the day until 10 a. m. tomorrow.

meeting, which adjourned late in the day until 10 a.m. tomorrow.

Managers Bresnahan, of Chicago; Moran, of Philadelphia; Herzog, of Cincinnati, and Huggins, of St. Louis, held several consultations while the meeting was going on. Rumors of the frades, and exchanges were flying about but no names were mentioned Manager McGraw, of the local club, is due here tonight from his Cuban trip, and it is expected that the exchange market will take on a lively tone when these five get together tomorrow.

President Gaffney, of the Boston club, stated today that as Manager Stallings is detained through illness at his home in Haddock, Ga., the selection of Boston, players to complete the Sherwood Magee deal with Philadelphia will not be made until Stallings is able to take active part in the club's management again.

After a conference with President Gaffney, of Boston, Leslie Mann, of the Braves, sent a telegram, which it is believed was an acceptance of Federal league terms. Gaffney showed his last letter to the player, offering him a \$3,000 contract, with the ten-day real league terms. Gaffner showed bis last letter to the player, offering him a \$3,000 contract, with the ten-day clause, while Mann is holding out for \$3,500, with the clause omitted. Gaffney informed the player that \$3,000 was

GEORGIA-ALABAMA LEAGUE WILL BE

Rome, Ga., February 9.—(Special.)—
That the Georgia-Alabama league will unquestionably be reorganized for the coming season, although it may be reduced to a six-club circuit, is the announcement of the local directors who have xeturned from a meeting of the league at Talladega, Ala.

The salary limit was reduced to \$750 a month, and the player limit to twelve. All of the clubs with the exception of Opelika and Newnan were represented. Officers were not chosen, but will be selected and the schedule framed at a meeting to be held on February 16th. At that time the directors will decide whether the league shall have six or eight clubs.

SENATE FIGHTS ALL NIGHT TWO HIGH SCHOOLS

Continued From Page One.

strength commanded by the administration forces when Senator Clarke, of Arkansas, moved that the senate adjourn until noon tomorrow. They had hoped that Senator Norris, progressive republican, would not stand with the democratic imajority on the motion. Senator Norri's, however, voted against adjournment, as did Senator La Fol-lette. Senator Kenyon voted with the administration forces for the first time

Had the opposition alliance forced adjournment republicans had planned to try to displace the bill tomorrow by a motion to take up for considera-tion the postoffice appropriation meas ure and such an attempt may yet be made. Should it succeed administra-tion leaders probably would be unable to get the pending measure before

Democratic Leaders Confident. In the light of the vote tonight, democratic leaders were confident their lines would hold although some re-publicans intimated that Senator Norris might soon desert the majority unless the filibuster could be broken and the continuous session ended.

After the strenuous all-night session Monday, the day in the senate was an exciting one, enliyened by parliamentenators O'Gorman and Hitchcock asthe president's attitude on the measure. President Wilson took occasion dur-ing the day to reassure callers that there was no intention of withdraw.

ing the bill, even should it be neces-sary to call an extra session. If opponents of the bill can prevent a decisive vote for many more days an alternative plan of getting the bill through has been suggested. The plan would be for house leaders to call up for passage the bill introduced by Senator Weeks early in the session, which passed the senate, providing for turning over some ships of the navy formall and commercial service between, New York and South American ports. With this bill before the house it would be part of the plan to attach the ship purchase bill as an amendment and to pass the amended bill under a special rule. Administration leaders in the senate would move to concur in the house amendments to the Weeks bill, and upon this, it is be-lieved, a record vote might be forced. It is, said this plan has been discuss-ed at the white house, although no one

would admit it tonight. Order to Arrest All Absentees. Some indications of the wearing ef-fects of the long hard fight were coming out in the senate, however, and Senator Reed, one of the administration democrats, proposed an order for arrest of all absentees and compul-sory attendance by all senators until the bill was disposed of. His proposal drew a roaring attack and gave prospect of furnishing material for an ill day's debate. Meanwhile the ship bill itself was waiting, practically where it has been for the last two

Debate on Senator Reed's proposal was tinged with intimations of some sort of cloture if the deadlock con-

Drastic steps were adopted by demo-crats today to break down the oppoance of all opposition senators. Soon after Senator McCumber began speaking Senator Fletcher got an order passed for arrests of Senators Bankhead, Borah, Burton, Camden, Catron, Goff, Hard-wick, Hitchcock, Lodge, Oliver, O'Gorman, Root, Sterling, Sutherland, Var-daman and Weeks, all absent.

Senator Reed presented an order to compel each senator to remain in the chamber until excused. Senator Galliger denounced the proposal as out-rageous and a long debate followed. Senator Reed, defending his pro-posal, declared the republicans had organized a relay to allow part of their forces to rest while others

Bankhead Aids Republicans.

At 10:45 Senator McCumber, who had spoken for several hours, yielded the floor to Senator Bankhead, who moved that the senate adjourn. The, motion was lost by a tre vote, 44 to 44.

Senator Fletcher, in charge of the bill, then took the floor to present documents supporting the democratic contention that there was immediate need for the enactment of the bill to relieve an emergency.

Senator Fletcher read telegrams of recent date from customs collectors along the Atlantic scaboard telling of frieight congestion, which bade fair to grow worse because of the lack of ships.

While Senator Fletcher was talking six members of the cabinet, some of them accompanied by their wives, entered the gallery. Secretaries Bryan, Garrison, Danuels and Lane, Postmaster General Burleson and Attorney General Gregory, with J. P. Tumulty, secretary to the president, sat in a group listening to the debate.

After nearly two hours' debate, vice President Marshall ruled further dispression of the proposal out of order, and Senator Brandegee appealed from the decision. Benator Reed moved to lay the appeal on the table, but his motion was defeated—38 to 36—the seven insurgent democrats voting with the republicans. Senator La Follette, republican, voted with the democrats.

In beginning the night attack against the bill, senator McCumber, of North Dakota, charged that the democrats, within the last tew days, had "demonstrated their incompetency to manage the affairs of this great nation."
