

DORSEY TO FIGHT FRANK PETITION BEFORE GOVERNOR

Sends Letter to Slaton Asking Permission to Appear Before Him to Oppose the Plea for Commutation.

SLATON SENDS LETTER TO SOLICITOR DORSEY

Understood Solicitor Will Present New Affidavits and Protest Against Commutation to Governor.

Solicitor Hugh Dorsey will appear before Governor Slaton and make a fight against the appeal for commutation for Leo M. Frank.

This was definitely established when correspondence passed between the solicitor and governor last week.

Governor Slaton, reached over telephone last night stated that he had replied to a letter received from Solicitor Dorsey to the effect that "he would be pleased to grant his request in event the Frank case came to his official notice."

It is understood authoritatively that Dorsey is in possession of a large amount of data and evidence which he intends to submit to the governor.

CARRANZA AND ARMY FLEEING IN ROUT

Great Victory Claimed by Carranza—Villa's Trains and Artillery Captured. Informal Efforts for Peace.

Vera Cruz, June 6.—Defeat of the forces of Generals Angeles and Villa, the capture of the town of Leon and of all of Villa's trains and artillery is announced in a report of General Obregon, of the Carranza army, received here today.

W. S. WARDLAW WILL BE ELECTED NEXT PRESIDENT OF LOCAL UNION

The nomination of officers for the ensuing high year and the unanimous endorsement of a proposition to reduce car fares in Atlanta by the elimination of transfers were taken up at an overflow meeting of the Atlanta Typographical union in the Labor temple Sunday afternoon.

Mrs. Edwin R. Haas Bruised When Electric Plunges Over a Bank

When the electric of 92 Waverly way, Inman Park, plunged over a twenty-five-foot embankment at the western end of the Edgewood avenue bridge, and landed at the Atlantic company's warehouse walls, Mrs. Haas was slightly cut by broken glass, but she and her husband otherwise escaped injury.

UNITED STATES BRANDS TWO SO-CALLED CITIZENS

Passports of Raines and Recknagel Revoked for Attacking Wilson in German Press.

Berlin, June 6.—(Via London).—The passports of two American citizens living at Dresden—Leon Raines and Karl Recknagel—have been ordered revoked by the American embassy, on instructions from the state department at Washington.

HOSTS OF COUNTRY MEET IN ATLANTA

Greeters Will Be Welcomed to City by Mayor Woodward at 10 O'Clock This Morning.

Howdy do! Glad to see you! What'll you have? Best thing in the hotel? Sure. You deserve it!

The advance guard of the Greeters of America, that organization of fraternal knights of the road and the eternal gladhand incarnate, the hotel clerk, arrived in the city Sunday.

George A. Dixon, whose home port is San Francisco, president and high mogul of the whole outfit, together with half a hundred others, have into town Sunday morning.

Some Hotels Here. The Sunday arrivals spent the afternoon sauntering about and observing the town, the hotels in particular.

More of the Greeters will arrive this morning, and before sunset there will be approximately 200 of them here from all sections of the country.

A delegation of 125 will arrive at the Union station this morning at 7 o'clock from Chicago, Minneapolis and other middle western points.

Three Days' Session. This early morning welkin-splitting salutation will officially initiate a three days' session marked with important deliberations and remarkable celebrations.

The men, it is said, adversely criticized the American government in the present crisis, and declared in a newspaper article that they were ashamed of their citizenship.

Washington, June 6.—It was explained tonight at the state department that the passports of Leon Raines and Karl Recknagel had been revoked because of their published attacks on the American government.

As the giving of passports is a courtesy on the part of the state department, the privileges were ordered revoked through Ambassador Gerard on the ground that the men violated their allegiance.

Revocation of the passports makes it practically impossible for either Raines or Recknagel to return to the United States before conclusion of the war.

FRENCH GAINING IN FIERCE DRIVES AT GERMAN LINES

Invaders Are Forced to Give Ground to the North of Arras and at Other Points.

LOSSES OF THE GERMANS REPORTED TO BE HEAVY

Berlin Admits That Ground Has Been Lost in West. Struggle in Galicia Continues With Varying Fortune.

London, June 6.—Considerable gains by the allied forces in France are reported by Paris. Berlin admits two reverses claimed by Paris—at Neuville-St. Vaast, where the Germans have lost two groups of houses, and the relinquishment of a sugar factory at Souchez.

Gains on the western front claimed by Paris are on the sector north of Arras and at Neuville, where trenches south of the "labyrinth" have been taken, and north of the Aisne, where after a bombardment two successive lines of trenches and several German works were captured and counter attacks repulsed.

Germany reports the repulse with heavy losses to the allies of attacks on the eastern slope of the Loreto height. Two battles are in progress in Galicia. The Russians have made a considerable advance on the lower reaches of the San and have driven the Austro-Germans back to the Leng river, while to the southwest of Lemberg the Austro-Germans are advancing, although the Russians are contesting every inch of the roads to the Galician capital, which is the objective of the Teutonic allies.

NOTABLE GAINS FOR THE FRENCH

Paris, June 6.—The following official communication was issued by the war office tonight:

"In the sector north of Arras the struggle continues with extreme activity and to our advantage. We have delivered several favorable attacks on the two sides of the road from Arras-Neuville to Souchez, and gained some ground in the wood east of that road, and to the south, in the region of the Fond de Bural.

"At Neuville St. Vaast our progress continues. In the northern part of the village we have carried several houses and at the same time tightened our investment of an enemy shelter in a group of houses northwest of that locality, and have occupied the passageway leading to it.

"We have captured new trenches in the center line to the north of the Leobry and have advanced about a hundred meters. The struggle has continued without interruption for eight days in that great work, two-thirds of which are now held.

"North of the Aisne, east of Tracy-le-Mont, on the neighboring heights of Moulin-Sous-Touvent, we delivered an attack which realized important gains. On a front of one kilometer (about two-thirds of a mile) we captured, with a single effort, two successive lines of trenches and several enemy works.

"Three violent counter attacks were repulsed by our troops who took more than 200 prisoners and three 77 guns. In Champagne, near Beaussieux, we have progressed to the mine on the heights of the Meuse. In the Vosges there have been artillery engagements.

A statement issued during the day said: "In the region to the north of Arras the enemy undertook yesterday evening a violent effort to recapture positions lost recently. The whole of the Arras front, from Neuville to Souchez, underwent a bombardment most continually and energetically.

"Five German counter attacks were launched on the slope east of the Loreto height. The counter attacks have been ineffectual in the wood to the east of the road from Arras-Neuville to Souchez.

"The German offensive was overwhelmed everywhere, inflicting heavy losses on the enemy. Between Neuville and Souchez we took several trenches of the enemy, in which we made about thirty prisoners.

GERMANS ADMIT FRENCH GAINS

Berlin, June 6.—(Via London).—The war office issued today the following statement:

"West: Attacks on the eastern slopes of Loreto heights were repulsed with heavy loss to the enemy. Fighting continued in the wood east of that road, and to the south, in the region of the Fond de Bural.

"East: Our offensive in the region of Northeynere the southern and northern forces have joined, gained us ground toward the east. Fighting continued in the wood east of that road, and to the south, in the region of the Fond de Bural.

"Farther south, near Ugligny, an attack made by a Russian division was repulsed. South of the Niemen German troops are driving back divisions of the enemy to the Sopotak-Wilowitsky line.

"Southeast: East of Przemysl German and Austrian troops have driven back the enemy as far as the district northeast and southeast of Mociaska (25 miles east of Przemysl) and the district of Gensow near Linsingen (30 miles east of Przemysl), and is about to attempt to force crossing of the Dniester, near this place. Farther south the pursuit continues.

"Southwest: Salt Lake City has indicated that she would take great pleasure in becoming the next convention city.

Meanwhile the matters of a uniform constitution and a complement fund will occupy the profoundest thought of the deepest deliberators.

Altogether it would appear that the Greeters will stage some conventionalizable

TURK FORCES DRIVEN AT THE DARDANELLES BY CHARGE OF ALLIES

Two Lines of Moslem Trenches Are Captured and Held Along a Front of Nearly Three Miles.

ALLIES USED BAYONET ON THE TURKISH TROOPS

Losses of the Turks Very Heavy—In Mesopotamia the British Forces Have Defeated the Turks—More Than 2,000 Ottoman Soldiers and Many Guns Are Taken.

London, June 6.—The allies, in their offensive on the Gallipoli peninsula on June 4, captured and held two lines of Turkish trenches along a front of nearly 3 miles. In Mesopotamia the British forces have received from the Turks the surrender of Amara and taken more than 2,000 prisoners, 12 guns, a gunboat, barges and steamers. The pursuit of the Turks who were dispersed into the marshes continues.

As in all trench warfare, the allies found their general advance on the Gallipoli peninsula hindered through the inability of part of their force to penetrate wire entanglements which artillery fire had not sufficiently destroyed. This left other sections of the force open to an enfilading fire, and, therefore, part of the ground gained had to be given up. Some also was lost when the Turks counter attacked.

A gain of 500 yards on a front of 3 miles in this sort of fighting, however, is considered satisfactory by the British, particularly in view of the fact that owing to a Turkish counter attack, in which they suffered heavy losses.

General Drive at Turks. The official statement says: "On the night of June 3-4 the Turks, having heavily bombarded a small fort in front of the extreme right of our position, which previously had been captured, launched an infantry attack against it, which was repulsed with heavy losses to the enemy. At the same time they set fire to scrub in front of the left center of the wire entanglement and succeeded in their attack."

On the morning of the 4th of June Sir Ian Hamilton ordered a general attack on the Turkish position in the southern area of the Gallipoli peninsula, preceded by a heavy bombardment by the British fleet.

At a signal, the troops rushed forward with the bayonet. They were immediately repulsed but owing to a Turkish counter attack, in which they suffered heavy losses, the wire entanglement was not destroyed by the bombardment.

The Turkish troops on our extreme left made a magnificent advance. They captured two lines of trenches and a number of prisoners. The regular division made good progress on the left center, capturing a strong redoubt, two trenches beyond it, about 100 yards in advance of their original line.

Took Three Lines of Trenches. "The territorial division on our center did brilliant work, capturing three lines of trenches, but though the advanced captured trench was held, all the other trenches were abandoned. They had to be ordered back in the morning to the second captured line, as both their flanks were exposed to the enemy."

The naval division on our right center captured a redoubt, a formidable line of trenches, and a number of prisoners. They had to be ordered back to their front, but they, too, had to be ordered back, owing to the heavy enfilading fire.

The French second division advanced with great gallantry. They took for the night a strong redoubt which they call La Haricot, but unfortunately the Turks developed heavy counter attacks, and the French were unable to recapture it.

The French extreme right the French captured a strong line of trenches, which, though heavily counter attacked, held during the night, and was very costly.

"We captured 400 prisoners, including ten officers. Amongst the prisoners were 40 Germans, the remainder of a volunteer machine gun detachment from the Goeben (the Turkish cruiser Sultan Selim) and the officer who fired and the machine guns were destroyed.

Turkish Losses Heavy. "During the night, information was received that enemy reinforcements were advancing from the direction of Maidos toward Birdwood. Thereupon Lieutenant General Birdwood arranged for the capture of the Turkish cruiser and the machine guns were destroyed.

NEW RURAL ROUTES TO BE ESTABLISHED

Burleson Announces 710 New Country Mail Delivery Lines to Serve 82,390 Families.

Washington, June 6.—Establishment of 710 new rural mail delivery routes to serve 82,390 families and the extension of existing service to reach 5,480 additional families was announced tonight by Postmaster General Burleson.

Nearly all of the new routes will go into operation June 15, and postmasters have been authorized to employ necessary temporary carriers pending the selection of permanent men through civil service examinations.

Enlargement and extension of the rural service was made possible, a postoffice department statement explains, by a readjustment in April and May resulting in a reduction of operating expenses amounting to \$311,252.

Many routes have been consolidated with others, but it is said that few carriers will be dropped. Transfers are being arranged under which experienced carriers will be transferred to new routes.

Orders are now awaiting the postmaster general's signature providing for new rural automobile service in many localities. People on these routes who living within a radius of 25 miles will enjoy local rates. The first of the routes will go into operation on August 1.

SHADOW OF DEATH HANGS OVER KING CONSTANTINE

Condition of the Ruler of Greece Continues Extremely Critical.

London, June 6.—A Reuter dispatch from Athens describes the condition of King Constantine of Greece, as extremely critical. The message, filed at 11 o'clock last night, said anxious reports were surrounding the palace.

Telegrams received at the Greek legation from Athens, filed several hours in advance of the Reuter dispatch, were more reassuring. One timed 7:30 p. m. yesterday said the king's condition was "not immediately dangerous." An earlier telegram described the operation performed yesterday on the king as "serious but successful."

Athens, June 6.—An official bulletin issued at 7 o'clock this morning states that King Constantine's temperature at that hour was 104.15, pulse 140, respiration 38.

The king slept fitfully last night. His high temperature was attributed to the reaction following the operation for removal of part of the tenth rib.

FLEET AIDED LAND FORCES

Whole Turkish Front at the Dardanelles and a Gain of Considerable Ground Was Announced Today at the War Office.

The statement follows: "On the night of the 5th allied troops attacked the whole of the front, with the object of capturing the Turkish trenches along a front of nearly three miles. We are now continuing to attack the Turkish positions and strengthening the lines."

Weather Prophecy

Washington, June 6.—Forecast: Georgia—Fair Monday; expect showers Saturday; Tuesday probably showers.

Virginia—Fair Monday; Tuesday increasing cloudiness and warmer.

# ITALIANS BATTLE WITH AUSTRIANS

## First Important Engagement of Campaign Rages for Possession of Tolmino. Italian Warships Raid the Austrian Coasts.

London, June 6.—The first important battle of the Italian campaign is raging for possession of Tolmino, where the Italians have met with the first serious opposition in their advance across the Austrian frontier.

The Italian naval forces have carried out several operations against the Austrian coast points in the middle and lower Adriatic. They have cut the cable connecting the Dalmatian archipelago to the continent and destroyed by bombardments the lighthouses and lookout stations of the islands.

On the plateau of Lavaronne and Polgaria the superiority of our artillery in the bombardments of Austrian forts is becoming more and more manifest.

Rome, June 6.—(Via Paris.)—This official statement was issued at headquarters of the Italian general staff: "Minor operations of our troops continue all along the entire frontier from Stelvio to the sea."

Rome, June 6.—(Via London.)—The following official statement was issued by the war office today: "Naval detachments yesterday cut the cables uniting the continent to the islands of the Dalmatia Archipelago."

Berlin, June 6.—(Via London.)—General von Bissing, the German governor general of Belgium, recently was quoted as having criticized American relief work in Belgium and as saying that it was in no sense a charity, but that the Americans received payment for all grain and supplies furnished with the exception of certain clothing from the Rockefeller foundation.

Vienna, June 6.—(Via London.)—The Austrian war office has issued the following in regard to operations against the Italians: "On the Tyrolean and Carinthian frontier the enemy confines himself to a fruitless artillery fire, avoiding a closer range on our positions. In the region of Lavaronne and Polgaria we have now opened fire with our heavy artillery on the hostile frontier forts."

St. Petersburg, June 6.—(Via London.)—The Russian war office has issued the following in regard to operations against the Austrians: "The Russian army still has tremendous obstacles to overcome in an advance across the river."

region of Lavaronne and Polgaria we have now opened fire with our heavy artillery on the hostile frontier forts. On the front in the coastal district the Austrians are making more progress. In the fighting at Mone Nero the Italians have sustained considerable losses on the southern slope, 300 Italian dead being found.

The enemy's attempt to cross the Isonzo river near Sagrado has been repulsed.

A Messaggero dispatch from Venice says: "During the bombardment of Pola by an Italian dirigible balloon May 30, the Austrian warships anchored at the arsenal moved into positions where they could avoid danger. While doing so the battleship Erzherzog Franz Ferdinand was hit in a destroyer tearing a large hole in the side of the smaller craft. The destroyer quickly sank and the commander and a number of the battleship were damaged."

# Albany's Handsome Municipal Auditorium

Architect's sketch of Albany's Auditorium.

An Atlanta architect, A. Ten Eyck Brown, has been awarded a contract for drawing plans and supervising a new \$400,000 municipal auditorium at Albany, Ga., which is to be built by the proceeds of a special bond issue.

The main auditorium will have a seating capacity of 1,300 people, where public gatherings of all kinds will be held. This auditorium will also be used as a theater, and will be equipped with a large stage, erected along the same lines as the big arena of the New York Hippodrome, in semi-circular fashion. Ten stalls, fashioned after foreign theaters, will be placed around the rear of the theater.

The woman's club, will seat 250 people. There will be men and women's rest rooms on the second floor, and other private rooms of a similar nature. The building is to be a two-story and basement affair, construction of granite base, light brick for first and second floors, with terra-cotta cornices and trimmings of glass mosaic.

## NO LACK OF MUNITIONS FOR THE RUSSIAN ARMY

One of the Czar's Officers Says That the Supply is Adequate.

Petrograd, June 6.—(Correspondence of the Associated Press.)—"Is Russia short of ammunition?" is a question frequently asked even in Petrograd. A Russian army officer has published a reassuring answer.

"After the Japanese war," he says, "the army was reorganized and increased and special attention was devoted to the working capacity of the special arms factories, which in Russia are the property of the state. The factories were enlarged and improved and in several parts of the empire new factories were established."

"The method of production of rifles is so planned that every year the number manufactured is proportionate to the number of recruits liberated from active service. The life of a rifle in active service is fixed at twelve years, when it is replaced by a new one, so that in reality every Russian reservist of the first and second class has his rifle ready in case of mobilization."

"In regard to territorial forces there are used only for internal services there are in the military depots new model rifles which have passed out of active service and millions of the old model, still considered a wonderful weapon, especially for defensive purposes."

"As to shells and other kinds of ammunition there is a noteworthy method of production in raw materials, including copper and other metals. Russia is so well supplied that it could furnish the whole of the engaged armies. The capacity of the Russian factories is the question that needs an answer. It must be noted that all the Russian factories producing every kind of metal work were from the moment of mobilization transformed into armament factories, and they are fully engaged in this work. Russia being free of blockade and possessing splendid communications through Siberia with Japan and America, is able without difficulty to get from those countries material of any kind she wants."

"The damage to rifles during a battle is so insignificant that it is always covered by the material in a war army corps possesses. The Russian soldier is trained to guard his rifle like his eye and when severely wounded never thinks of parting with his weapon."

"The position is different with regard to machine guns. The losses in this class of weapon are sometimes very heavy and are replaced with more difficulty. This is why for years by the war office and Russia is completely supplied with this kind of weapon."

## RUSO-CHINESE TREATY IN REGARD TO MONGOLIA

Peking, June 6.—Representatives of Russia, China and Mongolia, who have been in conference at Kinkhat, Siberia, for nearly a year, have concluded a treaty which will determine the status of Mongolia.

"During the Chinese revolution of 1912 Mongolia declared its independence of China, and was recognized immediately by Russia as an autonomous state. Japan thereupon extended her sphere of influence over Inner Mongolia."

"By the terms of the agreement now reached China will retain a nominal suzerainty over Mongolia. Russia and China agree not to interfere with the administration of Mongolia's internal affairs."

"The treaty to this effect will be signed tomorrow by the representatives of three nations."

## SINKING OF GOLIATH BY TURKISH TORPEDO

London, June 6.—Reuter's Amsterdam correspondent sends the following report of the sinking of the British battleship Goliath in the Dardanelles in the middle of last month by the Turkish torpedo boat Mouvenet-I-Milleh.

"The British were in the habit of enfilading the Turkish flank on Morto bay, to end which Lieutenant Commander Firdi, who was the German commander of the Turkish torpedo boat Mouvenet-I-Milleh, was ordered to creep down the entrance of the Dardanelles at night and attack."

"Advancing close and ascertaining that two ships near-by were British, he manned the torpedo tubes. The Turkish ship began to dash recognition signals. The Mouvenet-I-Milleh discharged a torpedo which struck the Goliath under the bridge. A second torpedo hit her between the funnels and a third one on the quarter."

"In three minutes the work was over. There was a dull explosion and a sheet of fire and the vessel sank without a soul being seen on deck. The British torpedo boat doubled back at full speed, escaping the enemy destroyers. While the searchlights started the British torpedo boat closed in and received a hail of shot from the coast defenses. The Turkish boat returned safely to her base with her crew of sixty men, of whom fourteen were Germans."

## FAR-REACHING EFFECT OF A. B. C. CONFERENCE

St. Louis, June 6.—Delegates to the recent Pan-American Bilingual Conference left St. Louis for Chicago today on their trip of inspection of manufacturing cities. They dined here with a luncheon at which Frederick W. Lehmann, former solicitor general of the United States, told them that the Niagara Falls mediation conference to adjust Mexican affairs may not have accomplished exactly what it was aimed to, but that it undoubtedly had a far-reaching effect through South and Central America.

"One of the great accomplishments of that conference," said Mr. Lehmann, "is the fact that through the United States' prompt and friendly cooperation the offer of the three South American republics to mediate, are recognized as their equals the countries to the south of us. That act will continue to have its effect long after the details of the conference have been forgotten."

"The conference also emphasized the fact that the United States does not desire territory in Central or South America; that she is not seeking indemnity in gold, nor does she desire recognition through the humiliation of a sister republic."

# NO ROOM IS LEFT FOR GERMAN DOUBT

## In Note Which Washington Cables to Berlin Tonight or Tomorrow—U. S. Insists on Neutral Rights.

Washington, June 6.—President Wilson's note to Germany will be cabled to Ambassador Gerard Monday night or early Tuesday, according to word from the white house tonight.

The only reason for the delay, it was said, was the president's desire to make the phrasing of the note as explicit and unmistakable as to leave no room for doubt or further argument concerning the position of the United States government—that the right of visit and search must be exercised and passengers and crew of unarmed ships, on which neutrals are voyaging, transferred to a place of safety before any prize is destroyed by a belligerent warship.

Officials familiar with the contents of the note said it was a forceful reiteration of the principles expressed by the United States in its note of February 10, when the American government announced that it could not admit the right of the German admiralty's proclamation of a war zone to infringe in any way upon the right of neutrals to travel anywhere on the high seas on peaceful merchantmen, and that the German government would be held to a "strict accountability" for any violation of American rights.

Suggestion has been made to the president that the recent note from Germany offering regrets and reparation for the sinking by mistake of the Guiltless be cited in the new note as proof of the American contention that without visit and search the identity of a vessel cannot be established and the lives of neutrals safeguarded. The commander of the German submarine which attacked the Guiltless is reported that he did not see the American flag until "the moment of firing the shot."

There may be some further discussion of the document with legal officers of the government tomorrow, but it is expected to be put in cipher and sent on its way to Berlin tomorrow night.

President Wilson went to church this morning and took a short automobile ride in the afternoon and spent the evening in his study, still at work on the note. Secretaries McAdoo and Houston called during the evening.

### Optimism in German Quarters.

In German quarters the optimism which has been reported since Count von Bernstorff, the German ambassador, talked with President Wilson, continued today, the impression being given that the road to an understanding was much clearer than it had been since the Lusitania was destroyed.

The belief is constantly expressed in German quarters that the crisis over the Lusitania case has passed. It is frequently pointed out, too, that the certain of other neutral rights may lead to a discussion of the general subject of the freedom of the seas, and some German officials have suggested that out of the exchange of notes with Germany, followed by further correspondence with Great Britain on neutral rights, the way may be opened even to the making of peace.

### Attention for the Present in Official Quarters is Fixed upon a Settlement of the difficulties that have arisen between Germany and the United States, and talk of making peace in Europe is heard much less now than months ago.

German officials here estimate that if the American note is cabled Monday afternoon not later than Thursday, a reply probably would require a week's time, at least, and would not be here in Washington much before June 20. Count von Bernstorff plans to go to Berlin on June 17 during the coming week. He has removed the embassy to summer quarters, as have many of the other embassies and legations.

## VILLA AND HIS ARMY FLEEING IN ROUT

Continued From Page One.

passage of the supplies through the Carranza lines.

On its return trip the transport will bring back any Americans or other foreigners who may have reached Vera Cruz from the interior, and who desire to leave the country.

Brigadier General Leval, general manager of the Red Cross, left today for the Texas border to direct the handling of relief supplies.

There was a disposition at both the Carranza and Villa agencies here to treat the subject of peace parties with much caution because neither of the representatives here professed to know how his respective chief would view the subject.

### Confession of Failure.

Informally, however, some Carranza officials expressed their own opinion that the efforts of the Villa elements to make peace was a confession of military failure and the coming disintegration of their movement. Peace negotiations were regarded by the Carranza side, therefore, as an obstacle to an early military triumph by General Carranza with consequent recognition.

On the other hand, in the Villa quarters it was reiterated that the General Villa had from the first expressed a willingness to eliminate himself and restore peace and that recent victories by General Angeles and others indicated that the Villa forces were now in a position.

Officials of the Washington government declined to comment on the situation.

## THREE DEATHS CAUSED BY NORTHWEST RAIN

St. Paul, July 6.—Storms caused three deaths and considerable property damage in western Wisconsin and eastern Minnesota last night and today.

A Chicago, Milwaukee and St. Paul passenger train left the rails near Lake City, Minn., on a storm-damaged bridge, killing the engineer and fireman. A St. Paul, Minneapolis and Northern Pacific passenger train near Roberts, Wis., caused the derailment of another passenger train from Chicago and the death of the engineer.

## AEROPLANE IS DESIGNED TO DESTROY ZEPPELINS

Rome, May 25.—(Correspondence of the Associated Press.)—An aeroplane "destroyer," designed for attacking dirigibles, has been perfected in Italian government workshops. It is an enormous machine, with three separate engines, each with a total energy of more than 250-horsepower. The aeroplane combines the tractor and pusher type of machines—that is, those drawn by an air screw in front and those pushed by an air screw behind.

It consists, in fact, of the bodies of an ordinary tractor biplane placed side by side and far enough apart so that there is room between them for the propeller of a third engine. Each of the two main bodies has its own engine and tractor screw in front, so that it looks as if like two ordinary tractor biplanes flying hand in hand.

On the section of wing which joins the two bodies is placed the body work of an ordinary pusher biplane, with the engine and propeller behind. In this way the body projects well forward in front of the screws of the two engines, so that it can carry a gun of considerable size and have a clear field of fire forward. The wings are on both sides without danger of hitting their own screws or wings.

The ends of the two bodies are joined together at a point well advanced from one to the other, so that actually all parts of the machine are in proportion.

The big machine is capable of lifting a cargo of bombs large enough to be certain to destroy a Zeppelin if they hit it, and even capable of doing serious damage to a battleship.

## EUROPEAN WAR FELT IN WILDS OF SIBERIA

Philadelphia, June 6.—The European war has had its effect even in the wilds of northern Siberia, according to H. U. Hall, who is leading a University of Pennsylvania museum expedition to Siberia to make ethnological collections and study the native tribes. A letter dated at Monastir, on the Yenisei river, received today from Hall, said the price of food supplies and, in fact, virtually all things of advanced material since the war began.

The expedition is expected to return late in the summer.

## "CHILD WELFARE DAY" FOR SUNDAY, JUNE 20

Albany, N. Y., June 6.—In the educational campaign for the saving of babies that has been going on since designated by the state health department as "Child Welfare day," an announcement Sunday, June 19, has been made throughout the state have been asked to co-operate with the department in giving to mothers information that will save the child.

The educational campaign of the health department's division of child hygiene, says its announcement, prevented the deaths of approximately 1,400 infants.

## CHANGES ARE RUMORED IN THE FRENCH CABINET

Amsterdam, June 6.—(Via London.)—The Paris correspondent of the Telegraph states there are persistent rumors there that a reconstruction of the French cabinet will take place shortly and that several ministers will be replaced.

It is reported that Leon Bourgeois, former premier, will have a seat in the new cabinet, and that Victor Augagneur, minister of marine, and Louis L. Malvy, minister of the interior, are among the incumbents who will resign.

## GREAT ALTITUDE RECORD BY BRITISH AVIATOR

London, June 7.—(1.59 a. m.)—Harry W. Hawker, the English aviator, flying an 80-horse power aeroplane at the army aviation grounds at Hendon yesterday, beat the British altitude record by attaining a height of 20,000 feet. The previous record was 14,500 feet. The flight occupied 90 minutes. Hawker was out of sight of the spectators for nearly an hour.

## Seismic Shocks at Frisco.

San Francisco, June 6.—Two slight earthquakes were felt by the general public throughout the city early today. No damage was reported. Observers at the coast reported the earthquakes as violent and that no earthquake had been felt in that region.

## MANY REQUESTS MADE FOR U. S. "WHITE BOOK"

Washington, June 6.—Many requests have been received by the state department for what has come to be known as popularly as the "White Book" of the United States. It is the first volume of a series of papers and notes comprising diplomatic correspondence with belligerent governments relating to neutral rights and commerce. In it is printed the text of all telegrams which have passed between the United States and foreign governments since the outbreak of the war, and general correspondence with reference to restraints on commerce, including the notes exchanged between the United States and the allies and Germany.

As the correspondence develops, additional volumes will be issued of the present number revised.

## TURNER NOT CAPTURED BY THE GERMAN FORCES

Ottawa, Ont., June 6.—An assertion by the Over-Sea News agency in a dispatch from Berlin by wireless last Friday night that "Colonel Turner, commanding the Third Canadian Infantry Brigade," had been captured, was denied by Minister of Militia Sam Hughes tonight. General Hughes stated he had been informed by cable that Brigadier General Turner, C. C. S. O., commanding the Third Infantry brigade, was well and with his brigade.

## PORTO RICO WORKINGMEN MAKE APPEAL TO WILSON

Washington, June 6.—President Wilson was urged in a petition carried to the white house today by a committee representing the Free Federation of Workingmen of Porto Rico to appoint a commission to investigate labor conditions in the island. It was represented that "the rights, the liberties and the lives of the masses of the people of Porto Rico are placed in jeopardy by the mal-administration of the laws." Samuel Gomez, president of the American Federation of Labor, introduced the petition and accompanied the committee, Santiago Iglesias and Privera Martines.

The Porto Ricans declared workers on sugar and tobacco plantations were underpaid, that the island police force had been used to oppress them, that the right of assembly and of free speech and to strike had been denied; that attempts had been made to minimize the teaching of the English language, that more than 200,000 children of school age had been left without school accommodations, and that appropriations for schools had been cut down to lessen the taxes on the rich.

The petition asked that congress give the island a new constitution, that the Porto Ricans be made citizens of the United States.

Since Ruth went cleaning and regarded her boss there as the boy or girl who knows enough to go to the right field.—Judge

## VATICAN COMMANDER SUMMONED BY DEATH

Rome, June 6.—(Via Paris.)—Prince Camillo Rospigliosi, a member of one of the best-known aristocratic families in Rome, died today. He was born in 1850. The prince had been ill for some time, and his death was not unexpected. Prince Rospigliosi was commander of the noble guard at the Vatican, and the papal flag was at half mast throughout the day in his honor. The prince leaves six sons, five of them with the army. Three of his sons married American women.

## B'RITH ABRAHAM URGES FREEDOM FOR THE JEWS

Atlantic City, N. J., June 6.—The Independent Order of B'rith Abraham opened its annual convention here today. Grand Master Leon Sanders, of New York, reported an increase of 88,000 members since he took office six years ago.

A resolution is to be submitted providing for the creation of a congress to use its influence at the coming peace congress—to secure freedom for the Jews throughout the world. An effort also will be made by the congress to have Palestine created into an independent Jewish state. Members declare the resolution will pass by virtually a unanimous vote.

## Which Will Be a Time of Prettier Undermuslins at Lower Prices

Our preparations have been successfully completed. Everything is ready—the June Sale of Undermuslins in all its freshness and appealing beauty gets under way this morning. Take this as fair notice in good time, that if you've Undermuslins to buy, you can profit. For

## The June Sale will stand out notably this year for the Remarkable Values it brings at, what we might call, the EASY Prices.

And therein comes the test of it. It is not so difficult to collect beautiful AND EXPENSIVE garments—but to get beautiful garments—sheer, soft fabrics, womanly, good-taste laces and embroideries, accurately neat stitching—at moderate and low prices, there's the test. Well, you shall see, you shall see.

Today, then, to Chamberlin-Johnson-DuBose Co.'s and to tables piled high with immaculately fresh Undermuslins.

## Gowns Teddy Bears

**AT 49c**—Fifteen styles at this price, and each one a better value than we've had heretofore. Of nainsook and crepe. Low necks, short sleeves; lace trimmed, imitation filet, torchon and Val, embroidery trimmed; medallions of hand-machine embroidery. Every gown is in full size.

**AT 69c**—Ten styles, the fabric is an unusually sheer nainsook; some show touches of colored batiste bands; others embroidery and lace trimmed; low neck, short sleeves; high neck, long sleeves; yokes of embroidery with cluster tucks.

**AT 79c**—More than a dozen styles; nainsooks and tinted crepes, hand-machine embroidery, dainty laces; embroidery medallions; solid embroidery yokes in many of the high neck styles.

**AT 89c**—Twelve styles; nainsooks and striped and Dresden crepes; high, V and low, round necks, with lace and embroidery trimmings that are decidedly more elaborate than we've been able to offer before at this price.

**AT 98c**—Far prettier gowns than ever before at this price—and one style after another to the number of thirty-five to choose from. Nainsooks and crepes, with Val and filet laces, Swiss embroideries and acro cloth medallions; low neck and short sleeves; high and V necks with long sleeves; pajama styles, empire styles; splendid choosing here.

**AT \$1.19**—Empire and kimono styles trimmed with Val and embroidery insertions and ribbons.

**AT \$1.49**—Some of these twenty styles were \$2.25 and \$2.50 in our own stocks. Empire and kimono styles with deep lace yokes (back and front); sleeves are almost all lace; medallions adorn many of the yokes. Very fine nainsook.

**AT 49c**—Something new—two styles of Teddy Bears of nainsook, lace trimmed, at 49c!

**AT 98c**—Fifteen styles, of dainty nainsooks, neatly trimmed with laces and embroideries.

**AT \$1.49**—Of imported dotted mull, very light, very soft; Val edges and insertions and embroideries trim the yokes and the skirts.

**AT \$1.98 to \$3.50**—Most charming garments, stamped with netweave, Val, filet and torchon laces used together with organdie medallions, make them lovely. Dresden embroidery on many.

## Corset Covers

**AT 19c**—Regular 25c garments, trimmed with laces and embroideries and neatly made. Fly fronts.

**AT 25c**—Five styles, drawstring waists, torchon lace and embroidery trimmings; made in full sizes.

**AT 39c**—New ones of good nainsooks; others are somewhat soiled garments that were, when fresh, 49c.

**AT 49c**—Some sixteen different patterns. You may select the elaborately trimmed or the very neatly and daintily trimmed. Sturdy laces and embroideries on nainsooks.

**AT 75c to \$2.98**—A wonderfully representative collection of neatly trimmed corset covers; some with peplum, some with draw strings; doubtless the most liked will be those with embroidery medallions centered in laces; trimmed back and front.

## Combinations Petticoats

**AT 98c to \$3.98**—Corset covers and drawers. You will note at once the elaborate and yet good-taste use of laces, embroideries and ribbons; Val laces and princess lace medallions.

**AT \$1.25 to \$3.50**—La Grecque combinations, princess styles; showing the most excellent workmanship.

**AT 29c**—Regularly 79c; because they are somewhat narrow. A smart woman will make short skirts of them and save. Trimmed with torchon laces.

**AT 50c**—Two styles; full flounces; one embroidery, the other lace trimmed.

**AT 75c**—With deep embroidery flounces; with double flounces; the top one showing cluster tucks, others lace trimmed; sheer, soft fabrics for dancing frocks.

**AT 98c to \$7.95**—A great, fine stock that means gratifying choosing. Exquisitely fine fabrics, adorned with exquisitely fine laces and embroideries; double front panels in many; all in the new full widths.

## Drawers

**AT 19c**—Four styles cluster tucks, embroidery edged, hemstitched hems; cotton torchon edged.

**AT 25c**—Eight styles of splendid muslin; choose those with lace, or those with embroidery trimmings.

**AT 29c**—These were 50c and are put in the June sale because they are a bit soiled; straight and circular styles.

**AT 39c**—Our regular 50c drawers; straight and circular styles; lace and embroidery edges and insertions used most effectively with cluster tucks; a splendid variety.

**AT 49c**—Twenty-four styles, far prettier than we've been able to show before at this price. The muslin is soft and evenly woven; the laces and embroideries are neatly patterned, and they are so prettily used.

Crackers Open Series in Memphis

Edited By Dick Jemison

Crackers Tackle Chicks; Four-Game Series Opens With Game There Today

GAME IN DETAIL. The game between the Memphis Chicks and the Atlanta Crackers today will be called in detail by Dick Jemison, at his matinee parlors on the Viaduct. The admission fee will be 25 cents. The game will start at 5:45 o'clock. All other games by inlines.

The Chicks got the better of the argument when they played the Crackers at Ponce de Leon, and the locals are smarting for a chance to get back at them. They'll get this chance this week. After the series with the Chicks the Crackers pay their second visit of the season to Pelicanville, breaking even on their last trip there. This visit will close the road trip, games being scheduled with the Pelicans for Friday, Saturday, Sunday and Monday. Tuesday the team is home for five games with the Mobile Gulls.

SOUTH ATLANTIC CUTS PLAYING SEASON

President Says League Is Financially Sound; Curtailment for Business Reasons.

Savannah, Ga., June 6.—President N. P. Corish announced tonight that the South Atlantic League schedule had been changed, the second half of the season to start June 10, instead of June 15, as originally provided in the schedule. The season will come to a close July 20 instead of August 23, the date originally set.

NATIONAL LEAGUE

Brewers 5, Reds 2. Cincinnati, Ohio, June 6.—Boston's batting rally in the tenth and two errors by Dooin beat Cincinnati today, 5 to 2, after that held Cincinnati safe. Dooin fumbled two bunts in front of the plate, both allowing batters to reach first base.

GENE PAULET IS HARDEST HITTER

Has Made 90 Total Bases on His Hits This Season. Roy Moran Leads the Crackers.

By Dick Jemison. Gene Paulet, of the Nashville Vols, is the hardest hitter in the Southern league. Gene has registered 90 total bases on his hits thus far. Harris, of Chattanooga, is second, and Sloan, of Birmingham, third.

AMERICAN LEAGUE

Tigers 6, Yankees 4. Detroit, June 6.—The old Bill Donovan, for years the idol of Detroit fans, tried today to show his new York club the way to victory against the Tigers. He failed, 6 to 4. Cheered by thousands of old-time friends, the Yankees manager opposed Cavett, Kottel and Numamaker, Cavett and McKee.

FEDERAL LEAGUE

Chicago 10, Pittsburgh 5. Chicago, June 6.—Chicago outsluggered Pittsburgh and won a hard hitting game today, 10 to 5. Knetzer's lack of control and his lack of hitting the home team caused his withdrawal, and Dickson, after three hits had been made off him without his retiring any one, gave way to Leclair. McConnell was batted hard, but Hendrix, who took his place in the sixth, stopped the visitors from scoring the ninth when an error helped them to two runs.

Has Running Start This Season, Something He Has Never Enjoyed in the Past.

By Dick Jemison. Tyros Raymond Cobb seems destined to have the greatest year in his history. The great Georgian is off to a running start this season, something that he does not usually enjoy.

CHICKS 12, PELS 8

Memphis, June 6.—Weaver's wildness in the fourth inning and his team-mates' errors gave Memphis a facile lead over New Orleans in a free hitting game today which the local team won, 12 to 8. Six of the eleven men who played for Memphis in the four innings scored. Coyle's home run in the third brought in four runs for New Orleans and made a lead of one over him with a home run in the fourth.

CAMPAIGN IN HOLLAND FOR NEW INDUSTRIES

War Has Caused Dutch to Realize Need of Making Country More Independent.

The Hague, Netherlands.—(Correspondence of the Associated Press.)—Attention is being given in business circles in Holland to the question of the possibility of developing new industries in this country and by this means rendering the Netherlands more independent of other countries in the event of a similar crisis arising to that brought about by the present European war.

Several Industries Relaxed. Owing to Holland's dependence on materials from outside, several of the industries have for some time been being closed, and those employed in them have been thrown out of work. For instance, the sugar factories and the paper mills have been closed in Holland, had been badly affected, in the first place by the prohibition of the export of sugar, and in the second place by the refusal of England to permit the import of sugar from Holland.

Gold and Silver Trade.

Another group of trades, which has suffered enormously through the war is that composed of gold and silver. It is impossible to procure the necessary metals for the fabrication of the numerous coins and medals which are sought after by tourists, while those countries which are the best customers for trinkets—Belgium, France, Germany and the Scandinavian nations—showed no desire to purchase what are generally considered luxuries.

ONLY SIXTEEN, GIRL VERY SICK

Tells How She Was Made Well by Lydia E. Pinkham's Vegetable Compound.

New Orleans, La.—"I take pleasure in writing these lines to express my gratitude to you. I am only 16 years old and work in a tobacco factory. I have been a very sick girl but I have improved wonderfully since taking Lydia E. Pinkham's Vegetable Compound and am now looking fine and feeling a thousand times better."

HEAVY CASUALTY LISTS FOR THE BRITISH FORCES

London, June 7.—(3:09 a. m.)—The casualty lists for the week-end are the heaviest since the war began. They include 80 officers and 2,200 men of whom 1,474 were killed. This brings the total British losses during the last week to 260 officers and 1,700 men.

The Horses of War.

It is very interesting to learn that 1,500 horses have left this port on the Glasgow bound for the front, and that even the bridal suite on that zone too commodious liner has been sailing to the front. It would be still more interesting to know how many of them will be wasted by negligence on the battlefield.

France has not been conspicuous for her kindness to her equine friends, saving her good offices for the ubiquitous native dog, so far as the observation of foreign visitors may be trusted. It is not wise to have in the dire emergency she thrifly conserves her supply of horses. It is not every day that a liner has 1,500 patient beasts from our shores.

DUTCH BOOKSELLERS CATER TO ALL TASTES

Equal Space Given to Pro-German and Pro-Ally Books With Dutch Literature Between.

The Hague, Netherlands.—(Correspondence of the Associated Press.)—The canny Dutch bookseller strives to please all tastes and satisfy all demands by attempting to divide his shop space scrupulously into equal parts, in one of which the German propaganda is spread out, while another is devoted to French, English and Belgian polemical literature.

The numerous gray, red, white, orange and other colored official statements of the belligerent nations are omnipresent in every language. As in Germany, the bookshops of Holland are almost as densely sown with bookshops as the fields of the lowlands are sown with windmills. The freedom from the restraints of any copyright laws—a relic of the days when almost every revolutionary brochure bore the imprint of Amsterdam, and Holland alone stood for the liberty of the press—fostered scores of shops where books in every western European tongue and on every conceivable theme were offered for sale.

CHIEF KILLED BY AUTO HE SIGNALLED TO STOP

Scranton, Pa., June 6.—Henry Reese, chief of police of Dickson county borough, near here, was run down and killed tonight when he stepped into the roadway to signal an automobile alleged to have been exceeding the speed limit to stop. There was room for the car to pass the policeman, but the chauffeur lost control of the steering wheel in trying to avoid the collision.

St. Clair, Pa.—"My mother was alarmed because I was troubled with suppressed and had pain in my back and side, and severe headache. I had pimples on my face, my complexion was sallow, my sleep was disturbed, I had nervous spells, was very tired and had no ambition. Lydia E. Pinkham's Vegetable Compound has worked like a charm in my case and has regulated me to many of them."

There is nothing that teaches more than experience. Therefore, such letters from girls who have suffered and were restored to health by Lydia E. Pinkham's Vegetable Compound should be a lesson to others. The same remedy is within reach of all.

If you want special advice write to Lydia E. Pinkham Medicine Co. (containing the name of your letter) will be opened, read and answered by a woman and held in strict confidence.

CARNEGIE FOUNDATION TO ADVANCE TEACHING

New York, June 5.—The Carnegie Foundation for the Advancement of Teaching shows a total endowment of \$14,250,000, a surplus of \$1,245,000, and an annual income of \$746,000, and an annual expenditure of \$718,000 for the year ending September 30, 1914, according to the ninth annual report made public tonight.

A study of the history of important engineering schools and land grant colleges has been made. Many schools have been visited. A study of the training of teachers in Missouri is being made. A study of education was made in Vermont, and as a result, the report says, many of the foundation's recommendations have been enacted into law.

The total expenditure for allowances since the beginning of the foundation is \$2,511,000. The study of legal education, undertaken at the suggestion of the American Bar association, the report states, has resulted in the publication of a survey of the case system of teaching in American law schools by Professor Josef Redlich of the University of Vienna. Material already accumulated represents the combined effort of some forty legal scholars, teachers and attorneys.

# 140 Girls to Graduate From Georgia Normal and Industrial College

Picture showing large graduating class of the Georgia Normal and Industrial college at Milledgeville. The photo was taken during a trip of the seniors to Macon.

Milledgeville, Ga., June 5.—(Special.) On the eve of being inaugurated governor of the state Judge Nat E. Harris of Macon, is to address the 860 students of the Georgia Normal and Industrial college next Monday morning at 10 o'clock.

At that time diplomas will be awarded to 140 girls, the largest number of young women to ever graduate in one year from a Georgia college. All of these young women are from Georgia.

One of the features of the commencement days at G. N. I. C. will be "open house" Monday, when over 3,000 visitors are expected. President Parks states that he has every reason to look for that many, as the school has made hundreds of new friends during the past few months.

The college is closing the most successful year in the history of the institution. The total attendance has been \$61.

The college has been unable to accommodate one-half of those who have applied for entrance within the pres-

ent year. During the past six years about 4,000 students have been refused admission to the college because of a lack of room. These are startling facts.

The recent rapid growth of the college is gratifying; the increased attendance, the new buildings, the attractive equipment, the harmonious organization, the fine college spirit—all these are encouraging. But more important than temporary success is the influence a college exerts in the formation of correct ideals. This G. N. I. C. tries to accomplish.

Rev. Richard Ormsby Fitts, pastor of the North Avenue Presbyterian church, of Atlanta, will deliver the commencement sermon next Sunday before the 140 graduates of the Georgia Normal and Industrial college at Milledgeville.

Sunday marks the closing of one of the most successful years of the Milledgeville institution, and since this is the largest class ever to graduate from a Georgia college in one year Rev. Mr.

Fitts accepts the invitation with gratitude.

The graduates are as follows:  
 President—Allie Myrick, Milledgeville.  
 Vice President—Vesta Green, Canton.  
 Secretary—Agnes Wiley, Sparks.  
 Treasurer—Dora Clark, Canton.  
 Aikinson Hall Vice President—Maggie Jenkins, Carrollton.

## JUNE FINANCE SHEET BEFORE COUNCIL TODAY

Finance Committee Will Hold Meeting at 2 O'Clock This Afternoon.

It is more than probable that the June apportionment sheet will be adopted by council with only one change, and that will be the addition of \$9,000 for schools, making the total for schools \$91,000. This change is to be made by the finance committee when it meets at 2 o'clock Monday afternoon.

While the finance sheet may go through without a scrap, although the mayor has not said he was satisfied with it, there will be, however, some other things over which rows are looked for.

There is almost sure to be a fight over the ordinance of Alderman Seawright to keep off the board of education any teacher who has been or ever will be connected with any book publishing house.

Along with the Seawright ordinance will come the Ashley ordinance to prohibit the election of any schoolteacher who is a kinsman of any member of the board of education. This will also provoke a fight, it is said.

The charter revision committee will report that it favors the following changes in the city government: First, to make the chief of construction elected by the council instead of by the people; second, to establish a municipal farm for dope fiends; third, to divide the offices of tax assessors and collectors, so that the latter will be elected by council.

Altogether, the meeting of council tonight is expected to be the most interesting that has been held in some time.

## Atlanta Beauties Warmly Praised By Kitty Gordon

Creator of "Alma" Says Flo Ziegfeld Would Do Well to Send Scout Here to Watch Peachtree Promenade.

Resident pedestrians have been passing them every day in the week until they have grown accustomed to their charms, and, therefore, are more or less disinterested, but did you know that seven out of every ten native Atlanta girls whom you encounter on Peachtree or Whitehall street are eligible for the most exacting chorus organization on Broadway?

If you doubt it, take the word of Miss Kitty Gordon. She knows, for she arrived in town Sunday morning, and she says that the representative Atlanta girl is the most smartly dressed, the prettiest and the most appealing she has encountered in any city, New York included.

It was Miss Gordon who created the role of Alma in "Alma, Where Do You Live?" and a number of other successful roles. As the highest-salaried vaudeville actress who ever trod the boards of the Forsyth theater, it is her first professional visit to a town of any where near Atlanta's population.

Yet she marvels that a city of Atlanta's size should possess what she exuberantly terms "the prettiest girls she has ever seen." In her suite of rooms at the Hotel Astor last night she told a reporter for The Constitution that she had spent an hour on Peachtree Sunday afternoon, watching the hundreds of southern beauties who were promenading down town.

"And do you know," she said, "I have never seen anything so comely as these girls here. I have always given Fifth avenue, in New York, credit for the handsomest girls in the nation, but Atlanta and Peachtree have Fifth avenue backed off the board."

The girls she saw on the streets this afternoon are the ideal beauties. Seven out of every ten I passed would qualify for the payroll of the biggest musical comedy chorus that was organized on Broadway. I am a personal friend of Flo Ziegfeld, and when I get back to New York I am going to recommend that he send a beauty scout to Peachtree street to augment his chorus."

## EDWIN M. NIX MAKING BRAVE FIGHT FOR LIFE

Young Wife Is Constantly at Beside of Her Wounded Husband.

Lying on a white cot in the observation ward of the Grady hospital, with death staring him in the face, Edwin M. Nix, an electrician in the employ of the Georgia Railway and Power company, who was probably fatally shot at Mathis, Ga., near Tallulah Falls, early Friday morning, accidentally, is making a brave fight for his life, in which he is hourly encouraged by his young wife, who is constantly at his bedside.

The doctors attending Nix hold out little hopes for recovery, and never expected that he would live as long as he has, but Nix doggedly sticks it out. He is determined not to die.

The bullet which struck him accidentally by H. T. Hartwell, of Mathis, resident engineer of the Northern Construction company, in a portion of the spinal column at the base of the neck. The physicians have operated on Nix here to relieve the pressure of the wound of this nerve center. The bullet has not been removed, having lodged in his left shoulder after entering the right side of his neck.

Nix and Hartwell were examining a new automatic Colt when it was accidentally discharged.

## Fire Sweeping Adirondacks.

Utica, N. Y., June 6.—Much damage is being done in the Adirondacks by the forest fires. Fire wardens tonight declare that unless rain comes soon there is no estimating the loss. The Nelson lake region has been fire-swept for many acres. Near Ragged lake fire has burned over nearly 800 acres. At Cranberry lake 1,000 acres are burning and 200 have been burned at Brantreth lake.

## FREE SWIMMING CAMPAIGN WILL OPEN THIS WEEK

The free swimming campaign to be conducted this week by the physical education department of the Y. M. C. A. commences this morning. Every thing that has been done by the officials teaching the several groups of novices in perfecting a schedule, and system by which any number of applicants may be taught in the space of six days to become efficient swimmers, so that they are requested to learn definitely the time his periods come from day to day as there will be no room for delinquents to be accommodated in other groups.

## Georgia Osteopaths Plan to Get Meeting In 1916 for Atlanta

The osteopaths of Georgia are planning to make a determined fight to secure the national osteopathic convention for 1916 for Atlanta. A large delegation of practitioners from this state are planning to attend in a body the 1915 convention of the American Osteopathic association, which will be held the first week in August in Portland, Ore., and they are planning an extensive campaign to stampede the meeting in favor of convening here next year. Among the osteopaths who are interested in this campaign are Dr. W. W. Blackman, Dr. E. L. Broach, Dr. W. R. Foster, Dr. Otto H. Grube, Dr. M. C. Hardin and Dr. John W. Phelps.

This is one of the biggest professional conventions in this country, there are from one to two thousand delegates present and the sessions last for an entire week.

The "mel" invaded even the field held sacred to science and will figure as one of the features of the Portland convention. The latest up-to-date discovery of this use of the movies is their peculiar value in diagnosis. The osteopaths were the ones who first found the use of this, and they will first demonstrate it in Oregon in August. Dr. J. Ivan Duffur, professor of medicine in the Philadelphia College of Osteopathy, is the man who first succeeded in making diagnostic films and he will bring and display them at a great public meeting in Portland.

## DRY GOODS MEN WILL MEET HERE JUNE 18

For the purpose of discussing conditions of trade, the third division of the Southern Wholesale Dry Goods association will meet in annual convention here, June 18 and 19. There will be present members from South Carolina, Georgia and Florida, and also guests from Alabama and Virginia, who will give their local versions of the present transition to better commercial conditions.

The convention will be called together by Chairman J. R. Little, president of Longworth-Little and Lenoire company, in the Piedmont hotel, which has been selected as the official headquarters. The delegates will also be entertained with a banquet there during their stay.

## PEACE UP TO PEOPLE, SAYS GOV. BRUMBAUGH

Hershey, Pa., June 6.—Governor Martin Brumbaugh, who is a minister of the Church of the Brethren, speaking before the church's annual conference here today, declared peace should be the aim of the people; and that it would come to Europe when the rulers learned that the will of the people was supreme. He reviewed great struggles of history and pointed out that peace came when the people let it be known that they desired war to end.

## To Improve Expression As Well As Complexion

No face is really beautiful that lacks expression. Do you realize that continual use of powders and creams tends to spoil pliancy of skin and elasticity of expression? Why not quit cosmetics, use something better, which won't clog the pores or make the skin dry, pasty or oily? Ordinary mercerized wax acts quite differently from any cosmetic. It wonderfully improves any complexion, giving it life and expression. By gradually, harmlessly peeling off the thin veil of surface skin, it brings to view a pure, soft, spotless complexion, delicately beautiful and youthful. Every druggist has this wax, it is sold in more than an ounce is needed. It is spread on nightly like cold cream and washed off morning. In a week or two the transformation is complete. Wrinkles do not, of course, enhance the expression. Neither do the nasty things many use to eradicate them. A treatment free from all objection is made by dissolving 1 oz. powdered salicylic acid in 1/2 pint witch hazel; use as a wash lotion. This soon removes even the most obstinate wrinkles.—(adv.)

DENIED PERMISSION TO VISIT CHILDREN, SHE TRIES SUICIDE

Macon, Ga., June 6.—(Special.)—Despondent because the authorities of the Appleton Church home had refused to permit her to see her children, Mrs. Mamie Thurman, who resides on Jeff Davis street, threw herself into the Ocmulgee river at a point known as "Lovers' Leap," near the Spring street bridge, today and, but for the timely arrival of four negro men who heard her screams, she would have drowned.

Hereford Bulls Bought by the County

FULTON COUNTY'S HEREFORD BULLS.

A move in behalf of the stock-raising interests of Fulton county has been taken by the board of commissioners in the purchase of two registered Hereford bulls of registered breed.

They have been installed in the Ballwood camp and are at the disposal of county residents for breeding purposes. The first is a prize Hereford, Edmund Second, registration No.

458438, and the second is Leeton Boy, registration No. 497685. Both animals were owned by E. E. Wall, of Leeton, Missouri.

The establishment of Hereford animals for public service was done for several reasons, largely because they are a healthy and vigorous breed; can be maintained on less feed than any other breed; convert cheap feed into

high-priced beef; adaptable to climatic conditions; mature at an early age at profitable weight; prolific of breed; cows are good milk producers.

The commission have also bought a prize Holstein bull for the benefit of the county dairy interests. This last purchase, however, has not arrived. The Holstein stock is considered more valuable as a milk producing breed.

Bishop Hoss and Bishop Candler Preach to Students at Emory

Oxford, Ga., June 6.—(Special.)—Despite clouded skies and forbidding weather a great congregation assembled today in the Allen Memorial chapel to hear the Emory commencement sermon of Bishop E. E. Hoss.

Bishop Hoss has been for many years one of the strongest figures in Southern Methodism. He is the oldest living male descendant of the great John Sevier, and he inherits many of the noblest characteristics of his famous ancestor.

Today Bishop Hoss preached on the moving theme, "God's Answer to Man's Cry." The eloquent preacher enlarged with clearness and power upon the universal hunger of the human heart to know God, advertising to the cry of Moses, "I beseech Thee, show me to Thy glory," and to the pathetic words of the Hebrew Psalmist, "As the heart panteth after the water brook, so panteth my soul after Thee, O God." He quoted also the thrilling words of St. Augustine, "O God, Thou hast made us for Thyself, and our hearts are restless till they rest in Thee."

God Known Instinctively. He asserted with emphasis that the most universal and indelible instinct of the human heart is that one which prompts it to seek for acquaintance with God Himself. He insisted that this deathless instinct assured the reality and truth of the knowledge of God, affirming with unanswerable force, "Our human nature is at least as divine as the angels, for we range as it is along its lower levels," and "It is a perfectly sound argument by which from man's longing for a knowledge of God we infer that he is capable of obtaining it."

With invincible logic the bishop attacked the assumptions of materialists and the paralyzing system of agnosticism. Advancing along the line of his splendid argument, Bishop Hoss declared that God, answering to man's hunger for divine knowledge, had revealed the moral law which is imbedded in the very nature of man, in the historical revelation made by the Holy Scriptures, and best of all, in Jesus Christ, "who shows men the divine Father in fairest lines and tenderest form."

Speaking of Christ, he said: "He does not come to us as a mere messenger from God, but He comes as God's very self, yet clothed upon with a perfect human nature, and so tabernacled among us, He incorporates Himself into the very body of our humanity, and lays on His own heart, of His own accord, the burden of our infirmities and sorrows and our sins." He went on to say that the revelation which Jesus made rose to very great heights in the course of His life, but it reached its culmination in His atoning death. The cross is the highest peak of revelation because it is a vast object lesson in self-renunciation, self-surrender and self-sacrifice. It is the highest love, interpreted, it spells undying love.

The vast congregation heard with the greatest interest his thrilling Christian sermon, and the large graduating class, seated in a body immediately before the preacher, seemed to be profoundly impressed. A stronger presentation of the truth of the gospel had scarcely been made in the chapel since the death of the late Dr. Young, of Oxford, and a man dearly beloved in Oxford.

At the evening service, Bishop Candler preached on the text, "Hold fast the form of sound words, which thou hast heard, which is in Christ Jesus," I Timothy, 3:15. He argued that the decay in doctrine resulted in demoralization, life and disorder in society.

The commencement has drawn to Oxford from all parts of the State of Georgia and other states. Rev. Forrest Prettyman, D. D., chaplain of the United States senate, is the principal orator. He is a man of marked ability, ripe scholarship and most engaging personality. The board of trustees meets Monday morning at 10 o'clock.

Habersham Players Will Present "As You Like It"

The very large audience at a recent performance of "As You Like It" was a surprise to many people, and proved conclusively that the great play of the mentally unemployed in Atlanta is capable of enjoying something better than what is usually served up here in the form of amusement. To those who are not too old to remember the beauties of Shakespeare, it is not necessary to speak of the contemplative Jacques, Touchstone, prince of philosophers, or the "rustical" Audrey. From the entrance of Adam, which part is said to have been taken by Shakespeare himself, to the epilogue of Rosalind, there is never a dull moment. Even the wrestling match which is wonderful, appeals even to those who are not fascinated by the wit nor touched by the pathos of the lines.

For the first time in Atlanta the beautiful first act will be given, preserving the continuity of the play; for the first time will be heard the incidental music which is such a delightful feature of all Shakespeare plays, and for the first time will be seen the wrestling match which is usually omitted by traveling companies. The play will be given in the dense wood adjoining the residence of Colonel Speer, the entrance being designated by a sign. This is the Forest of Arden, Thursday, June 10, at 8 p. m. Elaborate preparations have been made for the presentation of this comedy by the Habersham Players, and nearly all the boxes of the pretty little woodland theater have been spoken for.

Railway Men Will Gather at Piedmont Monday and Tuesday

For the first time that it has ever met outside of New York city, the American Railway association will meet in Atlanta Monday and Tuesday at the Piedmont hotel. There will be between fifty and one hundred delegates in attendance. John E. Fairbanks, of New York, assistant general secretary and treasurer, arrived in Atlanta and registered at the Piedmont Sunday afternoon. On Monday a committee will consider weighing, on Tuesday a committee will consider marking and handling freight.

GRANT PARK

The desirability of modern homes conveniently situated to Grant Park is emphasized by the fact that you seldom hear of one being offered for sale. When one is offered for sale it does not stay on the market long, because buyers are quick to take advantage of the many opportunities offered by homes overlooking Grant Park.

Invest a Month in Health

Yes, a month is a good deal of time if you are a busy man. You can do a good deal of work in a month.

But—not if your health account is overdrawn; not if you are tired and run down and in need of rest. In this condition it will take you two months to do the work of one.

Suppose you invest one month in health and rest—scientific rest that gets at the true sources of fatigue. Surround yourself with environment in which right living is a matter of course. Eat, rest, exercise under scientific direction which makes the most of every hour you put into your health investment.

Many a business man has found that a month spent in this way yielded the largest dividends he ever drew.

For nearly half a century the great health resort at Battle Creek has been teaching and demonstrating the ways of good health, helping people to get well and teaching them how to keep well at the same time. Its operation is directed by a staff of forty physicians with hundreds of trained nurses, dietitians, masseurs and other assistants. Its equipment for teaching health methods is the most complete in existence.

Prices are in keeping with the accommodations chosen. You may live very well or very modestly. For particulars and terms write to 505 Administration Building, Battle Creek Sanitarium, Battle Creek, Michigan.

All express trains between New York and Chicago on the Michigan Central stop at Battle Creek. A limousine will meet you at the station.

GEORGIA DENTISTS HOLD BIG MEETING IN ATLANTA JUNE 17

Special efforts are being made for the entertainment and instruction of the 250 members of the Georgia Dental association by the local committee, which has selected the Piedmont hotel as the headquarters of the convention during its sessions, which commence June 17.

The feature of this convention will be the facilities afforded the many manufacturers of dental supplies for exhibition purposes. This entire floor of the hotel has been leased for their use, and under the direction of Dr. DeLoz L. Hill every detail is being arranged to make complete this adjunct to the convention's meetings, which is considered so important by visiting dentists.

Dr. E. E. Roach, Chicago, and Dr. Theodore Blum, New York, who have international reputations, will be the special conductors of the progressive clinics which have been arranged. The officers of the present year are: Dr. E. N. Tigner, Milledgeville, president; Dr. M. B. Hull, Arat vice president; Dr. A. A. Williams, Columbus, second vice president; Dr. M. M. Forbes, secretary; Dr. W. M. Zirkle, treasurer.

PREPARE TO CALL NEW PASTOR SOON AT SECOND BAPTIST

At the close of the morning services of the Second Baptist church, Sunday morning, the congregation passed a resolution authorizing the chairman of the board of directors, A. D. Adair, to appoint a committee of twenty-five members of the church to take into consideration the nomination of a new pastor, Dr. John E. White, having recently resigned. This committee will be appointed by Mr. Adair at an early date.

"SAFETY FIRST" SIGNS, DR. PROCTOR'S SUBJECT

"Safety First" was the subject of the sermon by Rev. H. H. Proctor to his people at the First Congregational church, colored, last night, suggested by the sign posts recently placed near all the public schools of Atlanta as a warning against speed in their vicinity. These "safety first" signs, placed conspicuously in our city and in all other cities of the land, recognize that the twin sins of the age are speed and greed. The warning is needed not only in the physical and financial realms, but also in the moral and spiritual. Men are living too fast today. They are putting material and temporal values first; things which are their life but that is never first. The things that have the first place in life are the moral and spiritual values.

AT THE THEATERS

Keith Vaudeville.

(At the Forsyth.) Forsyth patrons are going to have the treat of the season at the busy theater, during the regular part of the week, afternoons. Miss Kitty Gordon, the famous theatrical star, heads the bill of special attractions and among the others who will contribute to what promises to be the superior of the best show of the season will be Miss Ray Deoley, assisted by Elmer Graham and Miss Betty Gordon. The Swain-Gorman Trio, and Frank Markley, Miss Gordon scored a great triumph, and won world-wide publicity in the production of the famous success "Aime, Where Do You Live?" and her tour in "Pretty Miss Smith." Her performance has been so successful that she is one of the most powerful drawing cards in vaudeville. It has been conceded that she is one of the most powerful drawing cards in vaudeville. It has been conceded that she is one of the most powerful drawing cards in vaudeville. It has been conceded that she is one of the most powerful drawing cards in vaudeville.

Mary Pickford.

(At the Grand.) That Mary Pickford is the highest-salaried star in pictures is a fact that is pretty well established. That the dainty little entertainer is the most popular part of the screen is another fact that will not be argued. And whenever there is an announcement that Mary Pickford is to appear in an absolutely new picture, the movie fans get busy and pass the theater in which her feature is shown today and Tuesday. Miss Pickford will star in "The Dawn of a Tomorrow" and "The Dawn of a Tomorrow" will be the best picture that the star has yet been afforded. The leading character in "The Dawn of a Tomorrow" is the incomparable Mary Pickford unlimited artistic advantages. The picture will be shown at the Grand for today and tomorrow only.

Russo-Swedish Treaty.
